Satan's bolete (exterior view above,  
interior view below)

Fungarium • © Big Picture Press, Katie Scott and the  
Board of Trustees of the Royal Botanic Gardens, Kew

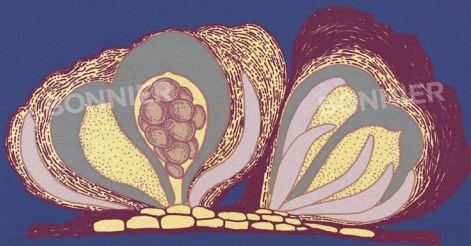

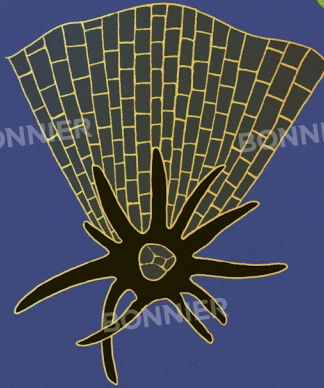

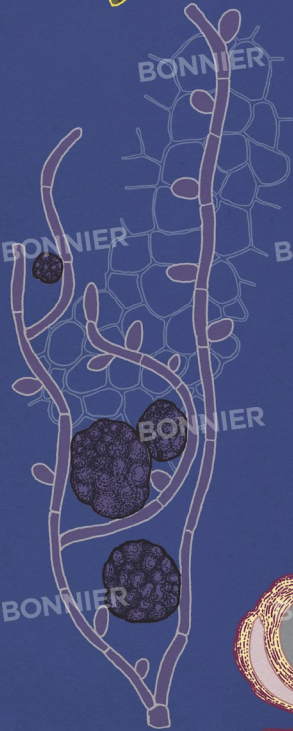

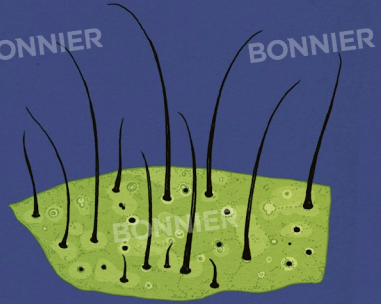

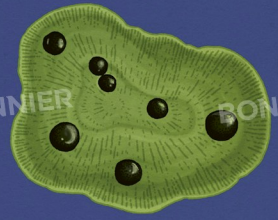

**Clockwise from top-left:** Turkeytail fungus,  
violet webcap, Satan's bolete, blue roundhead,  
earthstar fungus

Fungarium • © Big Picture Press, Katie Scott and the  
Board of Trustees of the Royal Botanic Gardens, Kew

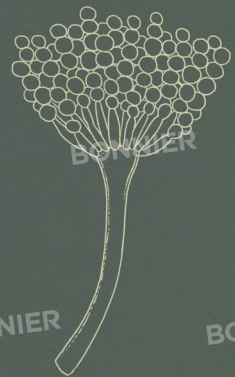

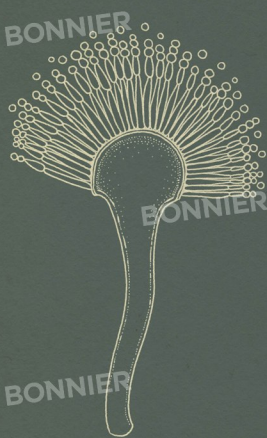

**Clockwise from top-left:** *Meliola urariae*, leaf with fungal colonies, *Strigula orbicularis* sporling body and thalium, *Strigula orbicularis* cross-section, *Tricharia urceolata*, *Peltistroma junuanum*, *Parenglerula macowanianus* section of sporling body, *Parenglerula macowanianus* mycelium growth on leaf, shield fungus

Umbrella basidiolichen

Fungarium • © Big Picture Press, Katie Scott and the  
Board of Trustees of the Royal Botanic Gardens, Kew

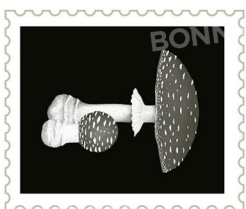

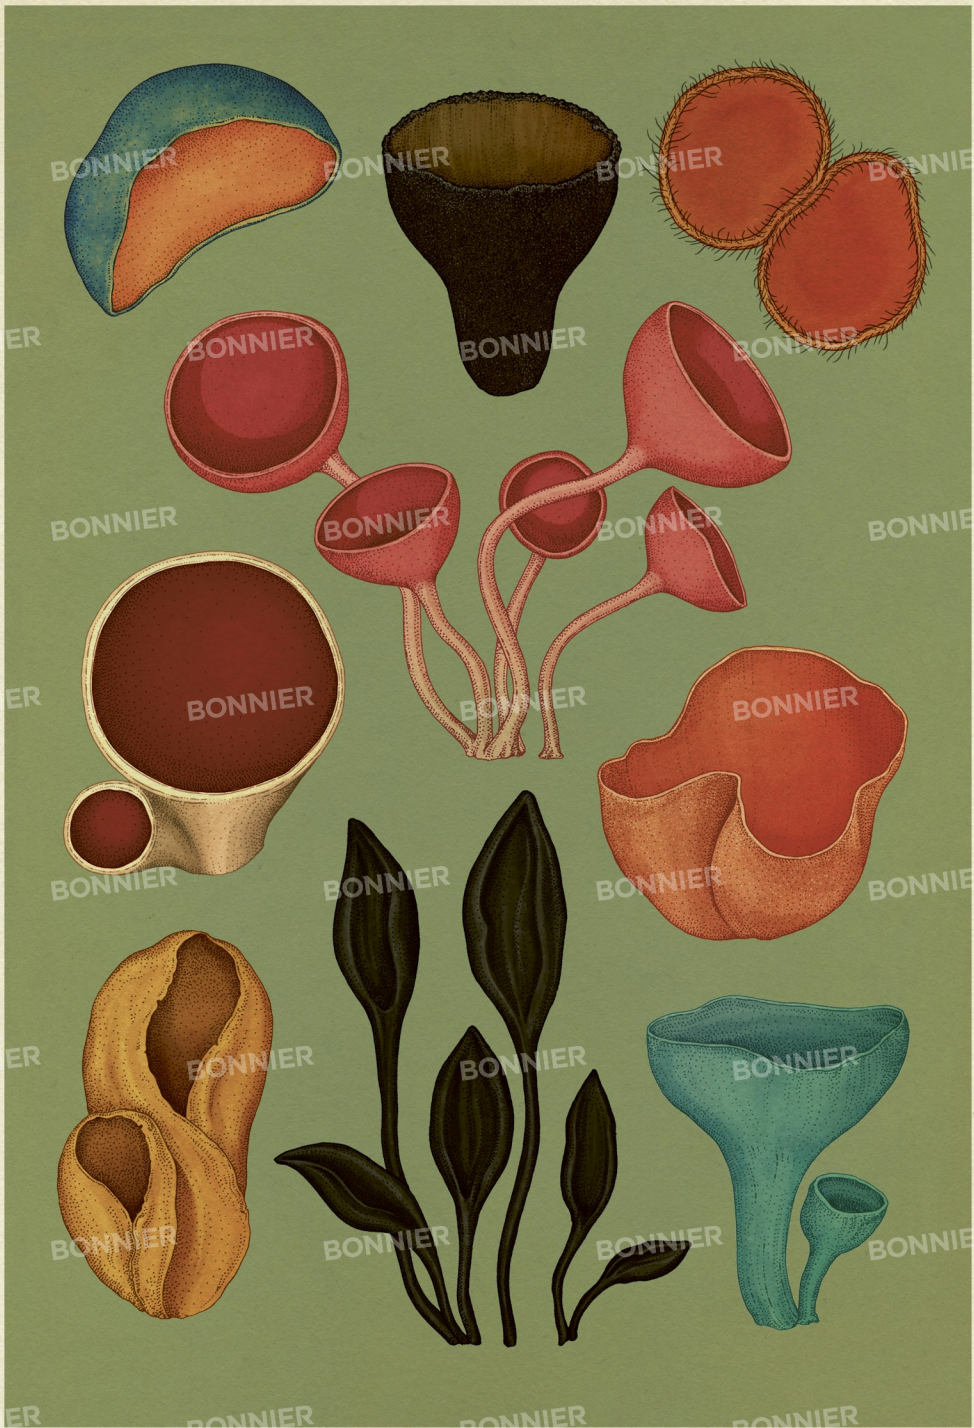

**Top to bottom, from left:** *Glared lozoyensis*,  
*Penicillium rubens* growing on a culture plate,  
*Aspergillus terreus*, *Isaria sindairii*, *Penicillium*  
*rubens* under a microscope, *Aspergillus terreus*,  
*Tolyposciadium inflatum*

Fungarium • © Big Picture Press, Katie Scott and the  
Board of Trustees of the Royal Botanic Gardens, Kew

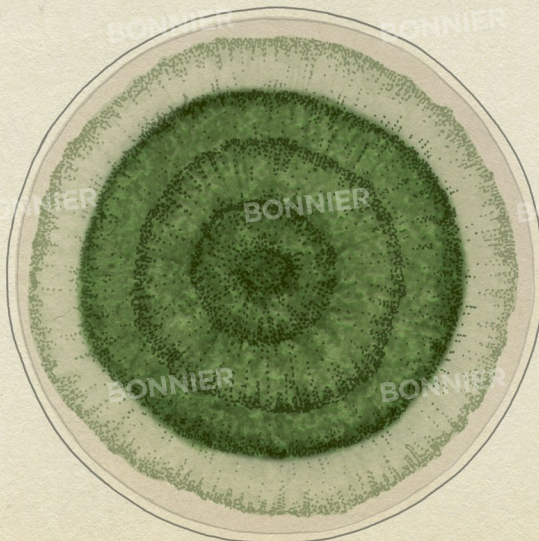

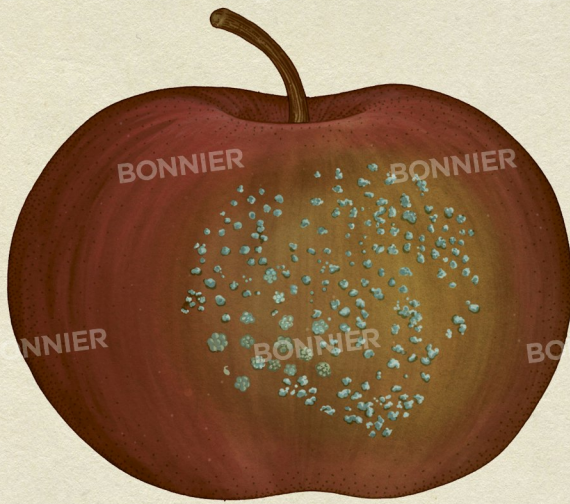

Fungarium • © Big Picture Press, Katie Scott and the  
Board of Trustees of the Royal Botanic Gardens, Kew

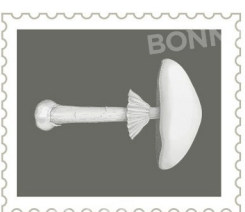

**Top to bottom, from left:** Spring orange peel fungus, *Plectanica chilensis*, eyelash fungus, scarlet elf cap, *Cookeina speciosa*, orange peel fungus, hare's ear, black earth tongue, green elf cup

**Top to bottom:** Blue mould rot fungus on apple,  
toxic black mould, *Trichoderma viride*

Fungarium • © Big Picture Press, Katie Scott and the  
Board of Trustees of the Royal Botanic Gardens, Kew

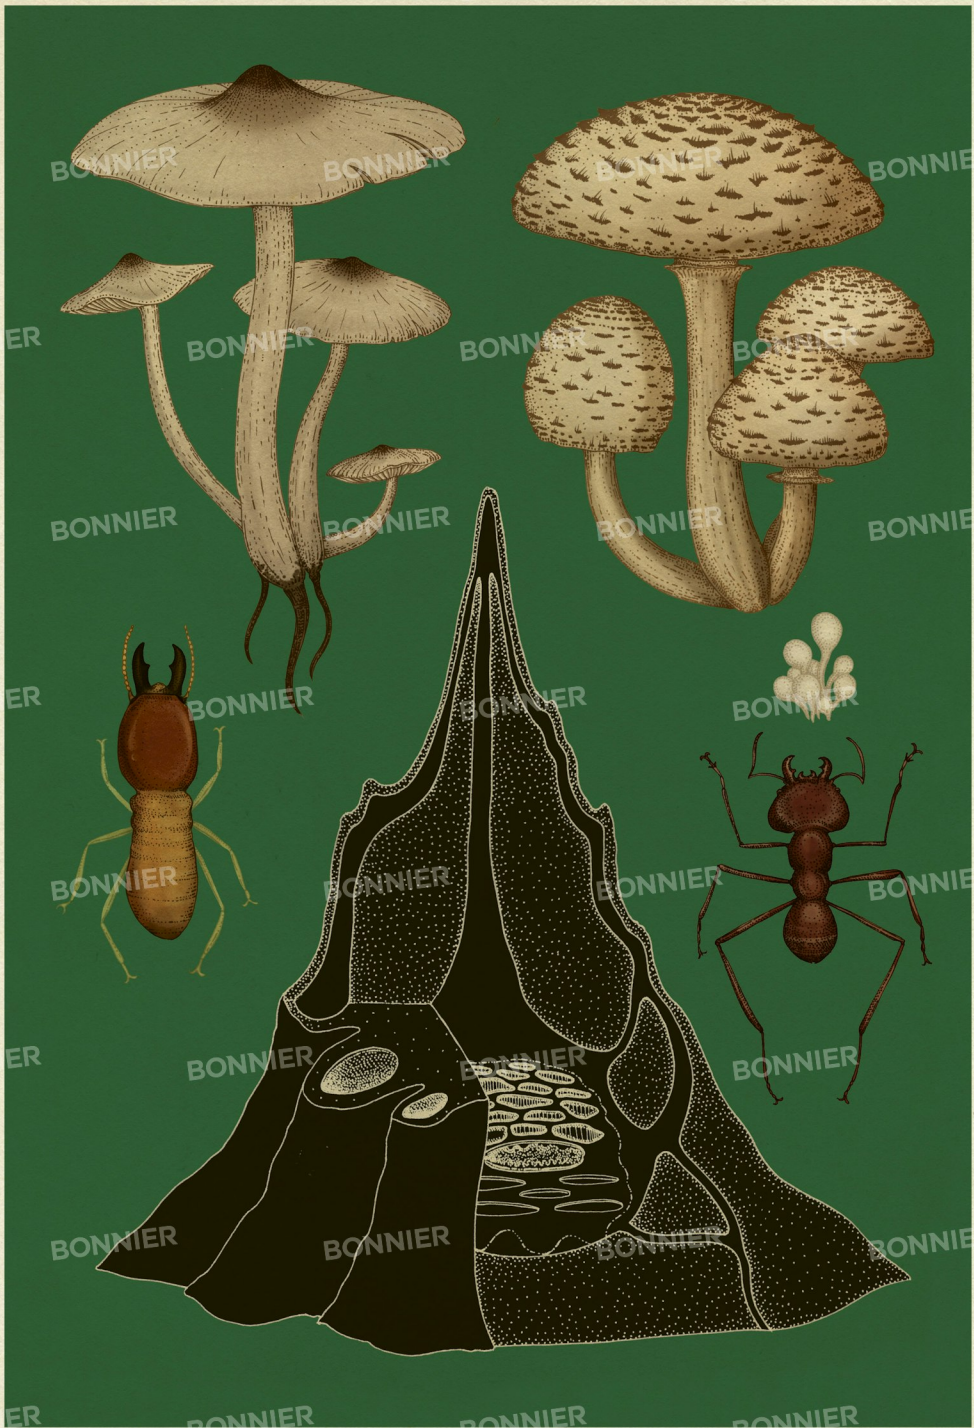

# Wasp fungus

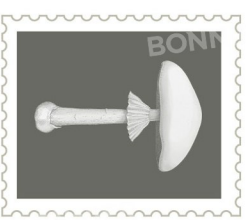

Fungarium • © Big Picture Press, Katie Scott and the Board of Trustees of the Royal Botanic Gardens, Kew

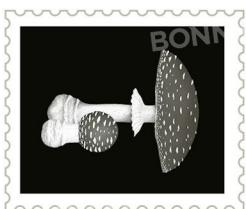

**Clockwise from top-left:** Termitite mushroom, ant mushroom, ant food, leaf-cutting ant, termitite mound, fungus-growing termitite

Fungarium • © Big Picture Press, Katie Scott and the Board of Trustees of the Royal Botanic Gardens, Kew

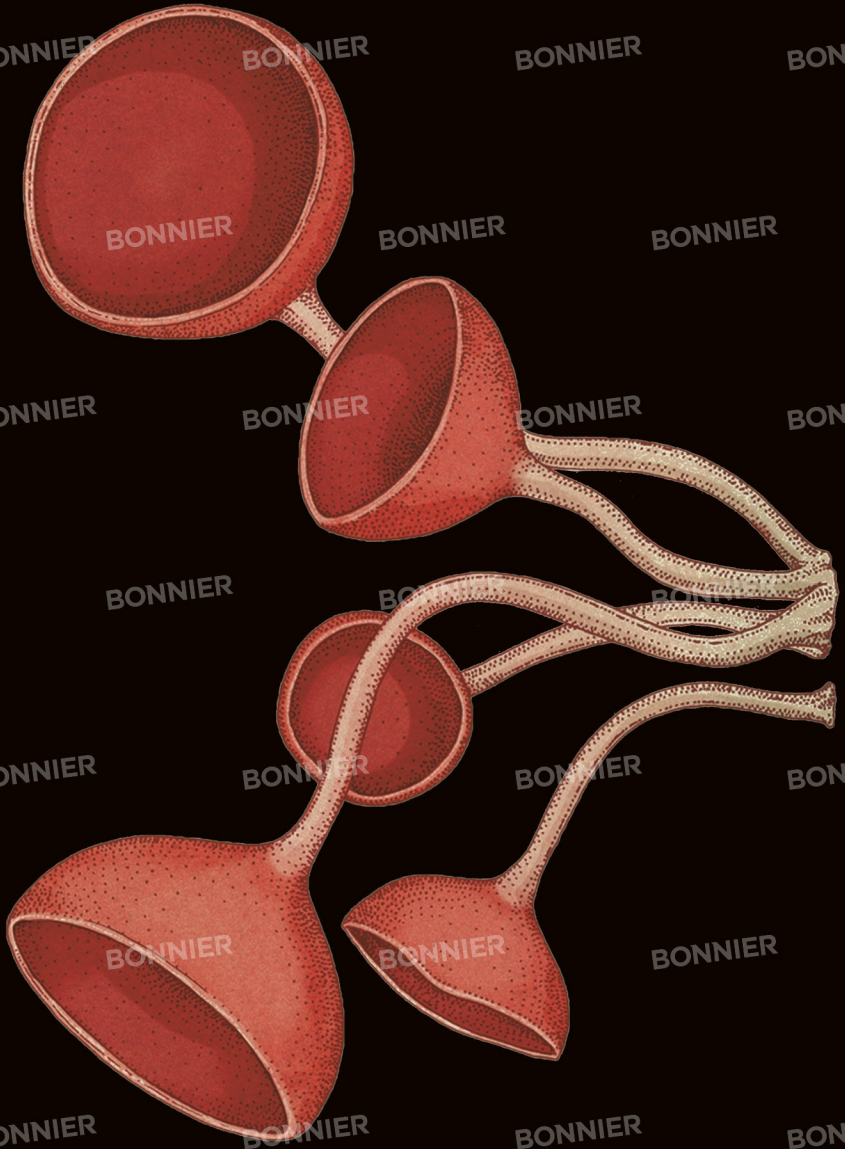

Fungarium • © Big Picture Press, Katie Scott and the Board of Trustees of the Royal Botanic Gardens, Kew

**Top to bottom, from left:** Shaggy ink cap, waxcap, fly agaric, shaggy scaly cap, violet webcap, waxcap, waxcap, blue roundhead, waxcap

Fungarium • © Big Picture Press, Katie Scott and the Board of Trustees of the Royal Botanic Gardens, Kew

*Cookeina speciosa*

Fungarium • © Big Picture Press, Katie Scott and the  
Board of Trustees of the Royal Botanic Gardens, Kew

True more!

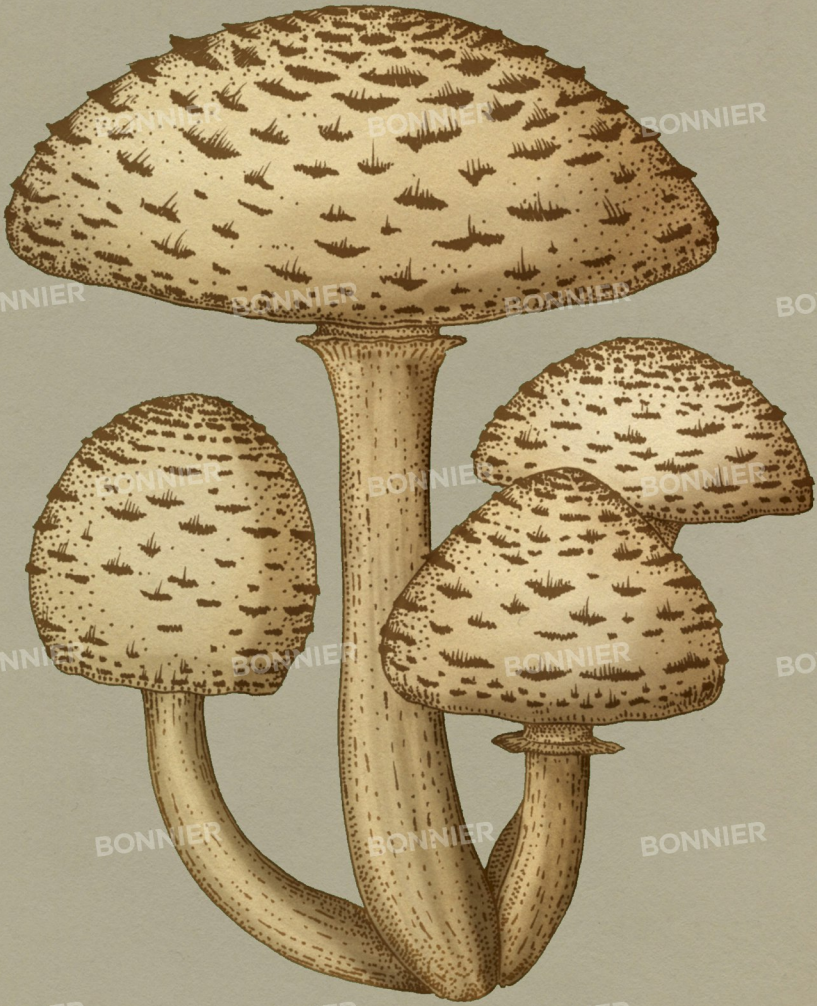

Fungarium • © Big Picture Press, Katie Scott and the Board of Trustees of the Royal Botanic Gardens, Kew

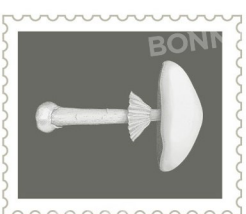

**Clockwise from top-left:** Caesar's mushroom, chanterelle, waxcap, slime mould, golden shield lichen, slime mould, death cap

Fungarium • © Big Picture Press, Katie Scott and the Board of Trustees of the Royal Botanic Gardens, Kew

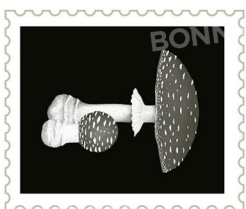

Ant mushroom

Fungarium • © Big Picture Press, Katie Scott and the  
Board of Trustees of the Royal Botanic Gardens, Kew

Fungarium • © Big Picture Press, Katie Scott and the Board of Trustees of the Royal Botanic Gardens, Kew

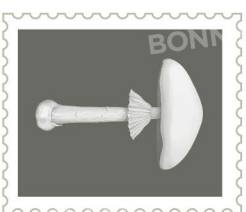

Weevil fungus

Fungarium • © Big Picture Press, Katie Scott and the  
Board of Trustees of the Royal Botanic Gardens, Kew

Fly agaric

Fungarium • © Big Picture Press, Katie Scott and the  
Board of Trustees of the Royal Botanic Gardens, Kew

Ecosystem: Temperate forest

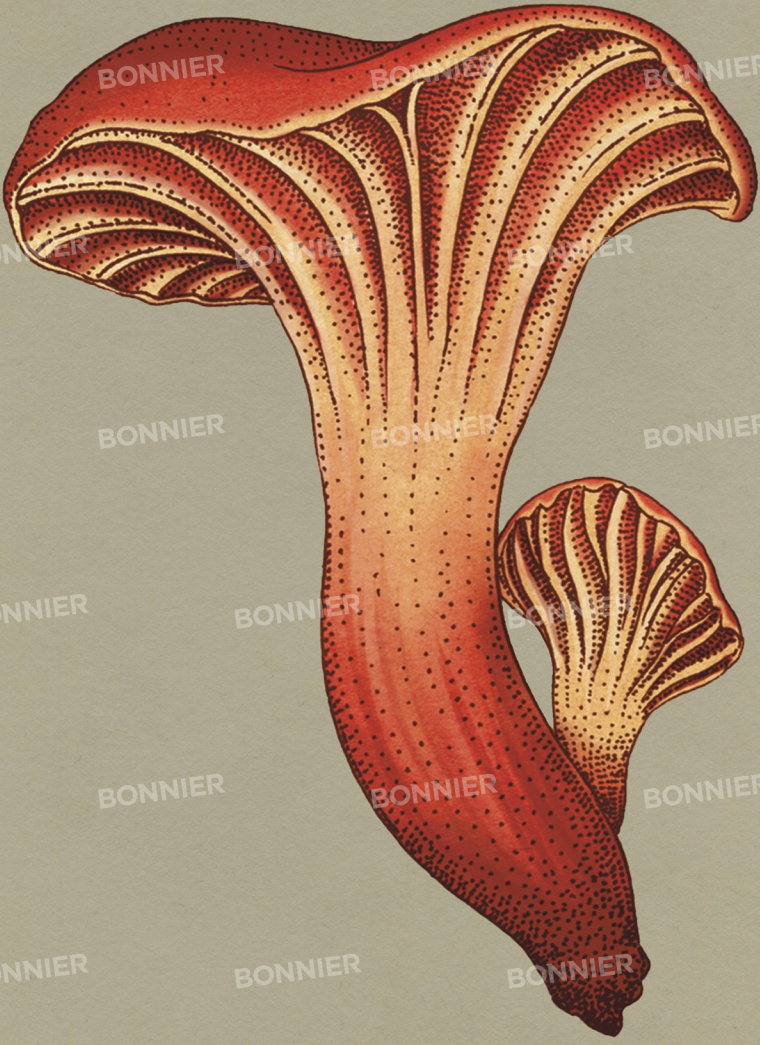

Fungarium • © Big Picture Press, Katie Scott and the Board of Trustees of the Royal Botanic Gardens, Kew

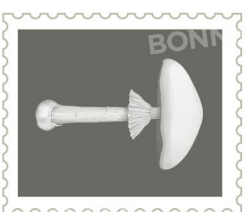

**Top to bottom, from left:** Basal stem rot, rice blast disease, Dutch elm disease, witches' broom disease, dark honey fungus

Fungarium • © Big Picture Press, Katie Scott and the Board of Trustees of the Royal Botanic Gardens, Kew

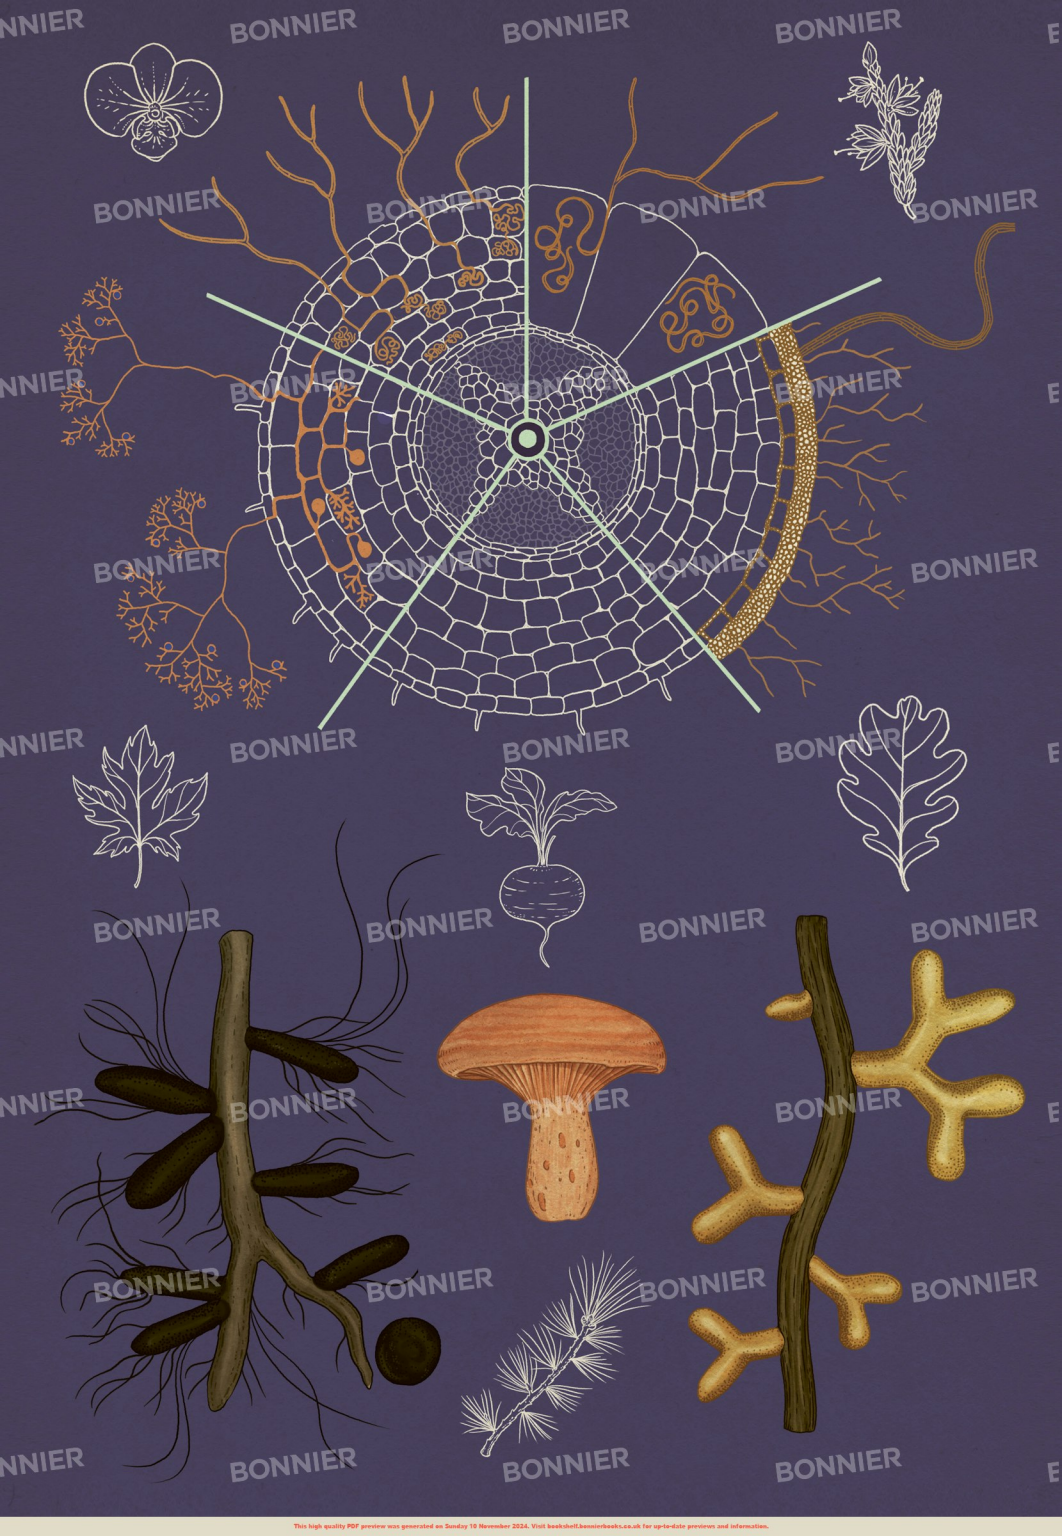

Lane Cove waxcap

Fungarium • © Big Picture Press, Katie Scott and the  
Board of Trustees of the Royal Botanic Gardens, Kew

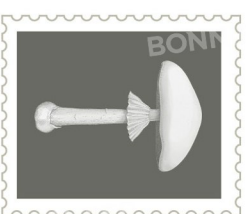

**Clockwise from top-left:** Cross-section of a root showing the main types of mycorrhizas (arbuscular, orchid, ericoid, ectomycorrhizas, non-mycorrhizal), saffron milkcap, (sporing body and root with ectomycorrhizas), *Cenococcum geophilum*

**Top to bottom, from left:** *Phytophthora infestans* (leaves, potato affected with blight and sporangia), *Physarum polycephalum*, *Physarum* sporing structures, *Comatricha typhoides*, *Comatricha nigra*, *Leocarpus fragilis*, *Dictyostelium discoideum*, *Hemitrichia calyculata*

Fungarium • © Big Picture Press, Katie Scott and the Board of Trustees of the Royal Botanic Gardens, Kew

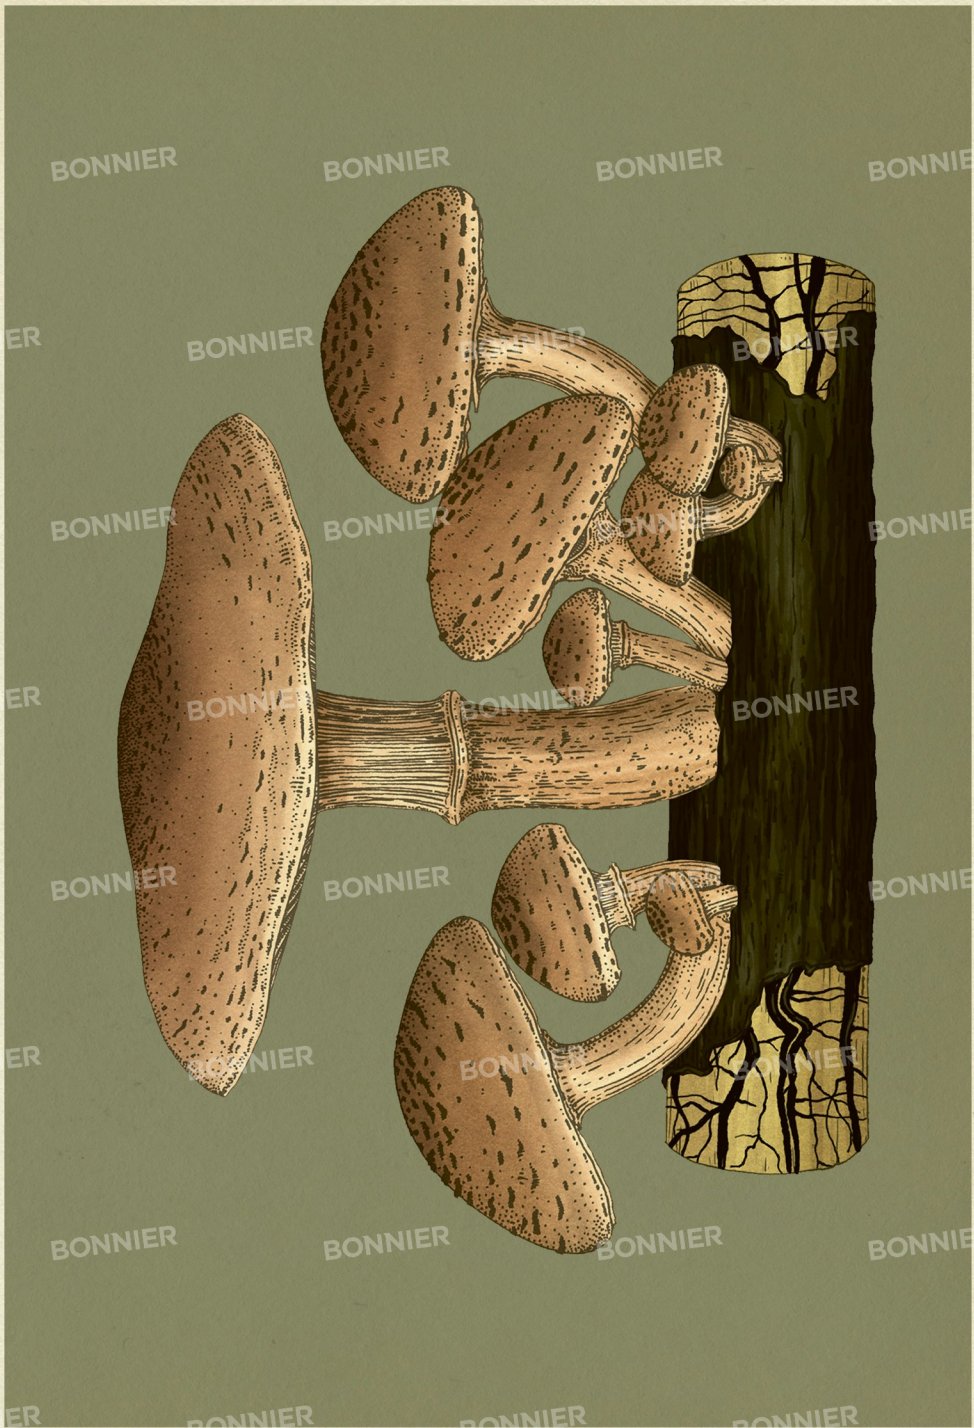

Chanterelle

Fungarium • © Big Picture Press, Katie Scott and the  
Board of Trustees of the Royal Botanic Gardens, Kew

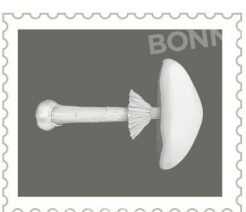

Dark honey fungus

Fungarium • © Big Picture Press, Katie Scott and the  
Board of Trustees of the Royal Botanic Gardens, Kew

**Clockwise from top-left:** Dong chong xia cao, weevil fungus, wasp fungus, white muscardine disease, caterpillar fungus, zombie ant fungus, ant fungus

Fungarium • © Big Picture Press, Katie Scott and the Board of Trustees of the Royal Botanic Gardens, Kew

Ecosystem: Tropical forest

Fungarium • © Big Picture Press, Katie Scott and the  
Board of Trustees of the Royal Botanic Gardens, Kew

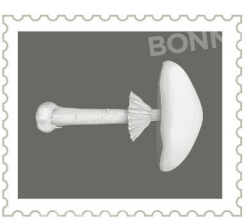

**Top to bottom, from left:** Matsutake, button mushroom, chanterelle, black truffle, Caesar's mushroom, true morel, baker's yeast, *Penicillium roqueforti*, Zeller's bolete, cabbage lungwort

Fungarium • © Big Picture Press, Katie Scott and the Board of Trustees of the Royal Botanic Gardens, Kew

**Clockwise from top-left:** Satan's bolete, kaentake, Satan's bolete (interior), ergot fungus, false morel, death cap, destroying angel, ergot fungus (sporing body)

Fungarium • © Big Picture Press, Katie Scott and the Board of Trustees of the Royal Botanic Gardens, Kew

Fruiting stinkhorn fungus

Fungarium • © Big Picture Press, Katie Scott and the  
Board of Trustees of the Royal Botanic Gardens, Kew

**Top to bottom, from left:** Black earth tongue, *Plectaniam chilensis*, ergot fungus, shaggy scalycap, matsuke, button mushroom, dark honey fungus, true morel

Fungarium • © Big Picture Press, Katie Scott and the Board of Trustees of the Royal Botanic Gardens, Kew

Destroying angel

Fungarium • © Big Picture Press, Katie Scott and the  
Board of Trustees of the Royal Botanic Gardens, Kew

*Physarium polycephalum*

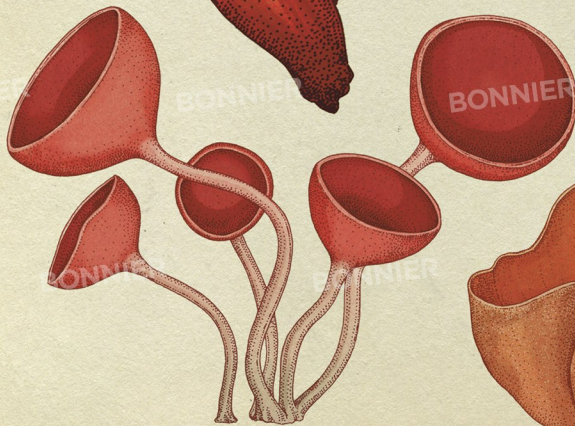

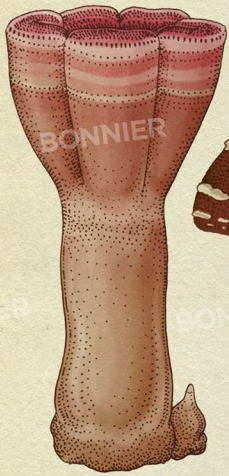

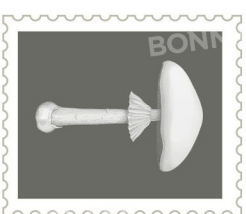

Fungarium • © Big Picture Press, Katie Scott and the  
Board of Trustees of the Royal Botanic Gardens, Kew

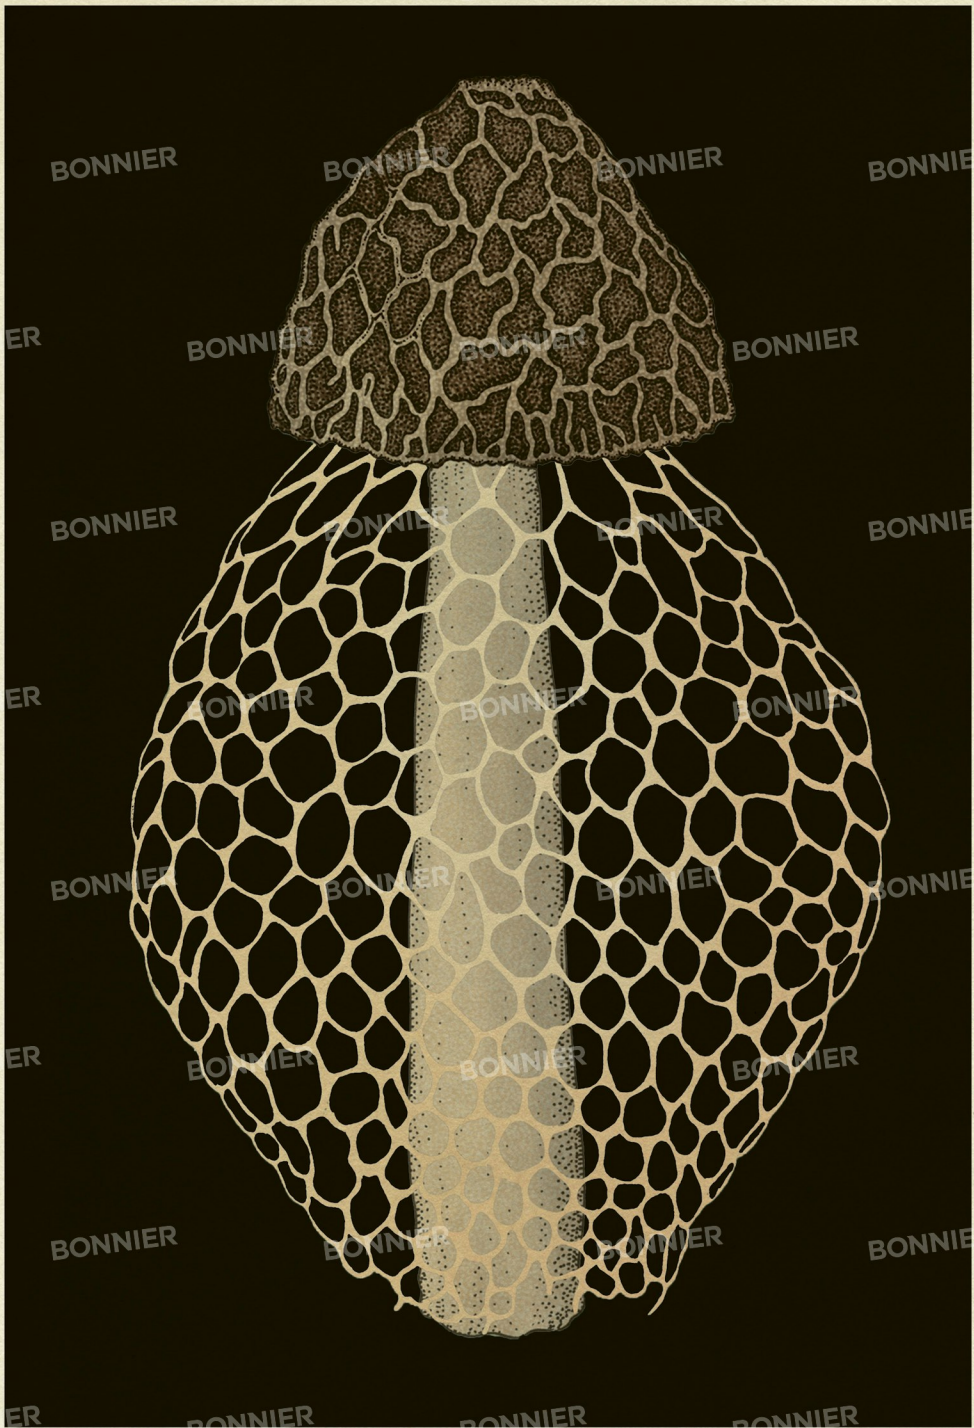

Fungarium • © Big Picture Press, Katie Scott and the  
Board of Trustees of the Royal Botanic Gardens, Kew

**Clockwise from top-left:** Leathery goblet, fly agaric, waxcap, orange peel fungus, *Cookeina speciosa*, Lane Cove waxcap

Fungarium • © Big Picture Press, Katie Scott and the Board of Trustees of the Royal Botanic Gardens, Kew

Veiled lady

Fungarium • © Big Picture Press, Katie Scott and the  
Board of Trustees of the Royal Botanic Gardens, Kew

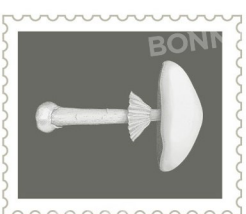

# Termite mushroom

Fungarium • © Big Picture Press, Katie Scott and the Board of Trustees of the Royal Botanic Gardens, Kew

Turkeytail fungus

Fungarium • © Big Picture Press, Katie Scott and the  
Board of Trustees of the Royal Botanic Gardens, Kew

**Top to bottom, from left:** Sculpted puffball, common earthball, shaggy ink cap, common puffball, destroying angel, slime mould, Dutch elm disease, *Isaria sinclairii*

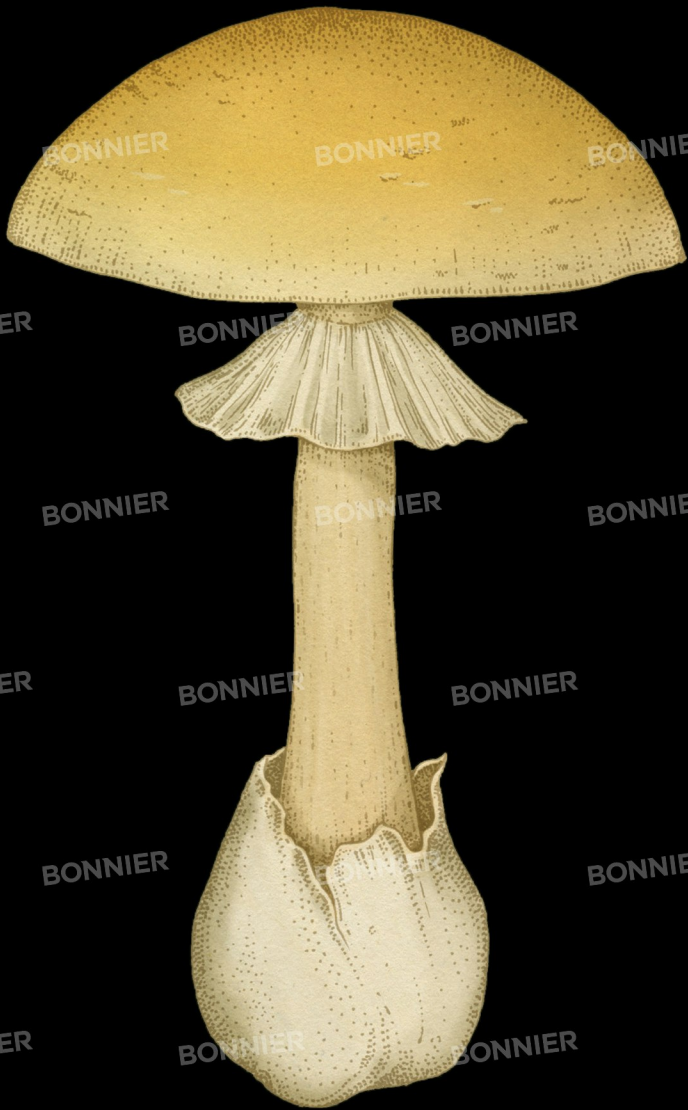

Fungarium • © Big Picture Press, Katie Scott and the Board of Trustees of the Royal Botanic Gardens, Kew

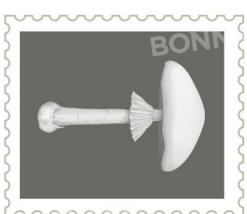

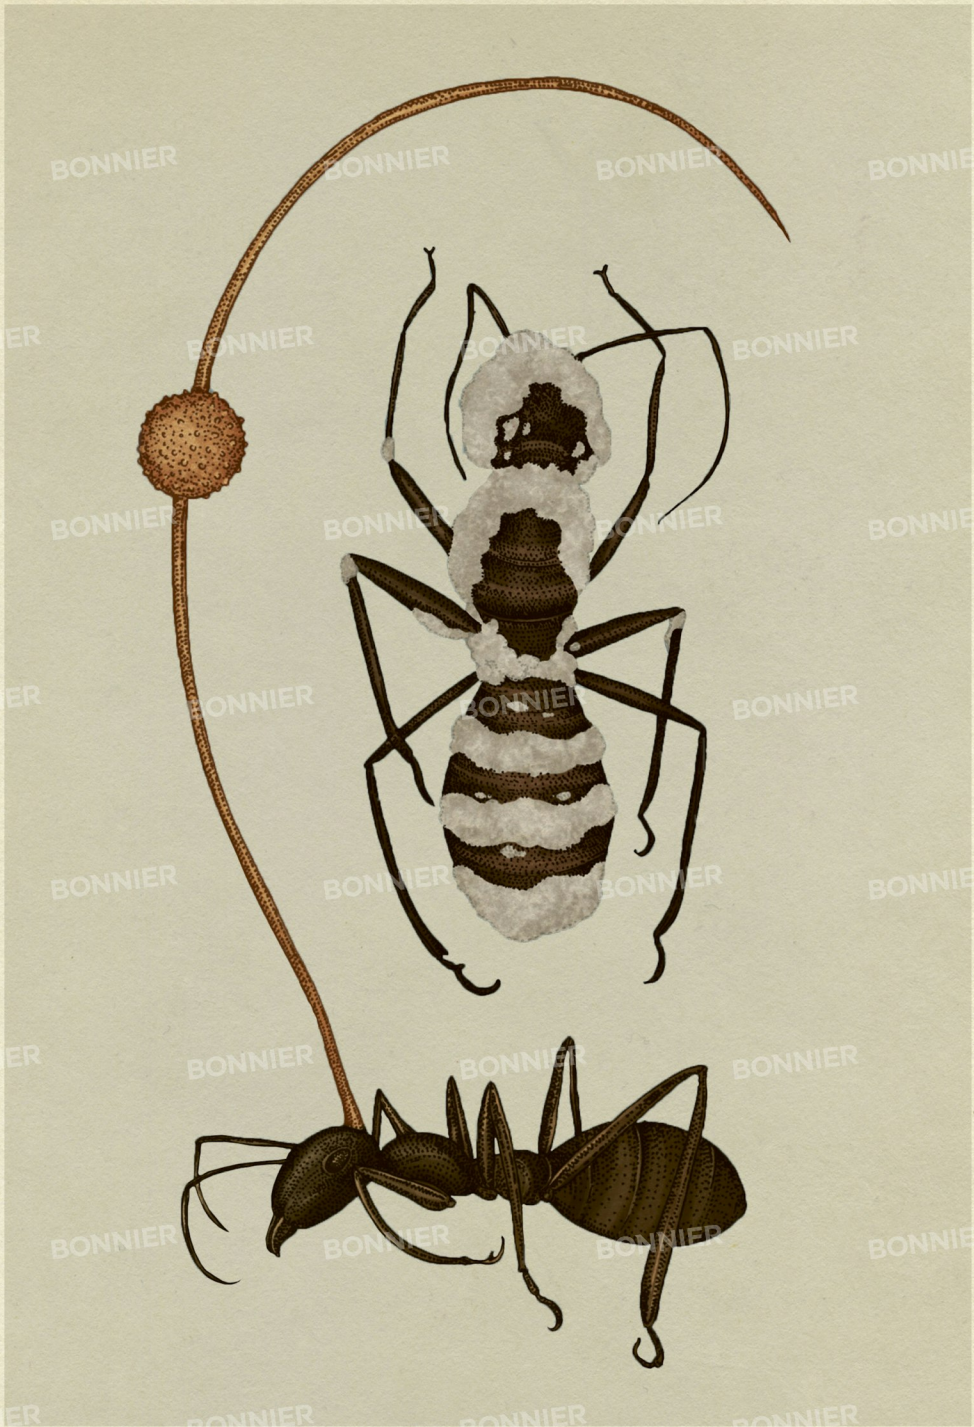

Fungarium • © Big Picture Press, Katie Scott and the  
Board of Trustees of the Royal Botanic Gardens, Kew

Death cap

Fungarium • © Big Picture Press, Katie Scott and the Board of Trustees of the Royal Botanic Gardens, Kew

**Top to bottom:** Ant fungus, zombie ant fungus

Fungarium • © Big Picture Press, Katie Scott and the Board of Trustees of the Royal Botanic Gardens, Kew
