FOR BRIGHT MINDS**

## INTRODUCTION

As every super hero knows, it takes brains to solve a problem. Sure, you need a bit of brawn from time to time – take Banner for example – he’s much more likely to find a creative solution to a problem than his green alter-ego, The Incredible Hulk (with his tried and tested methods). A great way to exercise your brain and to keep it in fine shape is to practise mental gymnastics. Or in this case, solve puzzles. Using your grey matter to work out a hidden code, to spot a difference, to calculate a sum or to deduct an answer from a series of clues will keep you happy and focused for hours, and it’s good for you!

And when those puzzles are themed around your favourite super heroes (and villains) from your favourite comics, that makes it all the more fun! That’s where this book comes in. It’s filled with puzzles featuring many Marvel characters, from your friendly neighbourhood Spider-Man to Doctor Doom, from Black Panther to Black Widow and from Wanda to Vision (that sounds like a good combo!).

You'll find a variety of puzzle types too, from simple number challenges and spot the difference, to complicated word puzzles and memory tests. There are even a few taxing quizzes to test your knowledge of Marvel's marvellous world of comic-book characters.

When you start a puzzle, remember to read the instructions carefully, because sometimes there are important rules you need to follow that will make the puzzle work properly. And if you find yourself stuck, you can always grab your parents or carers, or friends and family and ask them for help – we are "stronger together" after all. You can even challenge your pals to a timed problem-solving battle!

So sharpen your pencil, take a deep breath and get stuck in to this fun, brain-boosting series of puzzles and challenges.

**TURN TO THE BACK OF THE BOOK TO FIND THE ANSWERS. YOU'LL FIND BLANK PAGES THERE, TOO, THAT YOU CAN USE TO WORK OUT THESE BRAIN TWISTERS!**
