STAR WARS™ BRAIN GAMES

FUN PUZZLES FOR BRIGHT MINDS

INTRODUCTION

As every Jedi knows, you need to focus to really solve a problem. And a great way to exercise your brain and to keep it focused is to solve puzzles. Using your grey matter to work out a hidden code, to spot a difference, to calculate a sum, or to deduct an answer from a series of clues can keep you happy and occupied for hours, and it is good for you.

Now if those puzzles are themed around your favourite heroes (and villains) from your favourite franchises, that can make it all the more fun! And that's where this book comes in. It is filled with puzzles featuring many *Star Wars* characters, from R2-D2 to Luke Skywalker, Rey to Kylo Ren and the Mandalorian, Din Djarin, to Grogu.

You'll find a variety of puzzle types too, from simple number challenges and spot the difference to complicated word puzzles and memory tests.

When you start a puzzle, remember to read the instructions carefully, because sometimes there will be important rules to follow that will make the puzzle work properly. And if you find yourself stuck, you can always "use the Force", and ask your parents and carers or friends and family for help. You can even challenge your pals in a timed solving battle!

So sharpen your pencil, focus your mind and get stuck in to this fun, brain-boosting series of puzzles and challenges.

Turn to the back of the book to find the answers. You'll find blank pages there, too, that you can use to work out these brain twisters!

THE PUZZLES

PUZZLE 1 PUZZLE PROTOCOL

It's time to upgrade C-3PO's translation software – six million languages just isn't enough any more! Which of the possible circuit boards, 1 to 4, fits into the gap to complete his new circuitry?

PUZZLE 2 WORD SCRAMBLE

The Mandalorian, Din Djarin, meets many people in his line of work. Unscramble the letters to correctly spell the names and words of those he has come across.

ROGGU

TEH MORERAR

OBBA TEFT

OUNYTB TERUNH

PUZZLE 3

WHO'S WHO

Can you find all of the characters hidden in this word search grid? Their names can be written either forwards or backwards, and in any direction – including diagonally. Ignore any spaces or dashes when looking for the names.

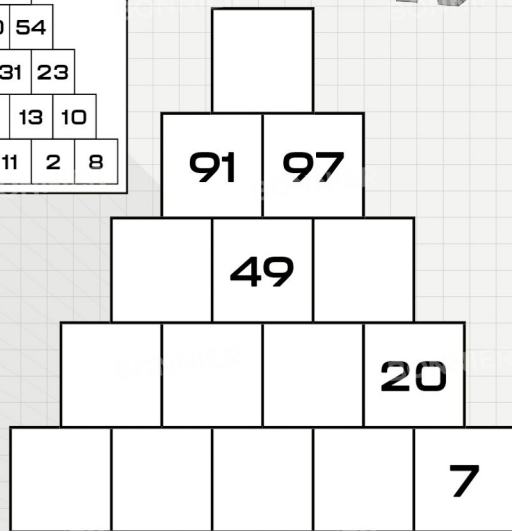

- | | | |
|------------------|------------------|----------------|
| Admiral Ackbar | General Grievous | Obi-Wan Kenobi |
| Anakin Skywalker | Han Solo | Padmé Amidala |
| Chewbacca | Jabba The Hutt | Poe Dameron |
| Count Dooku | Kylo Ren | Princess Leia |
| Darth Maul | Lando Calrissian | Qui-Gon Jinn |
| Darth Vader | Luke Skywalker | Rey |
| Finn | Mace Windu | Yoda |

PUZZLE 4 POWER PACK

This power droid needs to recharge a stack of batteries. Each battery in the stack needs to be charged to a level equal to the sum of the two batteries immediately below it – just like the stack in the example. Using this knowledge, complete all of the missing numbers so that you know exactly how much charge needs to go in each battery.

PUZZLE 5 WORD WHEEL

The wise Jedi Master Luke Skywalker chooses to live in exile on Ahch-To after the fall of his academy – but where did he grow up? Cross out every other letter on the wheel below to find out.

PUZZLE 6

GOOD GREEF

Help Greef Karga find the way through the maze to collect his bounty. Beware of paths that lead to dead ends!

PUZZLE 7 REY'S HOME

Rey makes her living scavenging through crashed starships, looking for items she can sell. Delete every other letter in the wheel to discover where Rey lives.

PUZZLE 8 BOUSHH BEWILDERED

Leia, disguised as bounty hunter Boushh, has forgotten an important password. Can you help work out what it could be?

Find the nine-letter password in the grid below. In addition, see how many more words of three or more letters you can spell!

To spell a word, start on any letter and then trace a path up, down, left or right from letter to neighbouring letter, but without visiting any square more than once within a word. For example, you could start on the 'R', move up to the 'A' and left to the 'T' to spell 'RAT'. Diagonal moves are not allowed.

T	T	A
H	S	R
G	I	L

PUZZLE 9

SHADOW MATCH

The galaxy is full of heroes and villains, including the daring Resistance pilot Poe Dameron and scavenger-turned-fugitive Rey. Match the character's shadows to their names.

1. Rey
2. Stormtrooper
3. Poe Dameron
4. BB-8
5. Captain Phasma
6. Chewbacca
7. Kylo Ren
8. Finn

PUZZLE 10 BINARY BAFFLER

Luke Skywalker needs to fix a battered old astromech. The binary start-up sequence is incomplete – can you help him fill in the blanks to get the droid working again?

You must place three '0's and three '1's into each row and column, but there cannot be more than two '0's or two '1's in sequence in any row or column.

				1	1
0		0		1	0
1	1		1		0
1	1				

PUZZLE 11 JAWA JUNK

The Jawas have found a new droid while scavenging on the desert planet Tatooine, but the identification panels have been mixed up. Each set of four panels has been rearranged – but not rotated. Can you work out what two-character identification code was originally displayed on the panels?

PUZZLE 12

POE'S MESSAGE

Poe Dameron is meeting with General Leia's old friend to receive a map to the location of Luke Skywalker. Decode the message by replacing each letter with the one before it in the alphabet to reveal the name of this trusted ally.

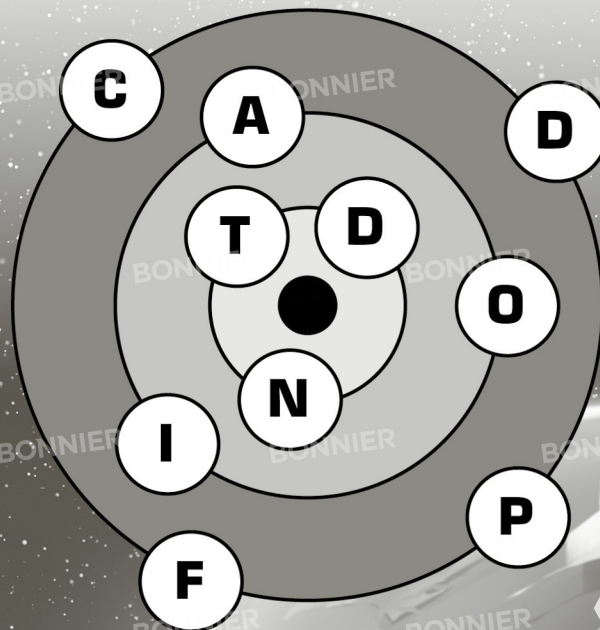

MPS TBO UFLLB

PUZZLE 13

SPELL CHECK

Qui-Gon Jinn is on a mission to a star system with ten planets, each identified by a unique letter. To be permitted to land on any of the three inner planets you must first land in turn on one of the four outer planets, followed by one of the three central planets. The route to any inner planet must also always spell out a three-letter word.

For example, you could spell out 'CAT' by landing on the 'C' in the outer ring, 'A' in the middle ring and 'T' in the inner ring. There are more than 20 valid routes to the inner planets. How many can you find?

PUZZLE 14

CORRIDOR CODE

A clue to the identity of a key member of the Rebellion is hidden within the corridors of this maze. Find your way from the entrance at the top all the way to the exit at the bottom, collecting letters as you go. The letters that are directly on the exit route will spell out the name of the hidden person.

PUZZLE 15

JAKKU JUNK

Rey searches the wreckage of starships left behind by the Battle of Jakku and sells what she finds. Search the grid for the items she found on her latest trip.

PUZZLE 16

COUNT SU-DOOKU

Focus your mind and complete Count Dooku's tricky puzzle. Fill in the grid so that every row across, every column down, and every 3 by 3 box contains the numbers 1 to 9.

	1			4		3	5	
2	6	7	5	1		9	8	4
5				9	8		7	
4	5	2		6	1		9	3
	3	8		5		6	2	
1			3		7	5	4	
9			6	3	4	8		7
6	8	4			5	2	3	
3		1		8	2	4	6	5

PUZZLE 17

WOOKIEE WORDS

Chewbacca's language, Shyriiwook, is difficult for non-Wookiees to speak. However, there are a few words in our tongue which are important to him. Fit the words below into the grid.

Han
Growl
Rebel
Falcon
Loyalty
Cockpit
Wookiee
Kashyyyk
Bowcaster

PUZZLE 18

SHADOW TROOPERS

Can you match this trooper to her correct shadow?

ANSWER:

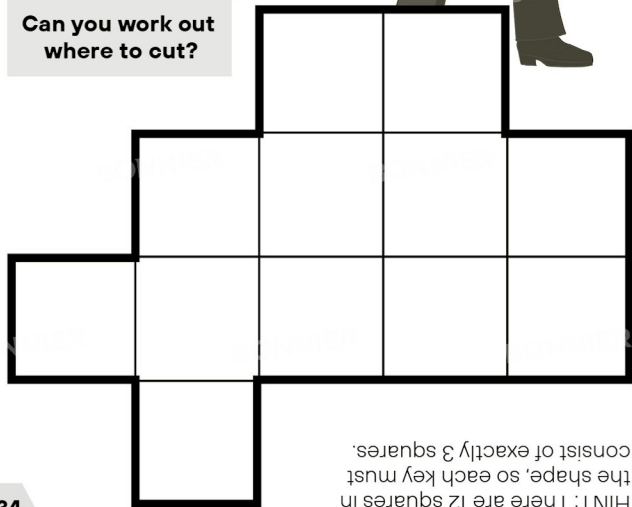

PUZZLE 19 CUTTING CAPERS

Lando Calrissian is planning a heist. To gain access to a top-secret facility he needs four identical keys. Help him cut the keys from the piece of material shown below, cutting only along the grid lines. Each one of the keys must be identical in shape, although they may appear rotated relative to one another – but not reflected. All of the material must be used, without any bits left over.

Can you work out where to cut?

HINT: There are 12 squares in the shape, so each key must consist of exactly 3 squares.

PUZZLE 20 NUMBERS DON'T LIE

The Mandalorian, Din Djarin, has discovered that parts of his spaceship are missing and need to be recovered. Help Din Djarin and Grogu barter with the Jawas by working out the total value of the items he has brought to trade, using the equations below.

$$A + A + A = 9$$

$$A + B = 13$$

$$B - C = 4$$

$$A + B + C =$$

PUZZLE 21

HUNGRY HUNGRY HUTT

Jabba the Hutt's chef is running out of ingredients, and his boss is hungry! There are two separate piles of ready-to-eat Klatooinian paddy frogs, and you know that each started off as a 5x3x3 stack of crates, as shown below.

How many frog crates remain in each of the two piles below? None of the crates are 'floating', so if you can see one at the top of a column on the second or third layer, then you know there must be one or two beneath, as appropriate.

ORIGINAL PILE

PILE 1

PILE 2

PUZZLE 22 MUSICAL CHAIRS

Figrin D'an and the Modal Nodes have arrived at the Cantina, and all the customers are keen to catch the show – but you'll need to help rearrange the tables! Can you re-seat the aliens, making sure that there's only one of each species in each row, column and bold-lined table. Each letter (A, B, C, D and E) represents a different species.

C	D			
		D		
		E		
		A		
			D	B

PUZZLE 23 THE JEDI CODE

Yoda has challenged Luke to crack an ancient Jedi cypher. Decode it by replacing A with K, B with L, C with M and so on, using the cypher code below.

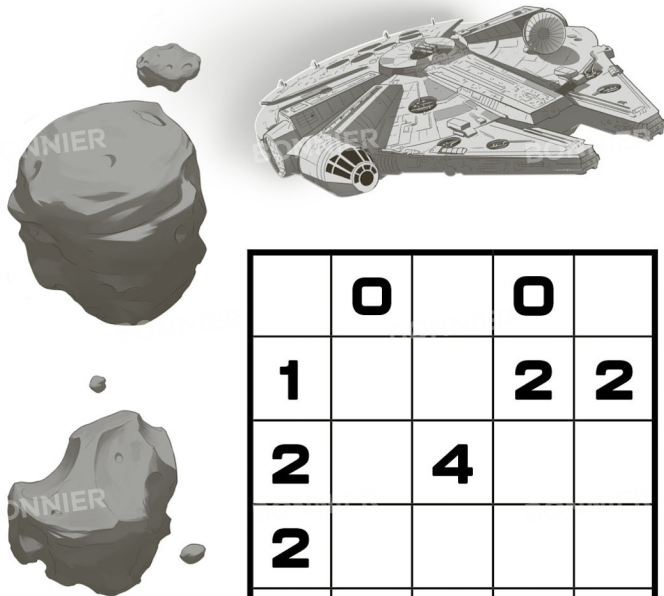

A B C D E F G H I J K L M N O P Q R S T U V W X Y Z
K L M N O P Q R S T U V W X Y Z A B C D E F G H I J

**"FQJYUDSU OEK
CKIJ XQLU,**

**CO OEKDW
FQTQM QD" - OETQ**

PUZZLE 24 ASTEROID FIELD

The *Millennium Falcon's* scanner dish has taken a hit from an asteroid, and the navicomputer is malfunctioning! You can't see the rest of the asteroids in your path. All you know is that some of the empty squares in the scanner grid below conceal an asteroid, and that the numbers tell you how many of their touching squares – including diagonally touching squares – contain an asteroid. None of the numbered squares have an asteroid in, and no square can contain more than one. Can you find all of the asteroids before it's too late?

	0		0	
1			2	2
2		4		
2				
			2	2

PUZZLE 25 REBEL RIDDLE

Han Solo needs your help to solve a mysterious riddle. Can you work out what it means?

My first is in **ARROW** and also in **CHEW**

My second is in **COWER** but never in **CREW**

My third is in **MOTOR** and also in **BOW**

My fourth is in **EWOK** but never in **WOE**

My fifth is in **X-WING** and also in **SIR**

My sixth is in **REBEL** but never in **BLUR**

My last is in **VADER** and also in **FOE**

If you've found the answer, then write it below:

PUZZLE 26

RESISTANCE RUN

Rey and Finn have something the First Order wants. Help them get to the *Millennium Falcon* to escape by following the pattern through the maze, moving up, down, left and right.

START

FINISH

PUZZLE 27

ARMORER SHADOW

Forging armour and weapons for her fellow Mandalorians, the Armorer cuts a recognisable figure, but can you match her to the correct shadow?

ANSWER:

PUZZLE 28

SPECIES EXPERTISE

Place all of the listed galactic species into the grid, once each, so that they read either across or down with one letter per box. Ignore any spaces in the names when writing them into the grid.

4 letter words

Bith
Ewok
Hutt
Jawa

5 letter words

Drall
Duros
Human

6 letter words

Cerean
Gungan
Yuzzum

7 letter words

Crolute
Ortolan
Wookiee

8 letter words

Aqualish
Besalisk
Ithorian
Pantoran

10 letter words

Dactillion
Neimoidian

11 letter words

Mon Calamari

PUZZLE 29 REPAIR KIT

BB-8 needs to repair a reactor by reconnecting the power lines. By using the clues in the grid below, can you work out the exact path to trace? You start at number 1 and trace from 1 to 2, from 2 to 3, from 3 to 4 and so on all the way up until you reach number 25 – but the problem is not all of the numbers are given, and it is up to you to work out where they all go. You also know that you only ever trace paths using horizontal and vertical lines – never diagonally.

Here's an example solution using 1 to 16, to show how it works:

8	7	4	3
9	6	5	2
10	13	14	1
11	12	15	16

	6		22	
4	7		23	24
		19		
2	9		13	16
	10		14	

PUZZLE 30 REBEL RUN

Poe Dameron is running from First Order troops! Can you lose them in this maze of streets? Guide him from the inwards-facing arrow at the top to the exit arrow at the bottom as quickly as you can.

▼ START

FINISH ▲

PUZZLE 31

BE CRAFTY

Find all of the listed vehicles in the word search grid. Their names can be written either forwards or backwards, and in any direction – including diagonally. Ignore any spaces or dashes when looking for the names.

- AT-AT walker
- AT-ST walker
- Cargo ship
- Desert skiff
- Droid gunship
- Frigate
- Interdictor
- Podracer
- Sandcrawler
- Short hauler
- Shuttle
- Snowspeeder

PUZZLE 36

MAUL ABOARD

Darth Maul is navigating a minefield in his Sith interceptor. Some of the empty squares in the grid conceal deadly mines, and the numbers show how many of their touching squares – including diagonally touching squares – contain one. None of the numbered squares contain mines, and no square can contain more than one mine.

	0			
		3	5	
0	1			2
	4	4		2
			2	

PUZZLE 37

THE TRACKING FOB

Thanks to this device, the Mandalorian can finally locate Grogu. Find Grogu's exact coordinates by moving from one space of the map to the adjoining one that makes the signal the strongest. Two combined spots produce the optimal signal when they have no circles in common and the total number of circles is the highest possible. The first three signals have been completed for you.

PUZZLE 38

KUIIL'S SHADOW

Kuiil races with his blurr in an attempt to help the Mandalorian and Grogu. Can you match Kuiil to his correct shadow?

ANSWER:

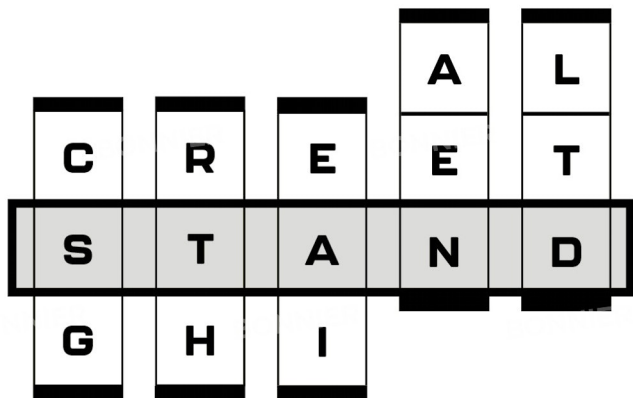

PUZZLE 39 GREEDY GREEDO

Greedo is breaking into a vault for his boss, Jabba, but it has an unusual combination lock. Each dial can show one of three letters. At the moment it spells 'STAND', but by changing the letter each dial is set to can spell various different words.

To gain access to the vault Greedo must spell out the words which solve the following clues. Can you work out all the words?

1. Break the rules
2. A strong metal
3. Large or impressive
4. Desire for wealth
5. Take without asking
6. Shouted out

PUZZLE 40 CHAIN REACTION

Rebel spies have recovered secret plans to the Death Star's reactor! Guide your torpedo through the thermal exhaust port and to the core.

PUZZLE 41 CODED MESSAGE

The Mandalorian has intercepted a coded message from the Client. Use the cypher below to reveal the hidden message.

A	B	C	D	E	F	G	H	I	J	K	L	M
⌋	⌋	⌋	⌋	⌋	⌋	⌋	⌋	⌋	⌋	⌋	⌋	⌋

⌋ ⌋ ⌋ ⌋ ⌋ ⌋ ⌋ ⌋ ⌋ ⌋ ⌋ ⌋ ⌋ ⌋

PUZZLE 42 TRAFFIC JAM

Speeders criss-cross the skies of Coruscant, zipping from tower to tower. Can you help Obi-Wan Kenobi and Anakin Skywalker reach their destinations? Draw a path between each pair of identical numbers, using

only horizontal and vertical lines. To avoid dangerous crashes, the paths cannot cross each other, and only one path can enter any square.

Here's an example solution to show how it works.

								1	2
1			3						4
2	3						5		
			6				6		
7	5							9	
		8							
			4						10
			10						
	8							9	7

PUZZLE 43 MIND CONNECTION

Qui-Gon will help you learn to see with the Force, by changing 'MIND' into 'SEES' in just four steps. At each step you should change just one letter to make a new word, without rearranging any of the letters. For example, you could start by changing MIND to MINE (though that will lead you down the wrong path...)

PUZZLE 44 TIE FIGHTER SHOOT OUT

Rey and Finn are being shot at by TIE fighters and must find their way to a vehicle to escape. Answer the sums and follow the correct answers to find out which vehicle they steal.

PUZZLE 45

GORILLA WALKER WORD SEARCH

The First Order's terrifying new walkers dominate the battlefield! Can you find all the related words in the data grid opposite? The words can be written either forwards or backwards, and in any direction – including diagonally. Ignore any spaces or punctuation when looking for the names.

PUZZLE 46

SIGN LANGUAGE

All of the signs in the Imperial bunker on Endor have been encrypted in order to confuse the enemy. By shading in some of the squares in the image below, can you work out which direction the rebels should head next?

Numbers at the start of a row or column indicate the number of shaded squares in that row or column. All shaded squares within a row or column touch each other in a continuous line, without any unshaded squares between them. One column has been done, to get you started!

PUZZLE 47

TARKIN'S TEASER

Grand Moff Tarkin has intercepted rebel code sequences. Crack their cypher by completing each of the following numerical sequences. In each case there is a mathematical connection between each number and its preceding number, or numbers.

Can you help Tarkin work out what comes next in each sequence? The first has been done for you – each number is 4 more than the one before.

1)	3	7	11	15	19	23	<u>27</u>
2)	1	2	4	8	16	32	—
3)	2	4	7	11	16	22	—
4)	3	4	7	11	18	29	—
5)	192	96	48	24	12	6	—

PUZZLE 48

STAR TOURS

The pilot of this Jedi starfighter has forgotten where he's going! Can you help him rebuild her galaxy map? Place all of the planets and moons into the grid, once each, so that they read either across or down with one letter per box. Ignore any spaces in the planet and moon names when fitting them in.

PUZZLE 49

BOBA'S BLASTER

Boba Fett is showing off his blaster skills at the practice range. He's such a good marksman, he can get any score he wants!

Help him prove it by hitting one number in the outer ring, one number in the centre ring, and one number in the innermost ring each time. These three numbers must add up to the right total. For example, to score '15' you would blast the 4, the 8 and the 3.

Scores to make:
16
32
36

PUZZLE 50

SUPER STAR DESTROYER

To escape the TIE fighters pursuing the *Millennium Falcon* Rey flies it through a Super Star Destroyer. Help her through the wreckage by following the pattern through the maze, moving up, down, left and right.

PUZZLE 52 LIGHTSABER LESSON

The lightsaber: an elegant weapon for a more civilized age. Luke must learn to use it with precision and intelligence. As a test, he must cut the piece of material shown below into four pieces, cutting only along the grid lines. Each piece must be identical in shape, although they may appear rotated relative to one another – but not reflected. All of the material must be used, without any bits left over.

Can you work out where to cut?

Hint: there are 16 squares in the shape, so each piece must consist of exactly 4 squares.

PUZZLE 53 REY'S CODE BREAKER

On Ahch-To, Rey meets a wise Jedi Master who lives among the Jedi ruins. Solve the code to find out who he is and what he tells her...

PUZZLE 54

PODRACE PANDEMONIUM

Greedo and Malakili are discussing the Boonta Eve Classic Podrace. The three podracers to cross the finish line were Gasgano, Anakin Skywalker and Aldar Beedo.

Greedo says that Aldar Beedo came first and Gasgano came second. Malakili says Anakin Skywalker came first and Aldar Beedo came second. Neither of them are correct. Each of them has got one thing right and one thing wrong.

Who really came first, second and third?

PUZZLE 55

FORCE FIX

Anakin's ship, the *Twilight*, has broken down and he is trying to fix it. Can you see how to wire up the circuit shown below? All of the circled components need to be connected together using only horizontal and vertical lines. Lines can't cross over components, and the number on a component shows exactly how many lines must connect into it. Once they are connected correctly, you should be able to trace a path from any component to any other component, just by following one or more lines.

Here's an example solution to show how it works.

PUZZLE 56

SECRET MISSION

Former stormtrooper Finn is sent on a mission to the city of Canto Bight – but who goes with him? Solve the equations to find the right path.

0	1				0		1
1		0		0	1	0	

PUZZLE 58

LEIA LINES

Princess Leia has been given the code to a secret rebel base. To open it, start at number 1 and trace from 1 to 2, from 2 to 3, from 3 to 4 and so on all the way until you reach number 36 – but the problem is that not all of the numbers are given and it is up to you to work out where they all go. You also know that you only ever trace paths using horizontal and vertical lines – never diagonally.

Here's an example solution using 1 to 16, to show how it works.

		9	10

PUZZLE 59

BB-8 SECRETS

The astromech droid BB-8 contains secret information!
See if you can solve this crossword puzzle.

Across

- 5. BB-8 is one (5)
- 10. Film in which we meet BB-8 (3,5,7)
- 11. Military force searching for BB-8 (5,5)
- 6. Sinister masked commander (4,3)

Down

- 1. Planet where Rey lives (5)
- 2. Stormtrooper who changes sides (4)
- 3. The type of droid that BB-8 is (9)
- 4. White-armoured soldier (12)
- 7. Poe flies for them (10)
- 8. X-wing pilot (3,7)
- 9. Poe's starfighter (1-4)

PUZZLE 60 HYPERDRIVE HAVOC

The *Millennium Falcon's* hyperdrive is malfunctioning, and only R2-D2 can fix it! Can you work out how to wire up the circuit shown below? All of the circled components need to be connected together using only horizontal or vertical lines – not diagonals. Lines can't cross over components, and the number on a component shows exactly how many lines must connect into it. Once they are connected correctly, you should be able to trace a path from any component to any other component, just by following one or more lines.

Here's an example solution, to show how it works:

PUZZLE 61 DARK PATH

Emperor Palpatine knows that FEAR leads to HATE. Try to change FEAR to HATE in eight steps. At each step you should change just one letter to make a new word, without rearranging any of the letters. For example, you could start by changing FEAR to BEAR, though that will lead you down the wrong path...

PUZZLE 62

THE STAR MAPS SUDOKU

The galaxy is massive and full of wonder, but it's also a confusing place that's tricky to navigate. Study the star charts and see what new

and amazing star systems the Mandalorian and Grogu are flying through. Just like a normal Sudoku, all the spaces on each map must be occupied by a celestial body: a star, planet, galaxy or moon. But be careful; no object can appear twice in the same 2x2 box, column or row. Can you distribute the celestial bodies in all four boxes of the three maps following these rules?

PUZZLE 71 BATTLE STATIONS

The First Order and Resistance clash in orbit, with TIE fighters, X-wings and bombers joining the fray! Make sure there is one of each image in each row, column and 2x3 box.

PUZZLE 72 THE CHAIN CODE

In order to find Grogu and collect his bounty, the Mandalorian relies on tracking devices. Take your time and try cracking the tracking code.

The bounty hunter is given a code of numbers, and a grid of letters. The code key (above) is used to navigate the grid. Look at the number in the code, consult the code key, move in that direction, and write that letter in the space below. This code starts with 6 – so the bounty hunter would move down one space from START HERE to “T”. When finished, the bounty hunter will have more information on their target.

PUZZLE 76

TANGLED WIRES

The door controls have been destroyed! Connect the right wires so the Mandalorian, Din Djarin, and Grogu can escape! But be warned – the door is guarded by a nosy gatekeeper droid. Avoid it at all costs!

Look at the tangle of cables and figure out which button to push to open the door and which turns off the lights.

PUZZLE 77 SECRET SECTOR

Padmé Amidala is on a secret mission to meet a Republic spy, but the precise sector she needs to collect them from has been encoded within the grid below. The sector is five digits long, and written from left-to-right across the centre as marked by the grey bar – but first she needs to fill in the grid!

Place the numbers 1 to 5 once each into every row and column of the puzzle, and in such a way that two identical numbers never touch – not even diagonally.

	3		1	
2				3
3				5
	4		3	

PUZZLE 78 KENOBI'S KEYPAD

The password for Obi-Wan Kenobi's secret lock-box has been encoded in the puzzle grid below. By solving the puzzle, you will reveal the password in the shaded squares, reading down and right from the top-left square. To solve the puzzle, place the letters A, E, G, I, K and N once each in every row, column and bold-lined 3x2 box.

		I		
			I	A
K		A		N
	E		K	I
E		N		
			G	

PUZZLE 79 EYE SPY

Cassian Andor has intercepted coded plans to a secret enemy lab, revealing where all of its probe droids are. He knows the following:

- Probe droids are only found in empty squares, not the shaded squares, and only one in each square
- Numbers in the shaded squares tell you how many cameras there are in the squares immediately to the left, right, above or below
- Cameras can see all the way left, right, up and down from their square, but not through shaded squares
- No two cameras can see each other
- All empty squares can be seen by at least one camera

Can you work out where all of the cameras are? Two have been added to get you started.

PUZZLE 80 CRYPTIC CRUMB

Salacious Crumb has played a prank on the staff at Jabba's Palace – he's turned all the signs into puzzles! Can you work out what is kept in the room with the sign below?

Numbers at the start of a row or column indicate the number of shaded squares that touch in that row or column. Some squares have been shaded to start you off.

PUZZLE 81

THE LAST JEDI CROSSWORD

It's time to test your knowledge of *Star Wars: The Last Jedi*. Can you solve this tricky crossword?

- 20:** Flown by 19 Across (1-4)

PUZZLE 82 CALAMARI CODE

Admiral Ackbar's password is a single nine-letter word. Can you dial it in, by using each letter exactly once to spell out the word?

Once you have found the nine-letter word, how many more words can you make using this dial? Each word should use the centre letter plus two or more of the other letters in any order. You can't use any of the letters more than once in a single word, however. There are at least 30 words to find.

PUZZLE 83 BOUNTY HUNT

The bounty hunter Zam Wesell is tracking her latest target's movements. Only the start and end points of the target's route are now known, as shown by the black dots on the map below.

Work out the correct route by drawing a path from one black dot to the other, using horizontal and vertical lines to connect dots. The path cannot cross over any of the solid grey obstacles, and it cannot cross over or touch itself at any point. Numbers outside the grid show how many of the dots in each row and column that the loop visits.

PUZZLE 84

PORKINS' PERIL

It's Porkins' turn to pilot his X-wing through the turbolaser barrage! Divide the map up into squares of various sizes by drawing along the grid lines, so that each turbolaser is in exactly one square, and all of the map is covered by squares.

PUZZLE 85

LETTERS FROM MANDALORE

Not all the different people and alien species use the same alphabet, and even if most of them can speak multiple languages and understand each other, some still use their original ones. Some may be unfamiliar, but it's not impossible for someone with a very skilled eye to decode. Use the Mandalorian alphabet to decrypt the twelve names hidden in the puzzle opposite. The names are written in Mandalorian script without apostrophes, spaces or punctuation.

Extra challenge:
Once you've decrypted all 12 of the names, you'll have some spare letters. Read them from left to right, one after the other, and you'll get the name of a planet visited by the Mandalorian and Grogu.

PUZZLE 86

RANCOR RAMPAGE

Jabba's rancor pen is broken and the beast is running loose! Bring the ray shield back online by joining the force field posts together using only horizontal and vertical lines.

Some parts of the force field are still working – draw the rest back in so that every post is used. The force field must form a single loop, without any crossing or touching parts.

PUZZLE 87

RIDDLE OF THE SANDS

Tusken Raiders ride their bantha single-file, to hide their numbers, but with your Jedi techniques you can find out some things. Some Tusken Raiders and banthas passed this way recently. There were twenty-two creatures in all, and between them they had seventy-two legs.

Tusken Raiders have two legs, banthas have four legs.

How many Tusken Raiders were there, and how many banthas?

PUZZLE 88

CROP ROTATION

Aunt Beru waters her plants every morning, visiting every empty square exactly once each in a loop. She only travels horizontally or vertically between squares, not diagonally, and the loop does not cross over or touch itself at any point.

Can you trace her route? Here is an example:

PUZZLE 89

MATHEMATIC SUDOKU

Focus your energy to complete this mathematical sudoku. Fill in the grid with the numbers 1 to 9 once only in each row, column and 3x3 square.

This sudoku is divided into smaller sections, shown with a dotted outline. In each of these is shown a number that is the total of the numbers in that section. To help you, four numbers have been added already.

15	4		7		9	11	12

PUZZLE 95

SHIP SHAPE

Secret intelligence has reached the rebels, identifying the location of five enemy ships. Locate one cruiser, two fighters and two shuttles using just the information on the map below.

The rebels know that the ships are lying horizontally or vertically on the map, and each covers the number of squares shown by the key below. Squares with ships in don't touch each other – not even diagonally.

Numbers outside the grid reveal how many ship segments are contained in each row and column, as in the example.

PUZZLE 96

GUARDS, GUARDS!

Snoke has commanded you to assign elite guards to his palace. Place eight guards in the grid, following these rules:

- You can only place guards in empty squares, not the shaded squares, and only one in each square
- Numbers in the shaded squares tell you how many guards you need to place in the squares immediately to the left, right, above or below
- Guards can see all the way left, right, up and down from their square, but not through shaded squares
- No two guards can see each other
- All empty squares can be seen by at least one guard

Can you work out where all eight of the guards go?
One has been placed for you to start you off.

PUZZLE 97

CARGO CONUNDRUM

Chewbacca needs to load five rebel transports with important cargo. There are six types of package, with weights as shown:

7

9

11

5

12

4

Which types of packages should he load onto each freighter, given the target weights shown below? He can't use the same type of package more than once on a single ship.

For example, to load a total weight of 31 he would load the 4, 7, 9 and 11 weight packages, since $4+7+9+11=31$.

Ship 1: Total weight = 15

Ship 2: Total weight = 22

Ship 3: Total weight = 26

Ship 4: Total weight = 29

Ship 5: Total weight = 34

PUZZLE 98

WORD SCRAMBLE

Focus your mind and unscramble the letters to correctly spell the names and words.

UNTYBO

EDIJ

DEERESP KIBE

SKENUT
AIDRER

PUZZLE 99

TRANSMISSION IMPOSSIBLE

This clone trooper is receiving important orders, but the signal is faint. **Can you adjust the frequency to clean up the transmission?**

To find the correct values, start with the number at the bottom of each tower and then follow the arrows to apply each step in turn. For example, in the first tower you should start with 7, then multiply by 10, then add 10, and so on.

RESULT	RESULT	RESULT	RESULT
+20	x3	÷6	+20
÷3	+6	+6	÷4
-11	÷4	x2	x12
+10	x11	-10	÷2
x10	÷7	+17	-6
7	28	14	14

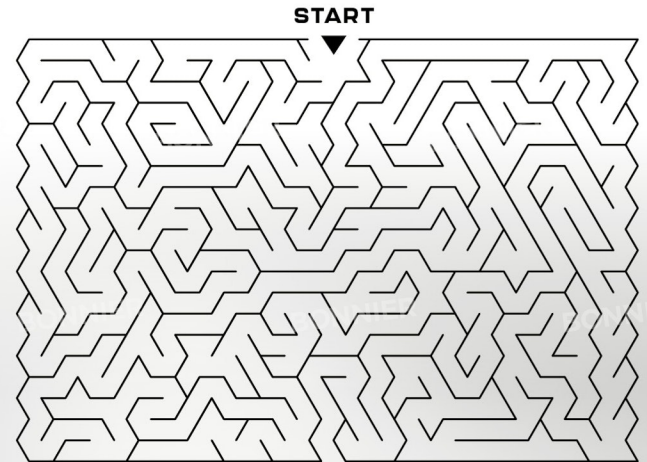

PUZZLE 100 MANDALORIAN MAZE

Din Djarin has become separated from Grogu. Navigate through the maze to lead the Mandalorian to his bounty.

PUZZLE 101 BB-8 ESCAPE

Poe Dameron hid the map to Luke Skywalker inside BB-8 and instructed the droid to run away. Follow the tangled lines to discover who finds BB-8.

THE ANSWERS

Puzzle 1
PUZZLE PROTOCOL

Circuit board 2 completes the circuitry.

Puzzle 2
WORD SCRAMBLE

Grogu, The Armorer, Boba Fett, Bounty Hunter.
