GIGANTOSAURUS™

THE ULTIMATE DINOSAUR STICKER ADVENTURE

WELCOME

Every day in Cretacia is filled with fun, friends, and lots to see and do! Today, the dinos have decided to go on an adventure. Who's coming along?

SQUAAAAAWK!

ROARSOME FACT

Over 700 species of dinosaur have been identified by scientists – that's a lot!

READY TO GO

Cretacia's a big place where you need to be prepared for anything! Can you make sure the dinos have everything they need?

The dinos never go anywhere without their Gigantoptedia or a tasty snack.

JUNGLE WALK

The first stop on our adventure is the jungle, where there are lots of plants and creatures to discover. Look out for the creepy crawlies!

BUZZZZZZ!

ROARSOME FACT

Before giant dinosaurs, there were giant bugs! An ancient dragonfly called Meganeura had a wingspan of up to 60 centimetres.

JUNGLE CLEARING

Phew! The dinos have reached the clearing. Here the trees climb all the way to the sky!
Who or what can you see?

Add some plants!

Who's in the air?

DEAD END

What's that up ahead? It's a mysterious cave! Luckily, the dinos packed everything they need for exploring, but are they ready?

Use speech bubble stickers to show how the dinos are feeling.

CAVE DWELLERS

This cave is huge and very dark.
Anyone could be hiding here!
Can you help the dinos make
their way through?

ROARSOME FACT

Even though dinosaurs didn't live in caves, experts called palaeontologists have found lots of dinosaur evidence in them.

Try adding
some glow
sticks to
light up
the cave!

CAVE PARTY

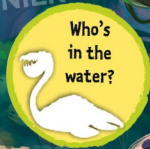

The dark cave path led to a pool party! Thanks for helping the dinos get here. Now let's have some fun!

WHEEEEEEE!

BEACH DINOS

That cave party was awesome!
Now let's play some games at
the beach. The dinos love to
have fun in the sun!

BELOW THE WAVES

The dinos have jumped in the water for a swim. Which friends will they find down here? Don't forget to hold your breath!

ROARSOME FACT

Most prehistoric sea creatures were not actually dinosaurs – they were swimming reptiles!

DESERT HEAT

The dinos need to dry off somewhere hot, and there's nowhere hotter than Cretacia's desert. The flying dinos love it here. Look out below!

Who does
this look like?

HISSESSSSS!

BONNIER

CANYON CRAWL

The desert isn't just for flying – there are deep crevices too! It's a very big place for the little dinos to explore. If only they could get around faster ...

This might be the perfect place for a dino race!

AT THE VOLCANO

Across the canyon is Cretacia's bubbling volcano. It's a great spot to study rocks and lava streams, but be careful the dinos don't fall in!

CRACKLE!
CRACKLE!

ROARSOME FACT

Scientists think that volcanic eruptions played a big role in wiping out the dinosaurs! Yikes!

Who's prowling about here?

ON THE SAVANNAH

Finally, the dinos have reached the savannah.
All the dinosaurs gather here to eat, play
games and have fun. It's big enough
for everyone, even Giganto!

HOME TIME

The dinos are back after their big Cretacia adventure. How do you think they're feeling? After a long day, there's really no place like home!

Who's here to welcome the dinos home?

DEN DOZING

What a dino-tastic day! I hope you had fun exploring Cretacia. It's time for the dinos to get some rest and dream about the next adventure...

A TEMPLAR BOOK
