Shriekasaurus is
soooo scary...

... and **FIERCE**
and **HUGE** and
MEAN!

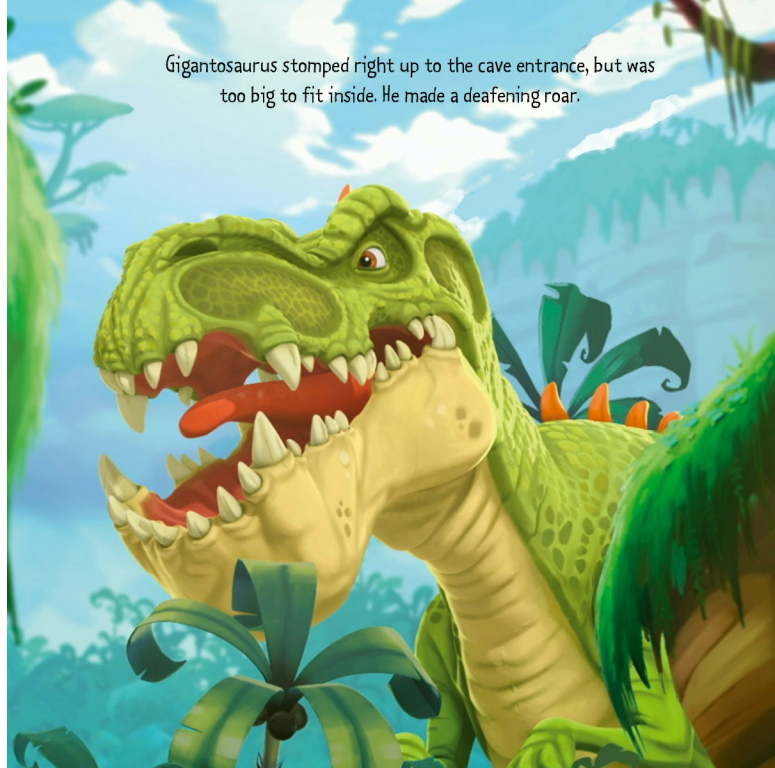

Trey and Ignatius had only just walked away when Rocky and Mazu came charging up the jungle path.

The ground rumbled and trees shook. That could only mean one thing...

"Quick!" shouted Mazu, dragging Tiny, Rocky and Bill into the cave. "Hide in here!"

Gigantosaurus stomped right up to the cave entrance, but was too big to fit inside. He made a deafening roar.

The cave was gloomy and dark – how would they ever find their way back? Luckily, Mazu knew just what to do. She reached for a long purple leaf.

“This cave has its very own glowsticks!” she said excitedly.

Mazu shook the strange plant. PING! It lit up.

What was
that?

It must be
Shriekasaurus!

We've got to get
out of here!
