RAINFOREST

NATASHA DURLEY

Deep in the rainforest, it is warm and wet. There are lots of tall trees, colourful plants and noisy creatures that live here.

On the forest floor, it is very dark. If you look closely, can you see the tiny critters in the fallen leaves?

SPIDER

SCORPION

BEEBLE

ANTS

CATERPILLAR

Follow the murky river as it twists and turns.
Who is that splashing in the water?

PINK RIVER DOLPHIN

Watch out for
SNAPPING JAWS!

CROCODILE

DRAGONFLY

High up in the trees, it is very busy and noisy.

CHAMELEON

SLOTH

GORILLA

TOUCAN

CHIMPANZEE

The thick trees are like a roof, making the perfect home for many animals. There is also plenty of fruit and seeds to eat.

BUTTERFLY

HUMMINGBIRD

SQUIRREL GLIDER

PARAKEET

MONKEY

MACAW

At the top of the tallest trees, it is sunny
and thin branches blow in the wind.

The best way to get around is by **FLYING** or **GLIDING!**
