# BOREDOM-BUSTER

## PUZZLE ACTIVITY BOOK OF

# THE HUMAN

# BODY

Blue whale, 30m.

Colour  
in this  
picture

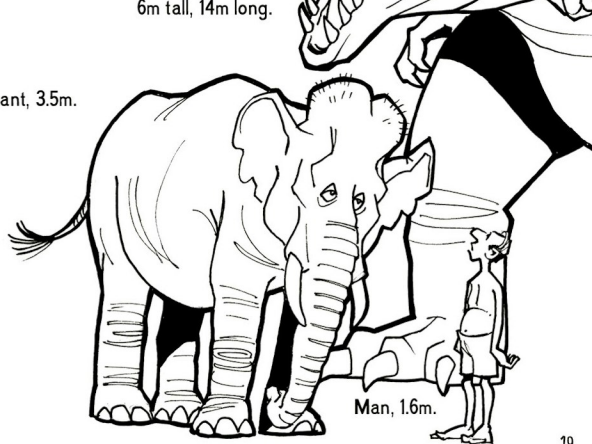

## ANIMAL SIZES

The African elephant stands twice as tall as a human, but the terrifying T rex was over four times taller! At over 30 metres long, the blue whale is the largest animal on our planet. Eighteen humans lying head to toe would measure the same length as a blue whale.

Tyrannosaurus rex,  
6m tall, 14m long.

African elephant, 3.5m.

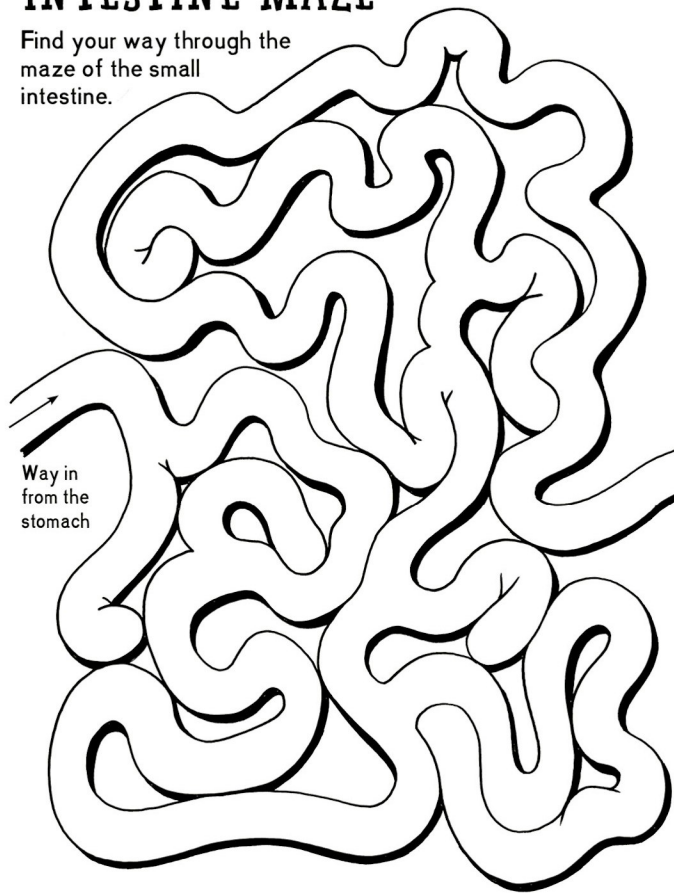

Man, 1.6m.

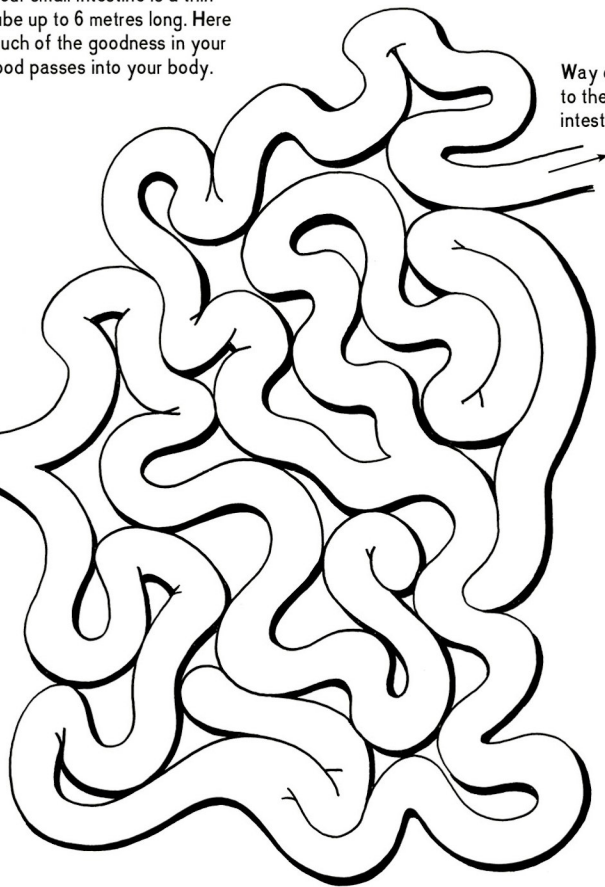

# INTESTINE MAZE

Find your way through the maze of the small intestine.

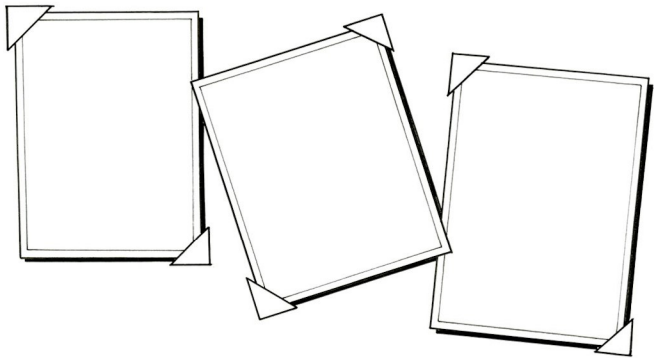

## DID YOU KNOW?

Your small intestine is a thin tube up to 6 metres long. Here much of the goodness in your food passes into your body.

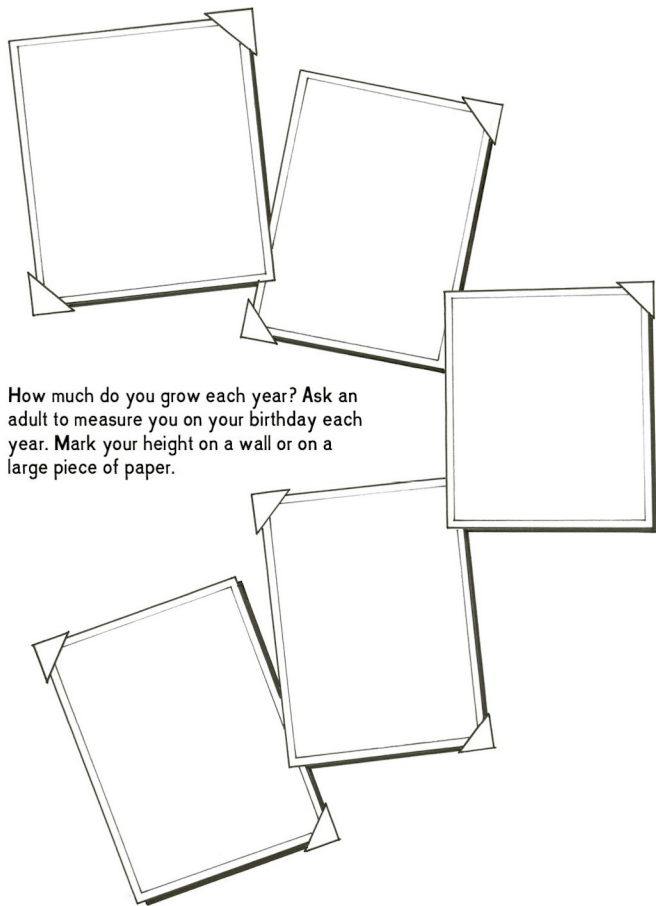

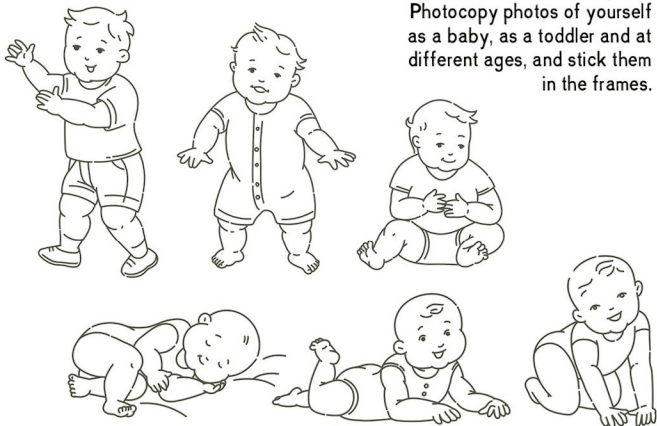

Way out to the large intestine

## GROWING UP

YOUR BODY HAS CHANGED A LOT SINCE YOU WERE LITTLE!

How much do you grow each year? Ask an adult to measure you on your birthday each year. Mark your height on a wall or on a large piece of paper.
