

Wash Those Hands!

The perfect guide for little monsters everywhere

John Townsend &
Carolyn Scrace

The
**MONSTER
SQUAD**

If you're grubby, just get scrubby!
Have a splash and a splosh,
a swish and a swosh
As you think, 'I'll use the sink
And give those hands a wash.'

Children with clean fingers sparkle!
They leave no dirt behind...
They show their manners every day,
By being so clean and kind.'

Whippy says that the word 'hygienic'
Means 'both safe and clean'.
Let's wash off all those pesky germs,
So tiny they can't be seen.

These tiny germs can make us ill
By spreading some diseases.
They whizz and whirl right through the air
The moment someone sneezes.

Rocky asks that when you're sneezing,

"Remember to use a tissue!
Toss it in the bin and wash your hands...
And you'll be a hygiene hero!"

It shows respect to wash your hands
Whenever you've been sneezing.
You care for others when you do...
Good manners are so pleasing!

'Germs are clingers - scrub those fingers!'
That's what Curly thinks.
'Keep them spotless, clean and dirtless,
When you handle food and drinks.'

No germ lingers on clean fingers,
That's what Zork insists...
**Be firm, beat germs, as we have learned
To scrub those hands and wrists.'**
