## All The Way Down: Ocean

## An ingenius exploration of our oceans

- An innovative information book that allows children to dive into the ocean depths and discover what life resides at each level.
- Part of the All the Way Down series that takes a 'look down' approach at different ecosystems, from the organisms that reside near its top to the creatures that dwell near the bottom.
- Engaging STEM non-fiction book for children 7-9 years old and aspiring scientists.

## All The Way Down: Ocean

adapted to hunting in the dark depths. They have the largest eyes in the animal kingdom, and the biggest bests of any squid. There are 25 rocating hooks on the ends of their tentacles for seizing prey. SEA TOAD The sea toad saves energy by barely	4000 M
SEA TOAD The sea tood saves energy by barely	
moving at all, breathing by pushing water across its gills. It sits on the seufloor and waits, moticelless, for prey to come within reach. It doesn't need to feed often, and isn't picky about what it eats.	Scoo M
S DEEP-SEA DRAGONFISH These fish have light organs next to their eyes that produce blue and red light. Emitting red light effectively makes them invisible to their prey: Drugonfish have large jaws and can eat prey more than half their own length.	Pood W
COOKIECUTTER SHARK This little shark lures predators with bioluminescence, and attaches itself to them with its thick, sucking lips. There, with its ranor-sharp, hook-like teeth, it cuts out a plug of flesh, seving a cratter wound.	3000 M (22.566 FETT)
S FRILED SHARK The frilled shark hunts above the scabed, lunging at its peep like a snake. It has several rows of small, needle-sharp teeth ideal for snagging the acit bodies of squid, its favourite prey. Its long flexible jaws enable it to swallow prey whole.	\$000 M Q5,240 HFT)*
6 GULFER EEL The gulper, or pelican cel, has an enormous scoop for a mouth, which it uses as a net as it swims into groups of small crustaceans. It then expels the water through its gills. It still has tentacles that glow pink to attract prey.	10000 M
