

A lift-the-flap book

HELLO,  
MRS ELEPHANT!

Sam Boughton

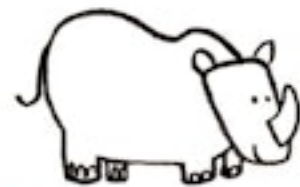

Welcome to the savannah!  
These grasslands in Africa are home  
to some AMAZING animals.

First off, say hello to  
Rhinoceros!

She has two  
BIG horns on  
her head!

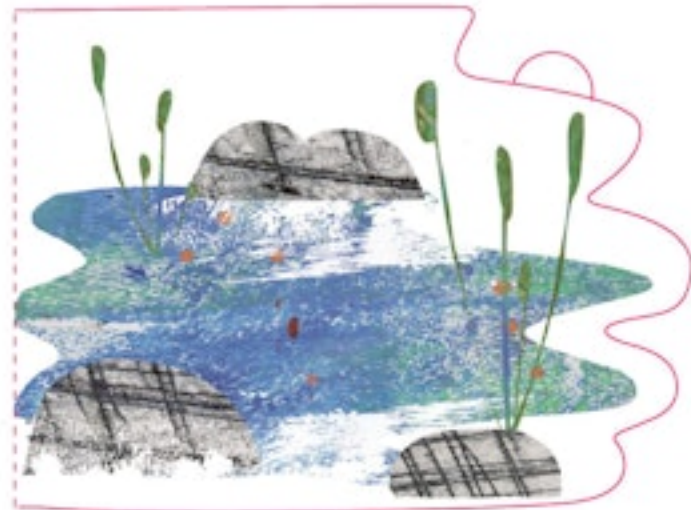

Hello  
Mrs Rhino!

Rhinos are  
REALLY HEAVY!

HERBIVORE

(That means she  
only eats plants.)

Meet the Zebra family.  
These wild horses are covered  
in black and white stripes.

They live in BIG  
groups called herds.

HERBIVORE

And here are the Wildebeest!

Every year thousands of zebras and  
wildebeest travel across Africa  
looking for food and water.

These are the **Lions**. They are known as the king of all the animals.

ROAR!

Male lions have lots of hair called a **MANE**.

A baby lion is called a **CUB**.

Say hello to Hippopotamus.  
He **LOVES** to splash in the water  
and wallow in the mud.

HERBIVORE

Hippos share the river with Crocodiles,  
the **BIGGEST** reptiles alive today!

Hello  
Mrs Crocodile!

Their skin is  
hard like  
armour.

Hello  
Mr Hippo!

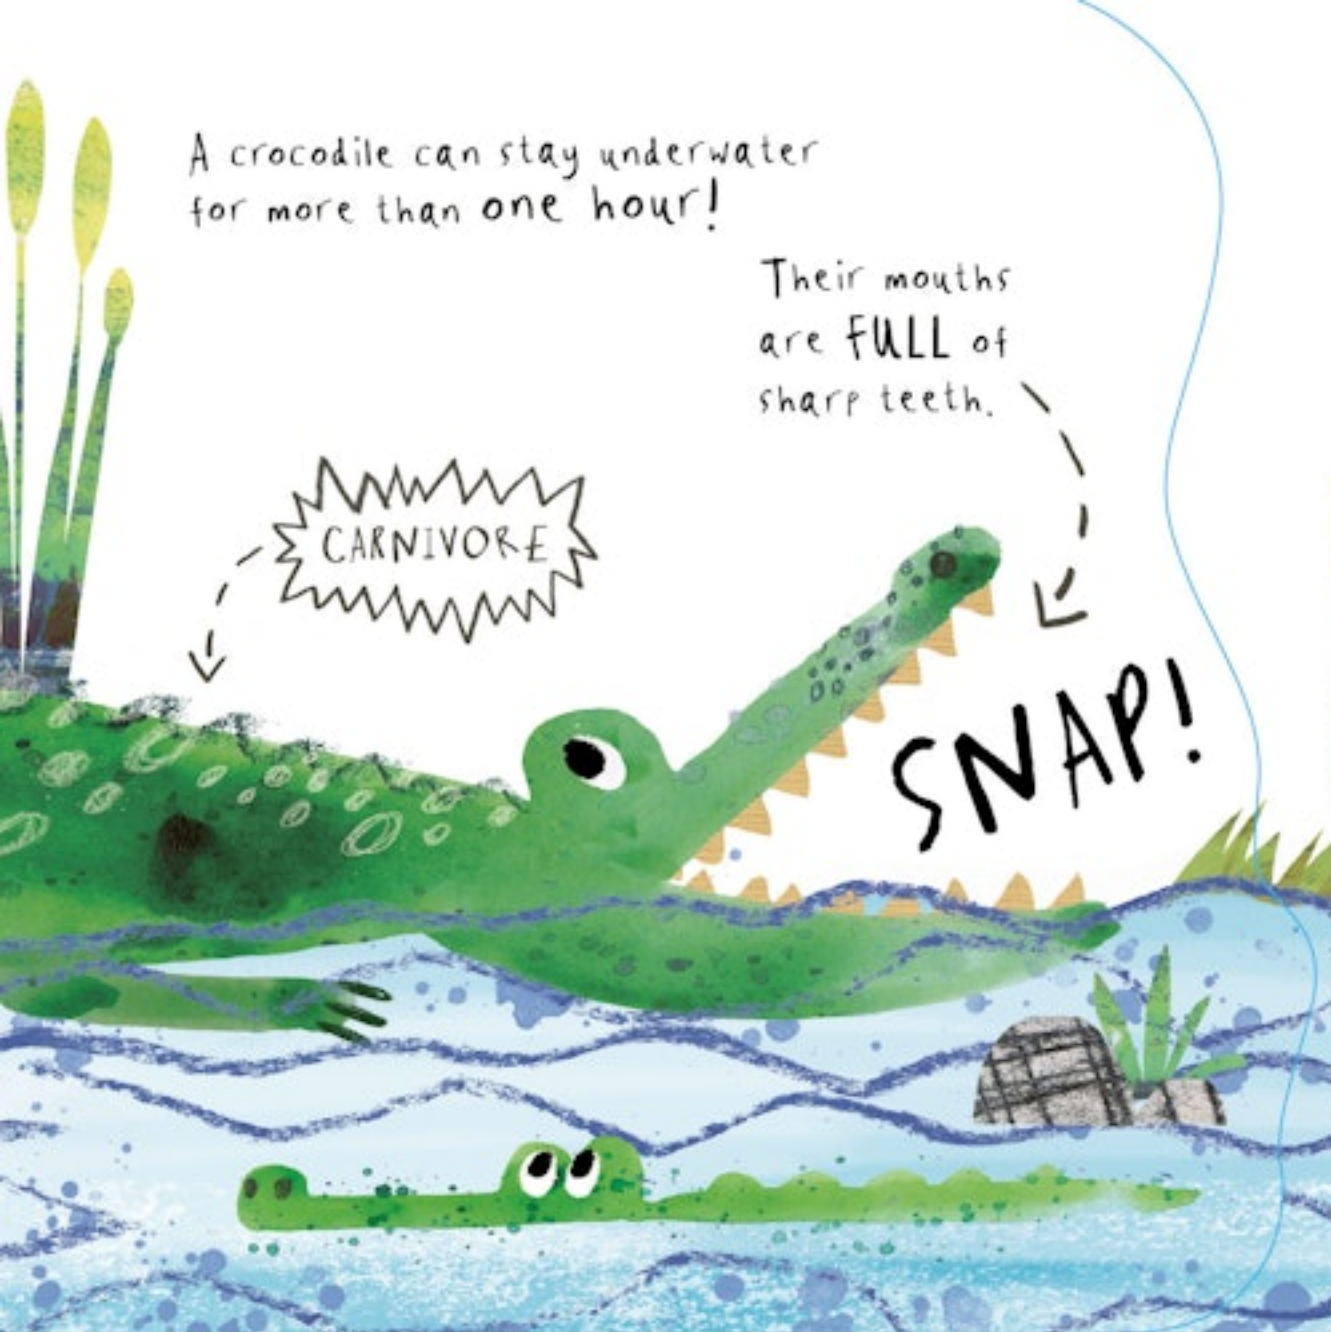

A crocodile can stay underwater  
for more than one hour!

Their mouths  
are FULL of  
sharp teeth.

CARNIVORE

SNAP!

A baby hippo is called  
a CALF – just like a  
baby cow!

Hippos' ears, eyes and  
nostrils stick out of the  
water when they swim.

This is Cheetah.  
She is the **FASTEST** animal  
in the whole world. **ZOOM!**

Her long tail helps  
her balance when  
she runs.

The cheetah is the smallest  
of the **BIG** cats.

Cheetahs have  
**AMAZING** eyesight  
to spot their favourite  
food... **GAZELLE!**

**CARNIVORE**

Sharp claws help her  
run fast – like spikes  
on football boots.

Cheetahs can run at more than  
**100km per hour!**

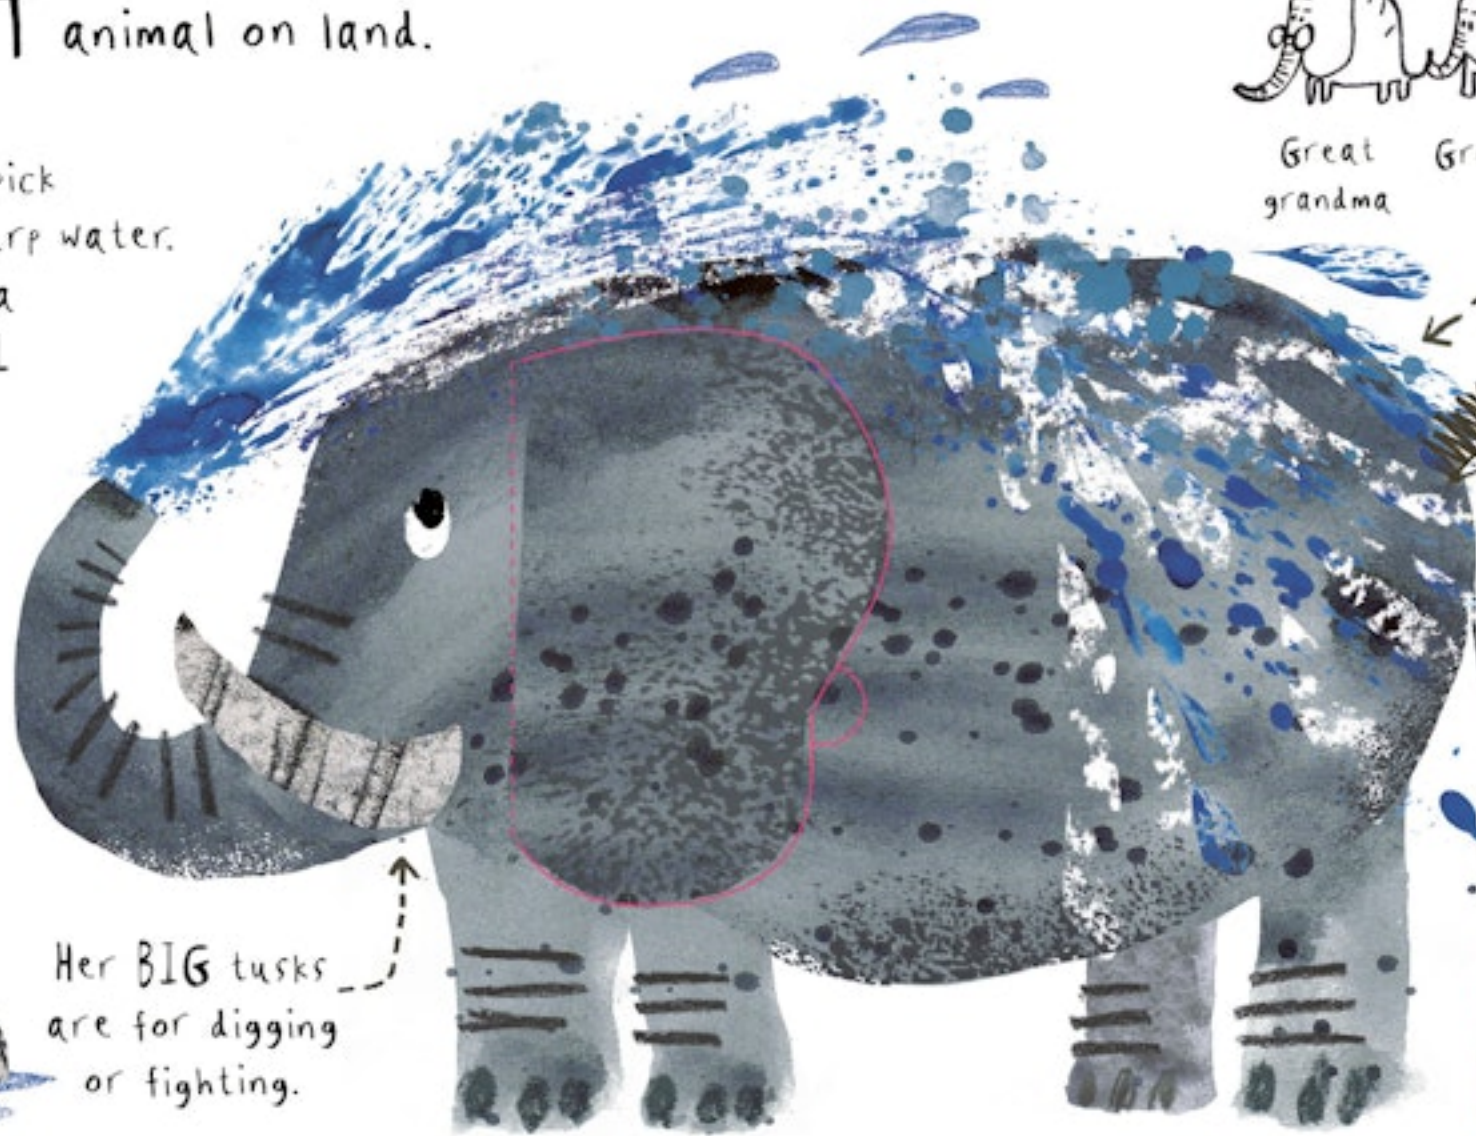

Look, here's Elephant! She is the **BIGGEST** animal on land.

Her trunk can pick things up or slurp water. She can drink a **BATH TUB FULL** in one day!

Her **BIG** tusks are for digging or fighting.

The females all live together but the males live alone.

Great  
grandma

Grandma

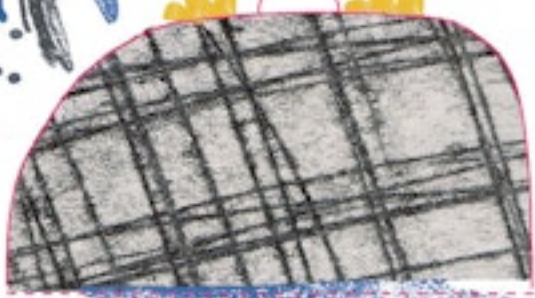

Auntie

Mummy

Baby

HERBIVORE

Hello  
Mrs Elephant!

Meet the Giraffes.  
They are much **TALLER**  
than any other animal.

That means they  
can reach leaves  
at the **TOP**  
of the trees.

Their  
tongues  
are **BLACK!**

Hello  
Mr Giraffe!

And here are ALL the animals.  
HELLO EVERYBODY!

Can you remember  
all of their names?

Say hello to the Vultures.  
They eat the other animals' leftovers...  
and their bodies when they die!

They are completely bald,  
with no feathers at all  
on their heads!
