

CHRISTMAS STARS

Emma Dodd

Christmas is special,
the **best** of all days...
a chance to show love
in so many ways.

Old friends and new,
some near and some far...
we think of our loved ones
wherever they are.

Christmas is cuddles
and Christmas is sharing.

Christmas is kindness
and Christmas is caring.

Playing together
out in the snow.
The air is so cold
it makes our cheeks glow.

Christmas is laughter
and twinkling lights.
As the hours rush past,
day turns to night.

An illustration of a mother fox and two cubs in a berry bush. The mother fox is a large red fox with a white chest and belly, lying down with her eyes closed. Two small cubs, also red with white chests and bellies, are lying on either side of her, also with their eyes closed. They are surrounded by green leaves and clusters of purple berries. The background is a solid blue color.

We've given our gifts,
what fun we have had.
Our tummies are full
and our hearts are glad!

Snuggling together
under the stars,
Christmas reminds us
how lucky we are.

Christmas is special
in every way...

giving, receiving,
laughter and play.

But best of all,
we spend it together.

And we will remember
our Christmas forever.
