ACTIVITY
BOOK

This book is snipped, glued and created by:

Did you know? The word 'collage' means to make a special picture by gluing together lots of different things. You can use colourful paper, pictures from magazines or even fabric. It's like a fun puzzle where you get to decide where each piece goes. It's a creative and exciting way to make art!

AYA WATANABE loves to explore imaginary worlds and express her inner child through art. She is also a devoted gardener, a wannabe entomologist, a compulsive tropical beachgoer and an avid sushi lover. She lives in Tokyo, Japan, with her pet caterpillars.

Let's discover paper stories!

Each story has a strip of pictures for you to cut out. There are butterflies, pizza slices, dinosaurs and more! Take your safety scissors and snip along the dotted lines, then glue the pictures on the page to make your story.

For an extra challenge, you can try cutting around each shape, using the outline of the picture instead of the dotted lines.

If you have left-over pictures, you can create new collages on another piece of paper or in a scrapbook. Have fun!
