PLANET X

Taneleer Tivan, the Elder of the Universe known as the Collector, wants Groot to be part of his exclusive collection – at any cost! He has travelled to Groot's home planet to capture him. Luckily, our hero, with help from his friends, manages to give the Collector the slip! Can you spot Groot hidden among all these Groot lookalikes?

PLANET XARTH THREE

To escape the Collector, Groot moves to Xarth Three, a planet defended by the Luminals, a team of space heroes – but he arrives just as the Kree military launches an attack! Groot needs to get off the planet as soon as possible to avoid losing a branch or two during the battle... But where is he?

PLANET NEW HALA

After escaping from Planet Xarth Three on a Kree ship, Groot travels to New Hala, homeland of the Kree warriors. Here, he takes advantage of a military parade to hide from the Collector. Taneleer Tivan will not be able to find him among the crowd of soldiers. Will you?

PLANET SPARTAX

Rescued by his friend Star-Lord, Groot is taken to Planet Spartax to enlist the help of a team of Ravagers stationed there. The belligerent space pirates, however, are intent on one of their many brawls and Groot is keeping a low profile! Can you spot him?

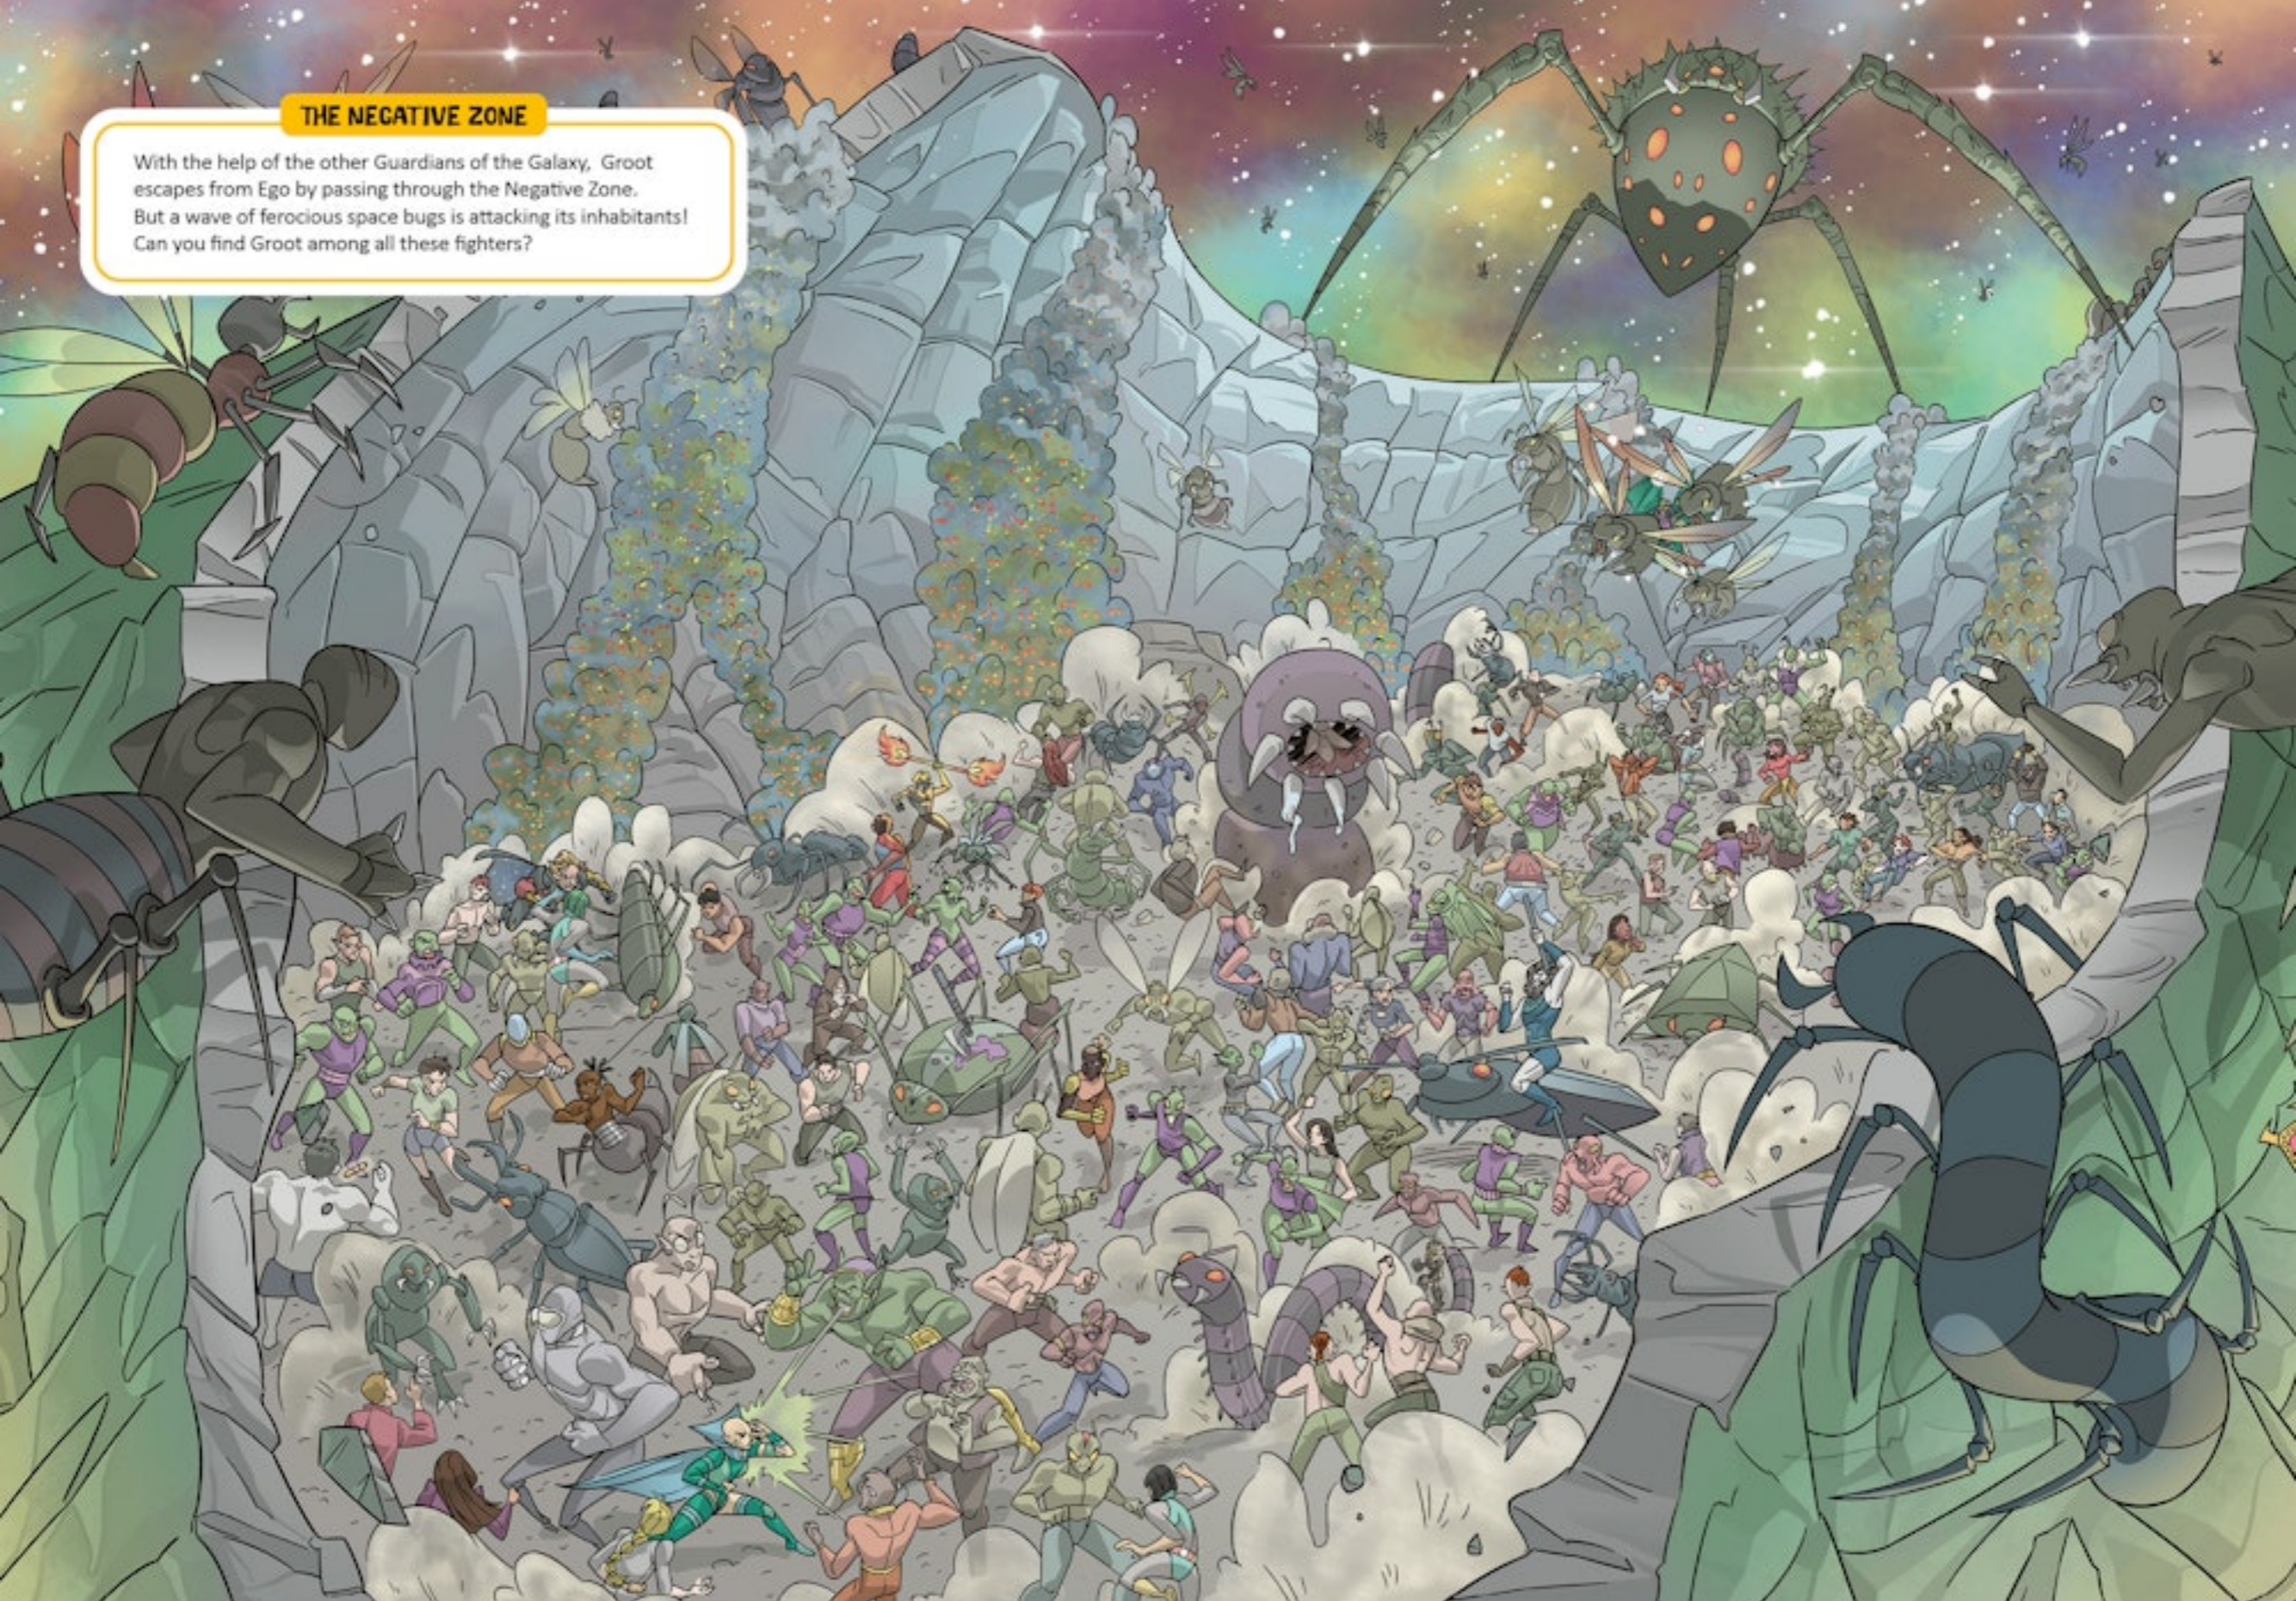

EGO, THE LIVING PLANET

Groot takes refuge on the surface of Ego the Living Planet, but the Collector is right behind him – he just doesn't give up! Let's hope he doesn't spot our woody friend. Can you spot Groot among the crowd? After the Ravagers' brawl he's been reduced in size...

THE NEGATIVE ZONE

With the help of the other Guardians of the Galaxy, Groot escapes from Ego by passing through the Negative Zone. But a wave of ferocious space bugs is attacking its inhabitants! Can you find Groot among all these fighters?

THE COSMIC ARCADE

Having escaped from the Negative Zone, a miniature-sized Groot reaches the Cosmic Arcade dimension, ruled by the Grandmaster, another of the Elders of the universe. Here, Groot meets his friend Nebula, who helps him hide from the Collector. Can you find him among all these creatures?

PLANET CHANDILAR

Chandilar, home planet of the alien species Shi'ar. The feasting crowd is celebrating their queen. This is a perfect opportunity for Groot to lose himself among the crowd of loyal subjects and guests from many planets, including Earth! Can you spot him in the parade?

SUBSECTOR 43

Even Chandilar is not safe for Groot, so he resumes his journey through the galaxy. He reaches Subsector 43 of the Shi'ar empire, where there is a mysterious rift in space, and hides among the beings exploring it. Will you be able to track Groot down in this crowded cosmic scene?

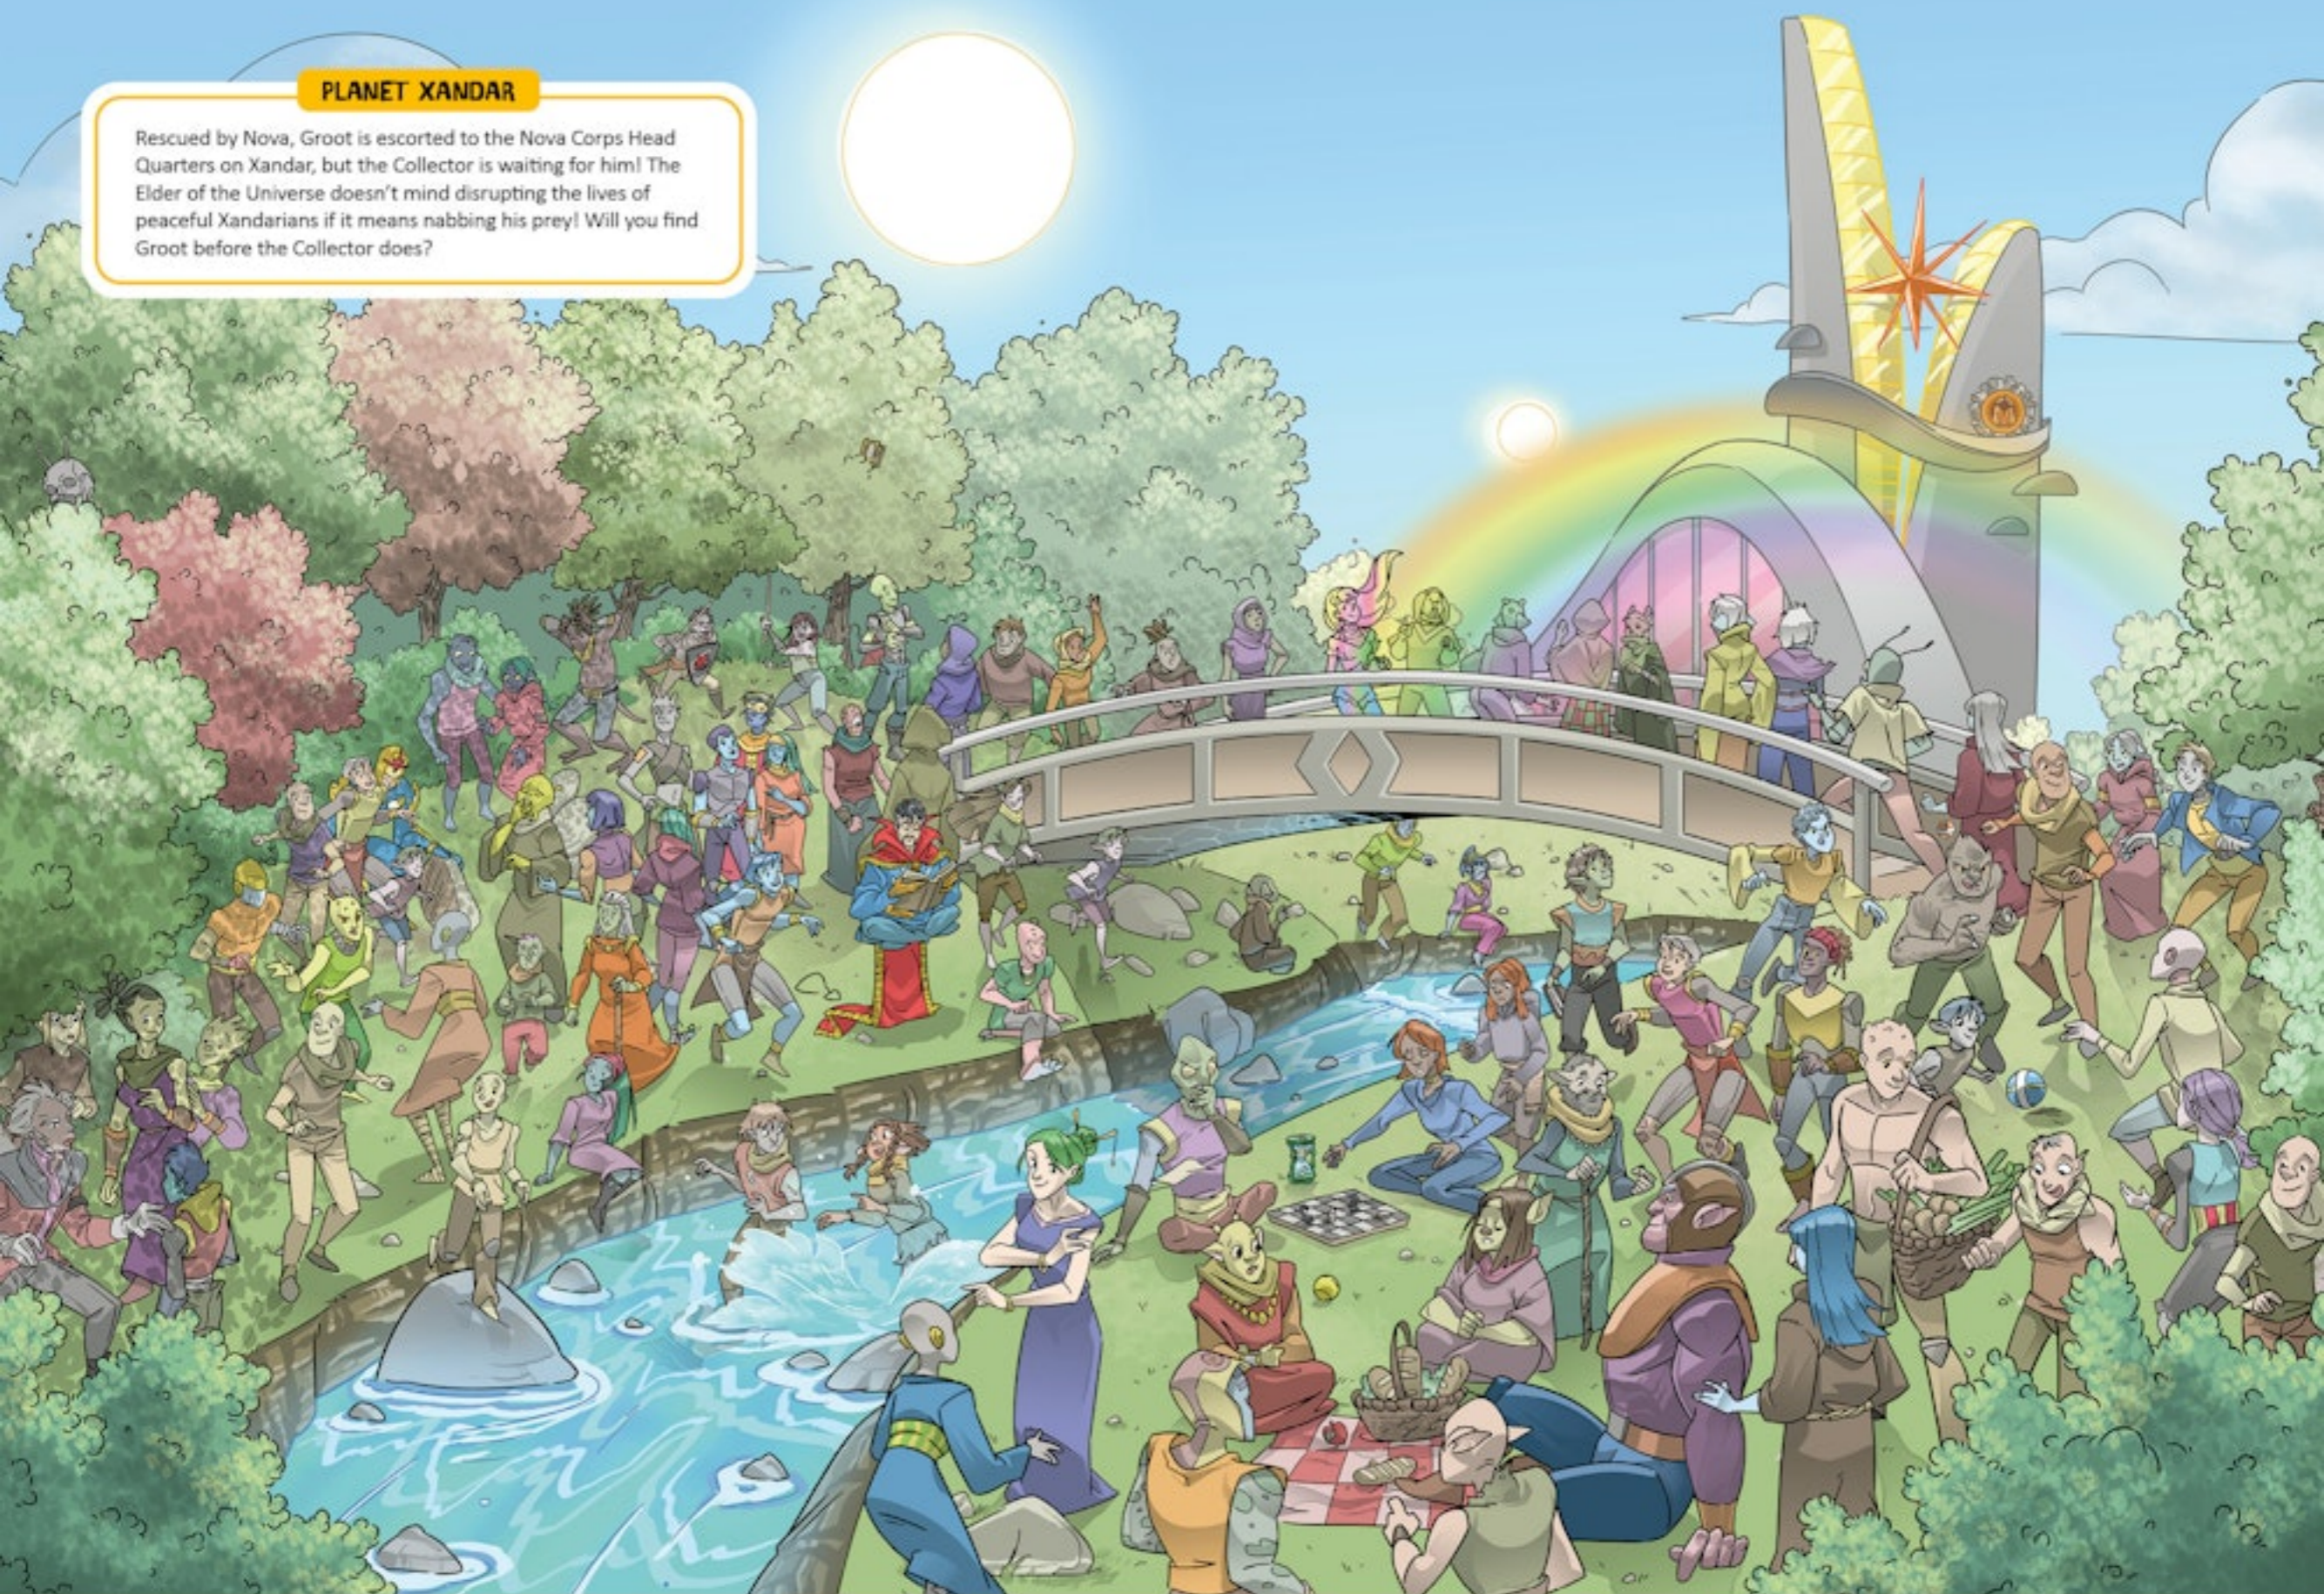

CROWN CITY (PLANET SAKAAR)

Arriving on Planet Sakaar, Groot hides from the Sakaaran Imperials in Crown City. The King's troops are looking for him at every street corner as Groot looks for an escape route. Can you find him among all the creatures fighting for possession of the city?

PLANET XANDAR

Rescued by Nova, Groot is escorted to the Nova Corps Head Quarters on Xandar, but the Collector is waiting for him! The Elder of the Universe doesn't mind disrupting the lives of peaceful Xandarians if it means nabbing his prey! Will you find Groot before the Collector does?

COLLECTOR'S MUSEUM-WORLD

Groot, full-sized again, has been caught by the Collector and imprisoned on one of his museum-worlds. Luckily, he managed to escape from his cage and is freeing all the other trapped beings. However, not everyone is paying attention to him... Where is he?

WAR-MOON

Upon leaving the Collector's museum, Groot discovers that he is on War-Moon, a moon of planet Tarnax IV used by the Skrulls as a training camp to invade Earth. Rescued by his friends, he demonstrates to the Elder and the alien warriors that no one messes with the Guardians! Can you spot Groot?
