Around the World in 80 Inventions

Ice Cream

"Dreaming from dessert"

14

On the hot day of August 18th, 1791, a Frenchman named Nicolas Appert was in the kitchen of a Parisian hotel. He was looking for a way to preserve food for the army. He decided to try making ice cream. He used milk, sugar, and vanilla. He put it in a glass jar and froze it. When he took it out, it was still good. He had invented ice cream.

Easy Ice Cream

Put 1 cup of milk, 1/2 cup of sugar, and 1/2 cup of vanilla in a glass jar. Seal the jar and freeze it for 24 hours. When you take it out, it will be ice cream.

Bicycle

"Freedom on two wheels"

15

Did you know that the first bicycle was called a velocipede? It was made of wood and had a large wheel in front and a smaller one in back. It was used by people who wanted to travel quickly. The first bicycle was invented in 1791 by a Frenchman named Michaux.

Petition Penny-Farthing

It was a lot of fun to ride, but it was also very dangerous. The front wheel was so big that it could fall over. People called it a 'boneshaker' because it was so bumpy. It was used by people who wanted to travel quickly.

Camera

"Tag along"

24

Although it was not an instant snap, the camera was a big invention. It allowed people to take pictures of things they wanted to remember. The first camera was invented in 1816 by a Frenchman named Nicéphore Niépce.

Developed to Perfection

Many improvements to the camera have been made since then. Today, cameras are used by people all over the world to take pictures of things they want to remember.

High-Speed Train

"10-speed"

25

By the 1980s, the world was looking for a way to travel quickly. The high-speed train was invented in 1976 by a Frenchman named TGV. It was the first train to travel at 100 miles per hour.

Marvelous Maglevs

The first maglev train was invented in 1984 by a Japanese company. It was the first train to travel without wheels. It was used by people who wanted to travel quickly.

Wind Turbine

"Harnessing the power of wind"

34

You might have seen a wind turbine on a hill. It is a machine that uses the power of the wind to generate electricity. The first wind turbine was invented in 1890 by a Danishman named Poul la Cour.

Green Energy

Wind turbines are a great way to generate electricity. They are clean and they don't pollute. They are used by people who want to live in a green world.

Helicopter

"A sailing way to fly"

35

What if you could fly? The helicopter was invented in 1907 by a Frenchman named Paul Corbière. It was the first machine that could take off and land vertically. It was used by people who wanted to travel quickly.

Versatile VTOLs

The helicopter is a very versatile machine. It can be used for many different things. It is used by people who want to travel quickly.

Wheel

"The revolutionary design that makes the world go round"

17

Can you imagine a world without wheels? Apart from sledges and ships, there would be no vehicles - no carts, cabs, bikes, buses, trucks, trains, or aeroplanes. The first wheeled vehicles were animal-drawn carts with solid wooden wheels. They were invented in Mesopotamia (modern-day Iraq) around 3500 BCE. 300 years after the horizontal potter's wheel. These carts carried cargo to market and heavy loads, such as stone and timber for building projects. The horse-drawn chariot came next. In about 2500 BCE, chariot wheels were spoked rather than solid like a cartwheel, so they were faster and lighter. The wheel may be one of the simplest inventions, but without it our world would be completely different.

Potter's Wheel

The very first wheels were used to make pottery. The art of pottery began around 30,000 years ago. Originally, potters would shape clay into pots with their hands, but this took a long time. The Mesopotamians invented a better method in around 3500 BCE. The potter's wheel was a large stone disc balanced on a stick called an 'axle', which could be spun. By putting clay on the wheel and spinning it, the potter could shape the clay quickly into pots. We don't know for sure, but it seems likely that the potter's wheel led to the invention of the vehicle wheel.

Internet

"The world at your fingertips"

18

The invention of the Internet - a network of computers that 'speak' to each other - was a concentrated effort in the United States. The first computers were connected to each other in 1969, but scientists first began developing the Internet in the early 1970s during the Cold War (1947-1991), a time of heightened hostility between the USSR and the United States and when computers were the size of an entire room. The United States government wanted a communication system that couldn't be destroyed in a single attack, so they created ARPANET (Advanced Research Projects Agency Network): a series of linked computers across different locations, which allowed information to be relayed along telephone lines. The first message was sent in 1969. It was a single word: LOGIN, but only the 'L' and the 'O' got through before the network crashed. By the end of the same year four computers were connected on the ARPANET. It took years to create the 'network protocol' that allows computers to transfer data and 'speak' to each other. From the 1970s this network grew into the global Internet, which now links billions of devices. Today, whatever you want - books, food, holidays, cars - with the Internet you simply click a button and wait for it to arrive. Social media sites allow people all over the world to communicate instantly. We can consume films, television shows, music and video games, and even do our banking online.

World Wide Web

The World Wide Web (WWW) is a gateway to the Internet. It's made up of search engines like Google and Safari, the Internet addresses (also called URLs) we type in, and the websites that appear on our screens. It was invented by a British computer scientist called Tim Berners-Lee in 1989 while working at CERN, a science research laboratory in Switzerland. The WWW made the Internet accessible to everyone, not just scientists and academics.

TAKE A BREATH!

Try this breathing exercise to help you relax:

STEP 1

Make sure you are sitting comfortably in a quiet and safe place. When you feel ready, close your eyes. Notice your breathing. Think about how it feels breathing in and breathing out. Try to breathe in through your nose and out through your mouth.

STEP 2

Place your hand on your tummy and focus on the feeling of your stomach rising and falling with each breath. When you breathe in, quietly say 'in' to yourself, and when you breathe out, quietly say 'out' to yourself.

STEP 3

Concentrate on nothing but your breathing and try to let go of any other thoughts you may have.

When you've had lots of practice at the breathing exercise, see if you can think about a happy memory at the same time. This way, your happy memory will take up all the space in your brain, and there won't be any room for the worries.

Encanto (Disney Modern Classics)

<p>MODERN CLASSICS</p> <p>On the evening of her fifth birthday, a Colombian girl named Mirabel sat in the nursery of her home with her eyes closed, waiting to receive a very special gift.</p> <p>"Open your eyes," Mirabel's grandmother, Abuela, said, revealing a magical candle.</p> <p>Mirabel gazed as beams of golden light reflected off her large, round spectacles and danced about the room.</p>  <p><small>Mirabel's magical candle is an important part of the story of Encanto, offering light in the darkness. Disney/Pixar © Disney</small></p>	<p>DISNEY ENCANTO</p>  <p><small>The animation sequence for the prodigal son, highlighting key moments in the story. Disney/Pixar © Disney</small></p> <p>Mirabel awoke in a place as Abuela Alma began to tell the story of the candle and the magic it had brought into their lives. This candle holds the miracle given to our family," she said, and the story began.</p> <p>Abuela told her granddaughter that the candle had been with her for many years. Light from the candle shone on her and Mirabel's grandfather, Pedro Madrigal, when they submitted to the world. The same candle lit their way through the darkness when they were forced to flee their home because it was no longer safe. Others travelled with them, guided by the candle's light, hoping it would lead them to refuge.</p> <p>But not all who followed the Madrigals were friends. The violent man who had forced them from their homes was close behind. Mirabel's grandfather, Pedro, turned to face the danger and died in the fight.</p> <p>Cradling her three infants in her arms, Abuela felt her knees, lost in the darkness of her grief.</p>
<p>MODERN CLASSICS</p> <p>When Alma's three babies turned five years old, the magic of the candle guided each of them to a door inside their house. Beyond these doors, each child discovered a unique magical gift, and when their children came of age the magic had gifts for them, too. Alma's children and grandchildren used these gifts to make the family strong, and turn their home into a paradise.</p> <p>Ten years later, the very same Mirabel Madrigal awoke in the very same nursery on the morning of her cousin Antonio's birthday ceremony. It was a busy day with lots to do, and Mirabel needed to get ready fast. Thankfully, Casita, the magical house, was happy to help. The five-year-old nudged Mirabel's shoes towards her feet, and as she got dressed, hanging clothes about the room, the laundry basket moved to meet them.</p> <p>As the ceremony was about to begin, Abuela Alma showed Mirabel the candle. Mirabel left the nursery excited to discover what her gift would be and determined to make her family proud.</p>  <p><small>The very day of Encanto is filled with magical scenes. The moment of Mirabel's gift ceremony is a key moment in the story. Disney/Pixar © Disney</small></p>	<p>DISNEY ENCANTO</p> <p>Outside, children from the town were excited about their friend Antonio's birthday ceremony. They called to Mirabel, asking her what Antonio's gift would be.</p> <p>Mirabel told them that they would have to wait to find out, but that only made the children more curious. They wanted to know more about the magic, the ceremony and about Mirabel's own gift.</p> <p>But Mirabel did not like to talk about herself. Today wasn't about her, it was about Antonio and the family, so instead she told them about the amazing Madrigals.</p>  <p><small>The children in Encanto were carefully crafted from the people of Colombia, where the film is set. Disney/Pixar © Disney</small></p>

<p>MODERN CLASSICS</p> <p>As the Madrigals got ready for the day, Mirabel explained that she came from a family of stars. At their centre, Abuela Alma made sure everyone knew their place.</p> <p>When the family left for work, Mirabel introduced them to the children, explaining each of their gifts.</p> <p>First was her Tía Pepa who controlled the weather with her emotions. Mirabel also had a Tío Bruno who could see the future, but Bruno disappeared and nobody talked about him. Mirabel's mother, Julieta, could heal people with the food that she cooked.</p> <p>Mirabel said that the family grew larger when her Tía Pepa married a man named Félix and had children, and when her mother married her father, Agustín and had Mirabel and her two sisters. The children were confused. They didn't know who were Mirabel's sisters and who were her cousins.</p> <p>Mirabel explained that her cousins were Dolores, Camilo and Antonio. Dolores had the gift of being able to hear the quietest sounds and Camilo could shapeshift to look like other people. Mirabel said Antonio would find out his gift that evening.</p> <p>Mirabel's sisters were Luisa and Isabela. Luisa was incredibly strong, Isabela could make flowers bloom wherever she walked.</p> <p>Mirabel told the children everything she could but when she tried to leave, the children had one more question.</p> <p>"What is your gift?" asked a little girl.</p>	<p>DISNEY ENCANTO</p>  <p><small>The extended Madrigal family, and the relationships between them, form the basis for the movie.
