# From Shore to Ocean Floor

Imagine standing on a shore and looking out to sea. Even on the wildest day, the ocean is huge and mysterious. Black out and still the part of the sea, under the sun and moonlight, is like looking into a mirror. If the sea were not so mysterious, it would be a very boring place. It is the sea that has made the world what it is today. It is the sea that has made the world what it is today.

The sea has been a source of food and a place of refuge for people since the beginning of time. It has been a source of food and a place of refuge for people since the beginning of time. It has been a source of food and a place of refuge for people since the beginning of time.

From the first time a person stepped onto a beach, the sea has been a part of their lives. It has been a part of their lives from the first time a person stepped onto a beach. It has been a part of their lives from the first time a person stepped onto a beach.

And today, the sea is still a source of food and a place of refuge for people. It is still a source of food and a place of refuge for people. It is still a source of food and a place of refuge for people.
