- A beautifully produced gift edition for the Christmas market.
- Clever paper engineering from the renowned in-house team at Templar.
- 100% foil on the cover.
- Also in the series: *The Snow Queen*, *The Nutcracker* and *Swan Lake*.

# Sleeping Beauty

At last, the day of the princess's sixteenth birthday arrived. She awoke early, but found the castle empty: everyone was out preparing for the party. Alone for the first time, a strange impulse drove the princess's feet toward the castle's abandoned tangle. There she rummaged silver halls, corridors lined with ancient books and secret passageways she had never wanted before.

She turned key after key in room after room, until she came to an old stone tower, a narrow staircase winding up towards a room at the top. In the middle of the room, beside a little bed, a strange old woman sat spinning thread at a whirling wheel. It spun round and round, as the woman's feet tapped up and down. The princess had never seen such a thing before.

"What's that?" she asked.

The old woman answered, "A spindle, to make thread to weave into beautiful clothes."

"Can I try it?" asked the curious princess.

"Yes, please do," replied the old woman.

The princess reached out to take hold of the spindle, and cried "Ouch!" She had pricked her finger on its sharp point.

Instantly, her eyes closed. She swayed, then sank onto the bed, straight into a deep sleep, just as the seventh fairy had promised.

And when the princess fell asleep, so did everyone else. Sleep spread over the castle like a warm soft blanket. The king and the queen, their servants, and the cook - just arrived home from their errands - all fell asleep. The horses in the stables, the dogs, geese and hens in the yard, the pigeons on the roof and even the flies on the walls all slept. The fires in the fireplaces died down, food stopped cooking and soon everything settled into stillness. All was silence, but for the sound of peaceful breathing.

- Full of novelty elements, secret documents, and hidden stories
- The tenth Ology in a series that has sold over 18 million copies worldwide

## CHAPTER II Stars and Planets

From the our Sun, we have millions of billions of stars and planets in the galaxy that surround us. There are billions of galaxies in the universe. The stars and planets in our galaxy are made of gas and dust. The stars are made of hydrogen and helium. The planets are made of rock and metal. The stars and planets in our galaxy are made of gas and dust. The stars are made of hydrogen and helium. The planets are made of rock and metal.

**THE SOLAR SYSTEM** The solar system consists of the Sun, eight planets, and many moons. The Sun is a yellow dwarf star. The planets are Mercury, Venus, Earth, Mars, Jupiter, Saturn, Uranus, and Neptune. The moons are the natural satellites of the planets.

**THE LIFE OF A STAR** A star is a ball of gas that is held together by its own gravity. The gas is mostly hydrogen and helium. The star's core is where the nuclear reactions take place. The energy from the core is carried to the surface of the star and is radiated out into space.

**STAR'S EVOLUTION** A star is born from a cloud of gas and dust. The cloud collapses under its own gravity, and the core becomes hotter and denser. When the core is hot enough, nuclear reactions begin, and the star is born. The star will live for billions of years before it dies.

**PLANETS** A planet is a celestial body that orbits a star. It is large enough to be rounded by its own gravity and has cleared its orbit of other objects. The planets in our solar system are Mercury, Venus, Earth, Mars, Jupiter, Saturn, Uranus, and Neptune.

**LOGIC TEST #1**

## CHAPTER III Alien Biology and Physiology

There are many different types of aliens in the universe. Some are made of silicon, some are made of carbon, and some are made of unknown materials. They have different body structures and physiologies. Some have multiple eyes, some have multiple arms, and some have different types of heads. They have different ways of thinking and feeling. Some are intelligent, and some are not. Some are friendly, and some are hostile. They have different ways of life and different cultures. They have different languages and different ways of communicating. They have different ways of solving problems and different ways of creating art. They have different ways of thinking and feeling. Some are intelligent, and some are not. Some are friendly, and some are hostile. They have different ways of life and different cultures. They have different languages and different ways of communicating. They have different ways of solving problems and different ways of creating art.

**ALIEN'S ANATOMY** The anatomy of an alien is different from that of a human. Some aliens have multiple eyes, some have multiple arms, and some have different types of heads. They have different ways of thinking and feeling. Some are intelligent, and some are not. Some are friendly, and some are hostile. They have different ways of life and different cultures. They have different languages and different ways of communicating. They have different ways of solving problems and different ways of creating art.

**REPRODUCTION BY BIRTH** Some aliens reproduce by birth. They have different ways of giving birth and different ways of raising their young. Some aliens have different types of parents and different ways of interacting with their children. They have different ways of thinking and feeling. Some are intelligent, and some are not. Some are friendly, and some are hostile. They have different ways of life and different cultures. They have different languages and different ways of communicating. They have different ways of solving problems and different ways of creating art.

**REPRODUCTION BY CLONING** Some aliens reproduce by cloning. They have different ways of creating clones and different ways of raising them. Some aliens have different types of clones and different ways of interacting with them. They have different ways of thinking and feeling. Some are intelligent, and some are not. Some are friendly, and some are hostile. They have different ways of life and different cultures. They have different languages and different ways of communicating. They have different ways of solving problems and different ways of creating art.

**LOGIC TEST #2**

## CHAPTER IV Humanoid Aliens

Humanoid aliens are the most common type of alien in the universe. They have a similar body structure to humans, but they have different features. Some have different types of heads, some have different types of eyes, and some have different types of skin. They have different ways of thinking and feeling. Some are intelligent, and some are not. Some are friendly, and some are hostile. They have different ways of life and different cultures. They have different languages and different ways of communicating. They have different ways of solving problems and different ways of creating art.

**GENERAL DESCRIPTION** Humanoid aliens are the most common type of alien in the universe. They have a similar body structure to humans, but they have different features. Some have different types of heads, some have different types of eyes, and some have different types of skin. They have different ways of thinking and feeling. Some are intelligent, and some are not. Some are friendly, and some are hostile. They have different ways of life and different cultures. They have different languages and different ways of communicating. They have different ways of solving problems and different ways of creating art.

**EARTH HABITATS** Humanoid aliens live on many different planets in the universe. Some live on planets that are very similar to Earth, and some live on planets that are very different. They have different ways of thinking and feeling. Some are intelligent, and some are not. Some are friendly, and some are hostile. They have different ways of life and different cultures. They have different languages and different ways of communicating. They have different ways of solving problems and different ways of creating art.

**MISSION** Humanoid aliens have different missions in the universe. Some are sent to explore, and some are sent to colonize. They have different ways of thinking and feeling. Some are intelligent, and some are not. Some are friendly, and some are hostile. They have different ways of life and different cultures. They have different languages and different ways of communicating. They have different ways of solving problems and different ways of creating art.

**LOGIC TEST #3**

## CHAPTER V Technological Aliens

Many species use technology to improve their physical or mental abilities. The Cyberbrains long to extend their lifespans. To this end, they have replaced their body parts with durable mechanical components. They substituted their skulls for protective helmets made from a super-strong material called siliconium, which they believed would never break. However, a freak change in the atmosphere on their volcanic planet increased the temperature. Unfortunately, the Cyberbrains discovered that this caused some helmets to shatter - leaving many vulnerable brains exposed.

**GENERAL DESCRIPTION** Repton clones are humanoid beings with four limbs, body hair, and a large mouth. They are known for their intelligence and their ability to communicate with other species. They are known for their intelligence and their ability to communicate with other species.

**EARTH HABITATS** Repton clones have been known to inhabit various parts of the planet. They are most commonly found in the mountains and the valleys. They are most commonly found in the mountains and the valleys.

**MISSION** Repton clones are sent to the planet to help the other species. They are sent to the planet to help the other species.

**NOTES** Repton clones are known for their intelligence and their ability to communicate with other species. They are known for their intelligence and their ability to communicate with other species.

**SPECIMEN** Above: a sample of the shed skin of a Repton Clone.

**DENEBIAN CYBORGS** Although they look like machines, Denebian Cyborgs are living organisms encased in mechanical shells that give them super-strength. They are not very intelligent and have never mastered the art of remodeling. When their ancestors destroyed the wildlife on their home planet, Denebian, through over-exploitation, they were forced to offer their services to other species in exchange for a new home on foreign planets.

**GENERAL DESCRIPTION** There are many different varieties of Denebian Cyborg. They are known for their intelligence and their ability to communicate with other species. They are known for their intelligence and their ability to communicate with other species.

**EARTH HABITATS** Look for these aliens in areas where machinery abounds - on crop fields, factories or power plants. They digests themselves as machines to give assistance.

**MISSION** To feed homes on other planets.

**NOTES** They often work for the Group, but they will serve any race that will leave them, including the Tardians, Traders and Probationers.

**REPTON CLONES** Repton clones are humanoid beings with four limbs, body hair, and a large mouth. They are known for their intelligence and their ability to communicate with other species. They are known for their intelligence and their ability to communicate with other species.

**GENERAL DESCRIPTION** The surface of a Cyberbrain's brain is covered with a network of colored, sticky threads that are visible to those who know how to read them. With a transparent helmet in place of a skull, a Cyberbrain finds it difficult to keep its alien neural functions in times of war.

**TAU WARRIORS** Enemies of the Cyberbrains for many years, the Tau live in hives ruled over by the Red Queen. They are perfectly adapted to life in an underground volcanic environment.

**GENERAL DESCRIPTION** The Tau Warriors have long, hair-like mandibles.

**EARTH HABITATS** Although rarely found on Earth, they occasionally appear near active volcanoes. If you look down into a crater, you may be able to spot their crafts, Tau Drones. They are well-armed and intelligent.

**MISSION** To destroy all Cyberbrains.

**NOTES** The Tau are technologically advanced. Their hives, created in volcanic magma tunnels, are packed with goldbars, and their heat-generating suits for use in cold habitats are terrific feats of engineering.

**CYBERBRAINS** Denebian Cyberbrains' volcanic home is no longer suitable for habitation; they wage war against the Tau Warriors in the hope of ultimately conquering the Tau's planet, Volcanox, which has a similar volcanic environment.

**EARTH HABITATS** Cyberbrains hang out in laboratories or research stations on Earth, looking for technology to extend their lives and help them in their war against the Tau Warriors. They try to ensure they are not seen by humans.

**MISSION** Long-term: to spread their influence and ultimately cause death. Short term, to conquer Volcanox.

**NOTES** They communicate by reading the color patterns on one another's bodies, as well as by setting and receiving microwaves.

**THE TERRIBLE RED QUEEN**

**TAU WARRIORS** Enemies of the Cyberbrains for many years, the Tau live in hives ruled over by the Red Queen. They are perfectly adapted to life in an underground volcanic environment.

**GENERAL DESCRIPTION** The Tau Warriors have long, hair-like mandibles.

**EARTH HABITATS** Although rarely found on Earth, they occasionally appear near active volcanoes. If you look down into a crater, you may be able to spot their crafts, Tau Drones. They are well-armed and intelligent.

**MISSION** To destroy all Cyberbrains.

**NOTES** The Tau are technologically advanced. Their hives, created in volcanic magma tunnels, are packed with goldbars, and their heat-generating suits for use in cold habitats are terrific feats of engineering.

**LOGIC TEST #7**

At the international reception, a reception area, guests had increased greatly on the site of the reception.

Blue alien: The brown alien spread off brown alien. I was the gray alien.

Gray alien: I added to it, he took.

Gray alien: The brown alien is lying!

Of course, only one alien possible is telling the truth. Which one did the speaker?

# Little Explorers: Food

### FABULOUS FOOD!

Food can be grown in your kitchen, but what if it could? What if you could plant it in the average that helps you measure, look and play before you eat it? Well, you can! It's almost true!

**VEGETABLES**  
Vegetables help your body work as it should. There are 12 basic vitamins and they all have different jobs.

**VEGETARIANS**  
Vegetarians eat only plants. They don't eat any meat, fish, or eggs.

**DIETITARIANS**  
Dietitarians advise what to eat. They help people who have health problems. They also help people who want to lose weight.

**DIET**  
A diet is a plan for eating. It tells you what to eat and how much. It can help you stay healthy.

**Nutrients**  
Nutrients are important things found in food that help your body grow and work. There are vitamins, minerals, and proteins. Each has a job to do.

### THE DIGESTION QUESTION

How does the food you eat turn into energy inside your body? How does it travel? The process is called digestion. Together, the parts of your body that help break down our food are called the digestive system.

**TEETH**  
Teeth are used to chew food. They are made of a hard material called enamel. They help break down food into smaller pieces.

**PHARYNX**  
The pharynx is the part of the throat at the back of the mouth. It is where food and drink meet.

**ESOPHAGUS**  
The esophagus is the tube that carries food and drink from the mouth to the stomach.

**STOMACH**  
The stomach is a large organ that digests food. It has muscles that help mix food with stomach acid.

**SMALL INTESTINE**  
The small intestine is a long tube where most of the digestion happens. It is where nutrients are absorbed.

**LARGE INTESTINE**  
The large intestine is shorter than the small intestine. It absorbs water and forms stool.

### LET'S CELEBRATE!

Although food is important for our survival, it has become so much more than that. It's something that we enjoy. Food has become a big part of many celebrations around the world.

**Diazi**  
Diaz is a festival in India. It is celebrated in the month of August. People dance and sing during the festival.

**Lunar New Year**  
The beginning of a new lunar year is celebrated with food that is used to bring luck, health and happiness.

**Happy Birthday!**  
People celebrate their birthdays in different ways around the world. Some people have parties with friends and family. Some people have religious ceremonies.

**Idol of the Road**  
Idol of the Road is a festival in India. It is celebrated in the month of August. People dance and sing during the festival.

**Idol of the Road**  
Idol of the Road is a festival in India. It is celebrated in the month of August. People dance and sing during the festival.

**Idol of the Road**  
Idol of the Road is a festival in India. It is celebrated in the month of August. People dance and sing during the festival.

### NOT FOR ME!

Some people have food allergies. They can't eat certain foods. They have to be careful about what they eat.

**Which foods cause an allergic reaction?**  
Different people are allergic to different things. Some common foods that can cause allergies are:

- Wheat
- Eggs
- Milk
- Peanuts
- Shellfish

**FOOD PROBLEMS**  
The production of food can have an impact on our planet. It can cause pollution and climate change. We need to be careful about how we produce food.

**Let's go!**  
Let's go to the supermarket to buy some food. We need to be careful about what we buy. We need to buy fresh food.

**Let's go!**  
Let's go to the supermarket to buy some food. We need to be careful about what we buy. We need to buy fresh food.

### FINDING FOOD

Usually, food appears in front of you at the dinner table. But how did it make its way there? Where does food come from? Many foods go on a journey from farms to factory to finished feast. Some food comes from much closer to home too!

**Fantastic farms**  
A farm is a place where animals might be used to produce food, and crops are grown there too. Some farms grow all sorts of fruits and vegetables. Some grow wheat. Others raise cows for milk and hens for eggs.

**Combine harvester**  
These machines cut and collect crops. They also separate the parts that can't be eaten from the parts that can.

**Orchard**  
An orchard is an area of land where lots of trees are planted to grow fruit.

**Tractor**  
The tractor is the most important machine on the farm. Different attachments can be added for different jobs.

**factory stop**  
Food grown on farms might go to a factory to be packaged up. It then travels to a supermarket. For people like you to buy and enjoy.

**In the garden**  
Some food is grown in your very own garden! People can grow delicious vegetables, such as carrots and cucumber, and fruits, such as cherries and plums, at home. Local farms might grow food you like too.

**Busy bees**  
Bees are one of the planet's greatest helpers. Here's why...
