# No Worries! Mindful Kids

COLOUR THIS IN WITH POSITIVE COLOURS

I  
AM  
IMPORTANT

COLOUR YOUR FEELINGS

Do you think feelings have their own colours? Colour in each of these feeling words with the colour that you think suits them best!

ANGER Happy  
Sad FEAR  
Laughter WORRY

YOGA POSE

Try these poses before bedtime or when you want to feel calm.

CHILD'S POSE

Bend your legs, fold your body on to your thighs and either rest your arms by your sides or extend them in front of you, whichever feels more comfortable.

SAY "I AM AT REST"

TREE POSE

Fast your feet on your ankles or above your knees and balance. Then change to your other leg.

SAY "I AM BALANCED"

BUTTERFLY POSE

Sit on the ground, press your feet together, and rub your shoulders back.

SAY "I AM SAFE"

CAT POSE

Breathe in and look up, lifting your back drop down. Breathe out and tuck in your chin, lifting your back in a high arch.

SAY "I AM AT EASE"

LADYBIRD POSE

Bend your knees, roll your shoulders back, and press your hands together.

SAY "I AM HAPPY"

SLEEP POSE

Lie on your back and take slow breaths. Close your eyes if you want. Try to empty yourself of thoughts. If your mind wanders away, notice where it goes, then bring your attention back to your breathing.

SAY "I AM AT HOME"

COLOUR THIS IN

EVERY  
PROBLEM  
HAS AN  
ANSWER

YOUR SAFE PLACE

Draw or stick a picture of somewhere you feel completely safe and happy.

Your safe place could be somewhere you've seen or been to, heard about, read about or dreamt about. A special, safe place where everything feels peaceful, relaxed and wonderful.

COLOUR THIS IN

I AM  
LOVED

TAKE A BREATH!

Try this breathing exercise to help you relax:

STEP 1

Make sure you are sitting comfortably in a quiet and safe place. When you feel ready, close your eyes. Notice your breathing. Think about how it feels breathing in and breathing out. Try to breathe in through your nose and out through your mouth.

STEP 2

Place your hand on your tummy and focus on the feeling of your stomach rising and falling with each breath. When you breathe in, quietly say 'in' to yourself, and when you breathe out, quietly say 'out' to yourself.

STEP 3

Concentrate on nothing but your breathing and try to let go of any other thoughts you may have.

When you've had lots of practice at the breathing exercise, see if you can think about a happy memory at the same time. This way, your happy memory will take up all the space in your brain, and there won't be any room for the worries.

### Perspective

If you look at any object from different viewpoints, you will see that the parts that are closest to you look larger, and the parts furthest away from you look smaller. Drawing in perspective is a way of creating a feeling of space - of showing three dimensions on a flat surface.

Two-point perspective drawing  
Two-point perspective shows how an object appears from two different viewpoints. The lines converge towards two vanishing points on the horizon line. This creates a strong sense of depth and three-dimensionality.

Low vanishing point  
Normal vanishing point  
High vanishing point

### Rats

Animals like rats make great cartoon characters. You can give them personalities and expressions, just as you can with your cartoon people.

Start by drawing the body in a simple shape.  
Add a line for the tail.  
Sketch the head and add some simple features.  
Add the ears and whiskers.  
Sketch the legs and add some simple features.  
Add the feet and claws.  
Sketch the face and add some simple features.  
Add the eyes and nose.  
Sketch the ears and add some simple features.  
Add the whiskers and claws.  
Sketch the body and add some simple features.  
Add the tail and feet.  
Sketch the head and add some simple features.  
Add the ears and whiskers.  
Sketch the legs and add some simple features.  
Add the feet and claws.

### Bulldog

The bulldog is a classic cartoon character. Its face is perfect for a grumpy expression, which usually gets it a character all of its own.

Sketch the head and add some simple features.  
Add the ears and whiskers.  
Sketch the snout and add some simple features.  
Add the eyes and nose.  
Sketch the body and add some simple features.  
Add the legs and feet.  
Sketch the tail and add some simple features.  
Add the collar and belt.

### Figure work

Adding clothes to a figure can help to define the character. This figure is dressed as a Victorian maid.

Sketch an oval for the head.  
Add ovals for the body and hips.  
Draw straight lines to connect the ovals and show the positions of the limbs.  
Indicate the joints with dots.  
Draw tube shapes for the arms, using your construction lines as a guide.  
Draw two shapes for the feet.  
Position the facial features as before.  
Inside the hand shape, draw a circle and one finger going into the mouth.  
Join the body and hips into one large oval.  
Add a small circle for the position of the big toe. This will help you draw the shoes.  
Make the legs into tube shapes.

### Drawing hands

Follow these steps to help you draw the shape of a hand. As you get better you will be able to draw different hand gestures.

1. Clenching  
2. Pointing  
3. Open palm  
4. Fist

### Shading

Use the pencil to add shading to the figure. Shading helps to create a sense of depth and volume.

Use the pencil to add shading to the figure. Shading helps to create a sense of depth and volume.

- Perfect for beginners to learn the basics and build art confidence, and ideal for children 8-12 years old.
- Continue the series with 55 other How to Draw titles to be made available!

# How To Draw Fantasy Art

## Drawing materials

Try using different types of drawing papers and materials. Experiment with charcoal, wax crayons and pastels. All pens, from felt-tip to ballpoint, will make interesting marks - or try drawing with pen and ink on wet paper.

Pastels are over softer than charcoal, and come in a wide range of colours. Add an adult to your parent's drawing with charcoal to prevent smudging.

Wax crayons are useful for creating strong patterns of a drawing done with wax crayons.

## Character proportions

This page shows some of the more popular fantasy figures and their proportions compared to a normal human figure. On average, the length of a human head should fit eight times into its body length. When you draw a fantasy figure anything goes - so let your imagination go wild.

## Man beasts

Combining a human figure with an animal's head can create a great hybrid monster. You can get inspiration by drawing from life models. Photos from sports movies and figure reference manuals are a good source too. Why not try putting a snake or lizard's head on a human body - see what you can create!

## Amazon warrior

This powerful female figure is a classic action fantasy character. She must look strong and powerful but retain her femininity and beauty.

Sketch cylinder shapes for each arm which join at the elbow.

Legs: add the curved lines of the upper and lower leg, indicating the knee joint.

Add the foot shape and direction.

Draw in ovals for the head, neck, body and hips.

Draw a long curved line to start the position of the body.

Draw in the boots shapes.

Add the sword using straight lines.

Sketch in the position of the ears, nose and mouth.

Sketch in the shape of the hair mass.

Indicate the position and shape of the breasts.

Add the costume's draped cloth using simple lines.

Finish the detail on the sword. Small broken lines give the impression of shining metal.

Add shape, tone and details to the hair.

Draw in bracelets and armbands.

Add tone to the legs.

Complete the details on the boots.

Add shade to areas where the light would not reach.

Draw in the top of the costume.

## ON THE LEVEL

If you pour water into a series of tubes that are connected together, the water finds the same level in all the tubes.

But some of these tubes have been drawn wrongly! Can you find which tubes contain water at the wrong level?

**HINT:** It will help if you colour all the tubes connected to jar A red, and all the tubes connected to jar B blue.

## TRICKS WITH LIGHT

Optical illusions are tricks that fool the eye. They make you see something that's not really there.

Hold the book up in front of you and tilt it to the left or right. What happens to the curved lines in the drawing below?

Can you see a triangle here? There isn't one in the drawing!

Stare very hard at the picture below, then slowly move it towards and away from you. What happens?

Are the sides of the square straight or curved? Check with a ruler.

Are the horizontal lines level or slanting?

## PUT THE FISH IN THE BOWL

1. Trace the fish and bowl onto card. Colour them in, then cut out the two circles.

2. Tape the two pictures to a pencil, so both pictures face out.

3. Spin the pencil between your hands. Can you see the fish in the bowl?

**DID YOU KNOW?** Optical illusions aren't just for fun – they help scientists to understand how the eyes and brain work together.

## GERMINATION

Most plants grow from seeds. If you plant a seed in a moist, sunny place it will start to germinate (sprout).

The tough seed coat splits open (1). First, a little root grows downwards (2), so the plant can take in water. Then, a little green shoot begins to grow upwards towards the sky (3). The new plant spreads its leaves in the light (4).

**BEANSPROUT MAZE**  
Help the new shoot find its way through the soil towards the light.

## RISING AIR

When air is heated it rises. This is what makes a hot-air balloon rise. Air spirals upwards in currents called thermals where the sun heats the air near the ground.

This experiment uses the warm air from a radiator.

Colour the snakes, then cut them out to make a spiral. Gently pull the head and tail apart. Use scissors to make a hole in the nose, and attach a string. Hang the snakes over a radiator and watch them spin around!
