YOGA POSE

Try these poses before bedtime or when you want to feel calm.

TREE POSE
Fast your feet on your ankles or above your knees and balance. Then change to your other leg.
SAY "I AM BALANCED"

BUTTERFLY POSE
Sit on the ground, press your feet together, and rub your shoulders back.
SAY "I AM SAFE"

LADYBIRD POSE
Bend your knees, roll your shoulders back, and press your hands together.
SAY "I AM HAPPY"

CHILD'S POSE

Bend your legs, fold your body on to your thighs and either rest your arms by your sides or extend them in front of you, whichever feels more comfortable.
SAY "I AM AT REST"

CAT POSE
Breathe in and look up, lifting your back drop down. Breathe out and tuck in your chin, lifting your back in a high arch.
SAY "I AM AT EASE"

SLEEP POSE
Lie on your back and take slow breaths. Close your eyes if you want. Try to empty yourself of thoughts. If your mind wanders away, notice where it goes, then bring your attention back to your breathing.

TAKE A BREATH!

Try this breathing exercise to help you relax:

STEP 1

Make sure you are sitting comfortably in a quiet and safe place. When you feel ready, close your eyes. Notice your breathing. Think about how it feels breathing in and breathing out. Try to breathe in through your nose and out through your mouth.

STEP 2

Place your hand on your tummy and focus on the feeling of your stomach rising and falling with each breath. When you breathe in, quietly say 'in' to yourself, and when you breathe out, quietly say 'out' to yourself.

STEP 3

Concentrate on nothing but your breathing and try to let go of any other thoughts you may have.

When you've had lots of practice at the breathing exercise, see if you can think about a happy memory at the same time. This way, your happy memory will take up all the space in your brain, and there won't be any room for the worries.

Perspective

If you look at any object from different viewpoints, you will see that the parts that are closest to you look larger, and the parts furthest away from you look smaller. Drawing in perspective is a way of creating a feeling of space - of showing three dimensions on a flat surface.

Two-point perspective drawing: Two-point perspective shows two vanishing points on the horizon line. The object is drawn so that its lines converge towards these points. This creates a strong sense of depth and three-dimensionality.

One-point perspective drawing: One-point perspective shows one vanishing point on the horizon line. The object is drawn so that its lines converge towards this single point. This creates a sense of depth and focus.

Rats

Animals like rats make great cartoon characters. You can give them personalities and expressions, just as you can with your cartoon people.

Start by drawing the body in simple shapes. Add a long tail. Sketch the head and ears. Add a small nose and whiskers. Draw the legs and feet. Add a small tail. Sketch the head and ears. Add a small nose and whiskers. Draw the legs and feet. Add a small tail.

Bulldog

The bulldog is a classic cartoon character. Its face is perfect for a grumpy expression, which instantly gives it a character all of its own.

Start by drawing the head and neck. Add a small nose and whiskers. Draw the legs and feet. Add a small tail. Sketch the head and ears. Add a small nose and whiskers. Draw the legs and feet. Add a small tail.

Figure work

Adding clothes to a figure can help to define the character. This figure is dressed as a Victorian maid.

Start by sketching these simple shapes for the figure. Draw an oval for the head. Add ovals for the body and hips. Draw straight lines to connect the ovals and show the positions of the limbs. Indicate the joints with dots. Draw tube shapes for the arms, using your construction lines as a guide. Draw two shapes for the feet. Position the facial features as before. Inside the hand shape, draw a circle and one finger going into the mouth. Join the body and hips into one large oval. Add a small circle for the position of the big toe. This will help you draw the shoes.

Figure work

Adding more facial features and draw in the shape of the face, using the construction lines as a guide.

Finish the head by adding the hair and eyelashes. Shade above the eyes and inside the ear. Add details such as cuffs, buttons and a collar. The hem of the dress covers part of the feet. Add lines to the apron and at the bottom of the dress to show folds in the material. Add shading to areas like this where light wouldn't reach.

How To Draw Christmas

Drawing materials

Try using different types of drawing paper and materials. Experiment with charcoal, wax crayons and pastels. All pens, from felt-tips to ballpoints, will make interesting marks – or try drawing with pen and ink on wet paper.

Pencil drawings can include a vast amount of detail and tone. Try experimenting with different grades of pencil to get a range of light and shade effects in your drawing.

Lines down in **ink** cannot be erased, so keep your ink drawings clearly and legible. Don't worry about mistakes as these lines can be lost in the drawing as it develops.

Archling light and shade to a drawing with an ink pen can be tricky. Use solid ink for the very darkest areas and cross-hatching for ordinary dark tones. Use hatching for midtones, and leave the white of the paper for the lightest areas.

Cross-hatching is the use of straight lines that cross each other.

Hatching is when short parallel lines are used to create tone.

Tail tips come in a range of

line widths. The wider points are good for filling in large areas of flat terrain.

Christmas alphabet

It is fun to create your own hand-drawn lettering. Here is an example of how to design a jolly Christmas-themed alphabet. Use it for cards, invitations and posters, or use it to spell out someone's name to personalise special gifts.

Alphabet

Use construction lines to accurately proportion our letters in your alphabet.

You can create a wide variety of different Christmas themes, such as a gift-wrapped letter or a snow-capped brick letter, as shown in these two examples of the letter T:

Here are some ideas for a Christmas-themed alphabet:

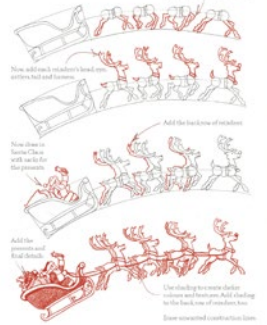

Santa Claus' sleigh

The modern idea of Santa's sleigh and the names of his reindeer, comes from the poem *The Night Before Christmas*. It was originally published anonymously in 1823 in the *New York Sentinel*. Rudolph was not invented until 1939, when he featured in a booklet that was sold at Montgomery Ward department stores.

Draw in the reticulovesicular lining layer.

Perspective

If you look at anything from different viewpoints, you will see that the part that is closest to you looks larger, and the part furthest away from you looks smaller. Drawing in perspective is a way of creating a feeling of space - of showing three dimensions on a flat surface.

The vanishing point (VP) is the place in a perspective drawing where parallel lines appear to meet. The position of the vanishing point depends on the viewer's eye level.

Two-point perspective uses two vanishing points: one for lines running along the length of the subject, and one on the opposite side for lines running across the width of the subject.

How To Draw Fantasy Art

Drawing materials

Try using different types of drawing papers and materials. Experiment with charcoal, wax crayons and pastels. All pens, from felt-tip to ballpoint, will make interesting marks - or try drawing with pen and ink on wet paper.

Pencils are over used these charcoal and come in a wide range of colours. Add an adult to your pencil drawing with charcoal to prevent smudging.

Use your mouse special effects to create some parts of a drawing from with wax crayons.

Character proportions

This page shows some of the more popular fantasy figures and their proportions compared to a normal human figure. On average, the length of a human head should fit eight times into its body length. When you draw a fantasy figure anything goes - so let your imagination go wild.

Man beasts

Combining a human figure with an animal's head can create a great hybrid monster. You can get inspiration by drawing from life models. Photos from sports movies and figure reference manuals are a good source too. Why not try putting a snake or lizard's head on a human body - see what you can create!

Amazon warrior

This powerful female figure is a classic action fantasy character. She must look strong and powerful but retain her femininity and beauty.

Sketch cylinder shapes for each arm which join at the elbow.

Add the basic shape of the hand.

Legs: add the curved lines of the upper and lower leg, indicating the knee joint.

Add the foot shape and direction.

Draw in ovals for the head, neck, body and hips.

Draw a long curved line to start the position of the body.

Drawing hands

Practise sketching your own hands in different positions. This will help you draw expressive hands on your characters.

Add the sword using straight lines.

Sketch in the position of the ears, nose and mouth.

Sketch in the shape of the hair mass.

Indicate the position and shape of the breasts.

Add the costume's draped cloth using simple lines.

Finish the detail on the sword. Small broken lines give the impression of shining metal.

Add shape, tone and details to the hair.

Draw in bracelets and armbands.

Add tone to the legs.

Complete the details on the boots.

Add shade to areas where the light would not reach.

How you see

Light passes through a hole called the pupil, in the coloured part of your eye. It passes through the lens which focuses it on the retina at the back of the eye. This sends signals via nerves to your brain.

Tricking the eye

Look at this picture for a minute or two. Then close your eyes. You should see an image of the skull even though your eyes are closed.

Look at the circles in the centre. Which looks bigger? Now measure them with a ruler.

Colour the pictures

Check your pulse

Every time your heart beats, it sends a surge of blood through your arteries. These little surges are your pulse.

Feel your pulse by pressing two fingers on your wrist below the base of your thumb.

Eating and exercise Make your heart beat faster. Time your pulse after doing different activities for two minutes. Record the results below.

Activity	Resting	Eating	Walking
Beats per 10 seconds			
Activity	Running	Shopping	Swimming
Beats per 10 seconds			
Activity			
Beats per 10 seconds			

Multiply the number of beats by 6 to find the number of beats per minute.

Match the skeletons

The adult skeleton contains about 206 bones. The smallest bones are in your ears!

Find the skeletons that match exactly

How tall are you?

Measure your height and draw yourself between the two figures.

An adult's height is eight times the size of the head.

A baby's height is four times the size of its head.

How many times does your head fit into your height?

Follow the tail

Biggest and smallest

The tallest Man who ever lived, American Robert Wadlow, was 2.72 M.

Average human 1.65 M.

Chandra Bahadur Dangi of Nepal is the shortest Man, 0.55 M.
