Welcome to the Museum: A Christmas Pop-Up Advent Calendar

The perfect gift, spread joy this Christmas with this decadent pop-up advent calendar, part of the bestselling Welcome to the Museum family.

- Published in conjunction with the Royal Botanic Gardens Kew
- High quality and made from sturdy material, the re-usable decorations and beautiful tree will take pride of place on any Christmas table, year after year.
- Beautiful artwork by textile designer, Emily Carter
- Luxury finishes including 100% foil cover, and interior box.

Welcome to the Museum: A Christmas Pop-Up Advent Calendar

MAMMALS

Reindeer

It is no coincidence that Father Christmas chose reindeer to pull his sleigh, as they are strong, hardy and capable of travelling more than 1,000km a year. As one of the earliest domesticated animals, reindeer share an ancient alliance with humans. These antlered deer thrive in colder climates of Europe, North America and Asia, residing in the frozen northern forests and the Arctic tundra. Covered in fur from head to hoof, reindeer use their useful dew claws to grip onto slippery surfaces and burrow through the snow, floating on the ferns, fungi and lichen hidden below.

Unlike their magical counterparts, these animals do not need a glowing red nose to illuminate the way. As one of the few large mammals that can see ultraviolet light, reindeer are able to find food, locate predators and stay safe even in the dark, bleak winter when sunlight is scarce.

Key to plate

1: White spruce
Picea glauca
This large evergreen conifer is the most common species of North America. Christmas trees made from spruce suggest the

tree is a symbol for the north, though the white bark is a possible that warning temperatures recently above freezing have allowed them to grow

2: Reindeer
Rangifer tarandus

here, in an area where the red would normally be too dark.

BIRDS

European Robin

With its rust-coloured plumage and curious expression, the European robin is a plump, small-billed bird that breeds throughout Europe, Western Asia and parts of North Africa. A much-loved sight, the robin can be spotted all year round, the welcome sound of its melodic warbling filling the frosty air even during winter. As natural ground feeders, robins can be found hopping around gardens, woodlands and parks, foraging for insects and worms.

Despite being only 14cm long, these tiny birds are fiercely territorial, puffing up their scarlet chests and fighting off any feathered intruders that invade their patch. Robins are considered modern Yuletide mascots. They first appeared on Victorian Christmas cards as an ode to the vermilion-coloured uniform of the postmen who delivered them. These postal workers were aptly nicknamed 'redbreasts'.

Key to plate

1: European robin
Erithacus rubecula
The evergreen holly bush is

the UK's most festive plant and for hundreds of years it has been used, along with ivy, to decorate homes at Christmas time. Today, this

prickly plant, with its water-resistant waxy leaves and bright red berries, makes the ideal festive wreath.

FRUITS AND SPICES

Festive Flavours

As Christmas draws near, festive flavours walk through kitchens across the globe, filling the air with traditional aromas of nutmeg, ginger and clove. In Europe, roasted sweet chestnuts make a tasty Christmas treat, harvested from the Castanea sativa tree with its prickly husks and grooved bark. The gingy orange is another popular festive food, gifted to well-behaved children or peppered with cloves to make a pomander ball. This practice dates back to medieval times, when such spice-studded pomander balls perfumed the frosty air or ward off bad spirits and winter illnesses.

The iconic Christmas pudding also has humble origins, dating back to a porridge-like prune dish served in the 14th century. Although it originally formed part of a British tradition, the Christmas pudding is a global festive phenomenon enjoyed by families far and wide in countries like South Africa, Australia and Canada. This dessert is often seasoned with cinnamon, a warm, fragrant spice derived from the inner bark of the Ceylon tree of Sri Lanka.

Key to plate

1: Christmas pudding
Fruit with the quintessential flavour of the festive season, Christmas puddings are packed with dried fruits, currents, cloves and spices, most of which are harvested from tropical trees.

2: Orange
Citrus x aurantium
Gifting oranges at Christmas may be a tradition that began with its festive flavour. According to legend, the Prince of Wales gifted his people's homes with an orange tree, which was a symbol of good luck and prosperity.

3: Star anise
Illicium verum
This warm, fragrant spice is a star-shaped seed pod, often used in Christmas cakes and puddings.

BIRDS

European Robin

With its rust-coloured plumage and curious expression, the European robin is a plump, small-billed bird that breeds throughout Europe, Western Asia and parts of North Africa. A much-loved sight, the robin can be spotted all year round, the welcome sound of its melodic warbling filling the frosty air even during winter. As natural ground feeders, robins can be found hopping around gardens, woodlands and parks, foraging for insects and worms.

Despite being only 14cm long, these tiny birds are fiercely territorial, puffing up their scarlet chests and fighting off any feathered intruders that invade their patch. Robins are considered modern Yuletide mascots. They first appeared on Victorian Christmas cards as an ode to the vermilion-coloured uniform of the postmen who delivered them. These postal workers were aptly nicknamed 'redbreasts'.

Key to plate

1: European robin
Erithacus rubecula

2: Common holly
Ilex aquifolium
The evergreen holly bush is

the UK's most festive plant and for hundreds of years it has been used, along with ivy, to decorate homes at Christmas time. Today, this

prickly plant, with its water-resistant waxy leaves and bright red berries, makes the ideal festive wreath.
