LONG LIVE
THE KING

The *last King* (1994) is a coming-of-age story about a son with leprosy, who goes on a journey of discovery after the death of his father, King Huihui. According to Jeffrey Kuzmarick, then chairman of The Walt Disney Studios, the film is about "the special moment when [we] go from being a child to an adult and must take on the responsibility that goes with it."

The therapist's sought to capture tolerant animal, walking on four legs, without human props like the umbrella that Jerry Cronin had carried in *Parasites*. Instead, they concentrated on the overall body attitude to give the animals personality. For Sue, they created a distinct walk that expressed his steady personality, while Simba

meets is an explosion, confident way at the beginning of the film, and becomes more graceful as he matures and learns to take responsibility. The artist, satisfied with his experiences and studied real life boys and other animals that were brought into the studio. An anatomy consultant goes behind an animal movement and behavior, and a group of the Stimulators (classified to focus to show the scientists for themselves). The top regarded party of inspiration, from the northern colours, and hot dirty love of the film to its very surfaces and air goes again. The song "Mushu" (Pasha is born)

The film is a blend of traditional and computer animation. For the wilderness segments, a 3D computer programme was able to enhance the efficiency of the hard work of creating hundreds of animals moving happily on the screen at once (see also the video and a full-length feature book over two years to make).

With its Academy Award-winning songs, written by Elton John and Tim Rice, and its Academy Award-winning music, written as well as an outstanding vocal cast (see *Star Trek* for the last movie, records on its release, becoming the highest grossing animated feature ever produced up until that time), it has inspired a series of imitators, a television series, a stage musical, which became the top-grossing production in box office history, and in 2010, a remounting, directed by Jon Favreau and co-starring by Zeev Sedov. A sequel to Favreau's film, exploring the origins of Pacha and Saraf in development. The circle of life keeps turning.

THE FROZEN PHENOMENON

In 2013, Disney Animation introduced the world to Anna and Elsa – the sisters of Arendelle. In *Frozen*, Anna is the mischievous younger sister who must free the kingdom of Arendelle from the icy spell cast by her elder sibling Elsa.

...like the Snow Queen - even that Disney herself had wanted to adapt a version of it in the 1930s and 1940s. But the original story was episodic, focused on two small children, and a somewhat by-the-board affair, the Snow Queen, who was difficult to relate to. Despite several other attempts over the decades, it was not until much later that director Chris Buck and writer-director Jennifer Lee found a way. They

Throughout had been to give the Iron Queen a younger sister, who provided an emotional core to the film. Lee said, "There was something very interesting about the idea of a sister who has a purpose – or a mission – and she's intrigued because her sister's taking up all the energy in the room."⁷⁸ To gain a better understanding of the dynamics, the Disney artists held what they called the Sister Summit. "They brought all of us who have sisters into a room and we shared the real conflict, real angst and real love," said Lee.⁷⁹

Production Designer Michael Gable, who led the design of the film's set members of the show development team to Marlow to research its landscape, architecture and costumes. A group also went to Quebec City to see the ice hotel, a guest palace built entirely out of ice every year. They used what they had seen to create what was grounded in reality but with fantastical, magical touches, such as that cape made of ice and her ice palace throne room, based on the six-sided structure of a snowflake. Most also introduced a strong masculine feel, including multicultural, freestyle jazz and a series

SWASHBUCKLING PIRATES

In 1957, a theme-park attraction opened at Disneyland in Anaheim, California, that would inspire one of the most successful series of films in the history of The Walt Disney Studio. Pirates of the Caribbean, with Audio-Animatronics figures of pirates and a soundtrack that was one of the last attractions whose design was personally supervised by Walt Disney himself, was a hit and a landmark attraction. *Pirates of the Caribbean* © 1999 The Walt Disney Company.

producer Jerry Bruckheimer and director Gore Verbinski were drawn to the idea of resurrecting the genre using modern technology. Most of the *Cotton* the *Curse of the Black Pearl* (2003) introduced the world to the wild pirate Captain Jack Sparrow (Johnny Depp), who teams up with blacksmith Will Turner (Orlando Bloom) and

Elizabeth Sauer (*Joan Kuyfing*) to her arched grates led by John's rusticus farmer line mate, Victor Barlowa (*Geoffrey Rush*). The former park attraction's subject of curved grates and curved windows inspired the film's superlative plot elements, while the *Wormholes* also researched historical grates and historically accurate weapons, including swords and muskets, much from the novel. including jetties and replica vessels. In the period, the primary mooring location was the volcanic Caribbean island of St Vincent, where sails and three ships were built. Jack Sparrow's Black Pearl and the British Royal Navy ship HMS Dauntless were built on barges, with CGI finishing the structures. BELOVED CHARACTERS

Library classics provide a strong source material for a number of Disney films. *Alice in Wonderland* (1951) is Disney's version of classic Lewis Carroll children's novels; *Alice's Adventures in Wonderland and Through the Looking Glass, and What Alice Found There*. The books had fascinated Walt Disney since childhood. In the 1920s, they had loosely inspired his first animated, part-fiction/active Alice Comedies and since then he has bought the film rights to the novel. Disney concept artist and colour stylist Mary Blair created exuberant, fantastical production artwork that inspired the look of the film. Music and songs hold the film's sequences together and propel the story along – in the film features more songs than any other Disney film at the time. One of the film's most extravagant scenes, the Mad Hatter's tea party was initially filmed in live-action to provide an aid to animators. *Wunderbar!* artist Ed Wynn played the Mad Hatter and Wynn's extemporized voice track was inspired it was used for the final film.

In 1913, Walt had been touring a production of J.H. Barrie's stage play *Peter Pan* and, inspired by its combination of fantasy and swashbuckling adventure, acquired the film rights in 1939. As with *Alice in Wonderland*, Mary Blair created the signature production art for the film. Live-action footage was shot for the animators' reference, with the voice actors performing their roles. Meanwhile, the magic of Disney animation made the characters fly – Peter Pan even engages dastardly Captain Hook in mid-air sword fights. Tinker Bell, often represented merely as a spotlight in stage versions, became a fully realized character using actor Margaret Kerry and others, as her live-action model. Released in 1953, after nearly two decades of work and thousands of drawings, *Peter Pan* was an immediate success and has remained a beloved Disney classic.

Literary works have remained a source of inspiration. *The Sword in the Stone* (1963), a whimsical adaptation of T.H. White's novel about the Arthurian legends, was the first Disney animated feature film to include songs by the Sherman Brothers, who would later work on *Mary Poppins* (1964), *The Jungle Book* (1967) and many others. *The Rescuers* (1977), a tale of an international rescue organisation run by mice, was based on a book series by English author Margery Sharp. Cruella De Vil nearly became the main villain in the film, but in the end the animation team created the fiery temper, diamond-obsessed panther shop owner Madame Medusa. Some classic tales are updated in inventive new ways: *Peter Pan* (2002) is a version of Robert Louis Stevenson's 1893 novel *Peter Pan* set in outer space.

On your hunt to ignore the other bounty hunters on the scene and focus your attention on your targets, don't let them escape!

However, it's common to find Mandalorian warriors inside the walls of the planet's largest, most advanced industrial facility. Grogu is a Mandalorian warrior, and he's been seen in the forge. On your hunt to ignore the other bounty hunters on the scene and focus your attention on your targets, don't let them escape!

SPIDER-MAN

The science behind Spider-Man is very interesting. I like him, but I would definitely NOT have named myself after an arachnid. Also, that's not how I would've made those webs, but I like what he did there. It must be some type of polymer. Cool, I've met more than one spider-guy, but I'm not sure how many there are.

- HOW DID SPIDER-MAN GET HIS POWERS?
- WHERE DOES SPIDER-MAN GET HIS WEBS FROM?
- WHAT GADGETS DOES SPIDER-MAN HAVE?
