# Jane Foster's Baby's First Stories: 0-3 months

## A series that grows with your baby

- Written in consultation with Early Years Expert, Lizzie Noble, each book perfectly suits your baby's needs at every stage of their first year
- Fills a gap in the market: parents are told to read to their baby every day, but black and white books usually have little text. Reading aloud soothes babies from birth, promotes baby-carer bonding, builds children's language skills, and increases the chances that parents will continue to read to babies as they grow older
- Perfect for parents who use the Wonder Weeks App, read Your Baby Week by Week, or use milestone cards to mark big moments
- 4 books in the series, all featuring the same animal characters: 0-3 months; 3-6 months; 6-9 months; 9-12 months

## Jane Foster's Baby's First Stories: 9-12 months

### A beautifully illustrated series that grows with your baby.

- Written in consultation with Early Years Expert, Lizzie Noble
- Fills a gap in the market: parents are told to read to their baby every day, but black and white books often have little text. Reading aloud soothes babies, promotes bonding, builds language skills, and increases the chance that parents will read to babies as they grow older. *9-12 months* has black, white, red, blue and yellow art, as babies' eyesight becomes more like our own. The stories introduce questions and spotting elements for older babies who can notice small details and respond to basic questions.
- Perfect for parents who use the Wonder Weeks App, read *Your Baby Week by Week*, or use milestone cards to mark big moments

# Bessie's Bees

**An uplifting story about starting nursery with a courageous neurodiverse character at its centre.**

- Bringing debut, neurodiverse author George Kirk to the Templar picture book list, allowing us to grow our range of underrepresented voices and experiences.
- While there has been an increase in positive representations and neurodiverse voices in middle-grade fiction, this is yet to be seen in the trade picture book market. Templar can be one of the first to champion neurodiverse voices and stories in this space.

**A hilarious rhyming romp that perfectly encapsulates how being HANGRY really makes you feel!**

- Bringing debut author Kathryn Wanless as well as established, commercial talent Fred Blunt to the Templar list with his wit and humour.
- Exploring a theme that isn't currently seen in the picture book market - there are plenty of books about being hungry OR angry, but not both!
- This story uses humour as a conversation starter for children to talk about the very real, intense emotions that come with hunger.
- The book acts as a reminder that we all get hangry, even grown-ups, but it's how we deal with those feelings that matters.
- Cover treatment: matt lam, SPUV and pantone.

**A magnificently messy adventure to discover the importance of tidying up!**

- Written by Irish author Eoin McLaughlin, whose book *The Hug* was one of the Guardian's Best Books of 2019. Illustrated by German illustrator Julia Christians, winner of the Leipzig Reading Compass Award for Templar's *The Best Bear Tracker*.
- The message of climate change is delivered through humorous text. A subtle way of introducing complex and difficult subjects.
- Pollution and climate changes are themes which are globally relevant
- A winning Templar formula - books with a powerful message, humour and heart.

# Yetis Don't Exist!

## A FUR-tastically funny rhyming adventure!

- Bringing rising talent, Kate Thompson, to the Templar list. She has two picture books with Welbeck and two new picture books coming with PRH in September 2024, and 2025.
- Bringing established quirky, commercial illustrator Loretta Schauer to the list with her bright palette and fantastic furry creatures. Loretta has previously worked with publishers like Ladybird, Farshore and Bloomsbury.
- Like *The Best Bear Tracker*, this book has a hilarious visual narrative alongside the text with the yetis and human explorer just missing each other more than once!
- The book's wintry, snowy setting offers the ideal seasonal gift without the story being explicitly Christmassy!
- Cover treatments: matt lam and foil.

# The Baker by the Sea

## A seaside storybook about community and family

- Atmospheric pen-and-ink artwork from debut author and illustrator Paula White. Paula was winner of the 2019 Templar Design and Illustration Awards.
- Reminiscent of the Greenaway winning *Town is by the Sea* (Walker, 2018).
- The story offers a window onto the past, guiding us around the Beach Village that once stood where Paula grew up, in Lowestoft, Suffolk. This busy, bustling place once made its living from the sea - but was eventually swept away by those very same waves.
- A moving exploration of the importance of community, with a strong father-son relationship at its heart.
- An artistic fishing village story which should be popular with retailers in seaside locations.

# A Shelter for Sadness

The shelter I will build  
for my Sadness  
will have light from the sun  
or from the moon and stars.

But the windows will have curtains  
that Sadness can draw when it wants to.  
And there will be candles or lamps  
if Sadness needs them.

## EYEWEAR

Eyeglasses may seem commonplace today, but it has taken hundreds of years to develop them to where they are now, helped by a series of inventions along the way. The ancient Romans first wrote about using glass beads to read, similar to how reading glasses work today. However, it was the Arab scientist Al-Hasan Ibn al-Haytham, a man known as the 'father of modern optics', who first wrote about using convex (outwards curved) lenses to magnify an image. Eventually, Ibn al-Haytham's literature made its way to Western Europe, and translations of his work led to glass 'reading stones' becoming common. The Italians improved further on these stones to create the first eyeglasses in the late 1200s.

New materials have allowed frames for glasses to become lighter and more durable. The colour of lenses has changed too, creating the first purpose-built sunglasses. These work by adding cerium oxide (a type of chemical compound) into the glass to filter out harmful ultraviolet light from the sun. Sunglasses quickly became fashionable, and in 1938, it was reported that 20 million sunglasses had been sold the year before in the US. Interestingly, only a quarter of those people needed sunglasses for medical reasons. This development is an example of a product that was initially designed to benefit a few but ended up benefitting many. It is testament to the importance of innovation within the disabled community.

The latest breakthrough in eyewear has come more recently, with EnChrome® glasses first launching in 2012. These special glasses are designed to help alleviate problems caused by colour-blindness.

People who are colour-blind find it difficult to distinguish between certain colours, such as red and green. EnChrome® glasses use the same principle as cerium oxide in the first sunglasses, but instead of filtering out harmful UV light, EnChrome® glasses filter out the wavelengths of light that get confused by the brain in those people with red-green colour vision deficiency.

## Aldabra Giant Tortoise

*It was the tortoise from Disney's **Fantasia**, didn't it? Here and there, it was the tortoise who gave us the phrase 'slow and steady wins the race'. It couldn't be true for this creature, especially when put into context. Tortoises have been gently plodding around the planet for 200 million years.*

The giant tortoise is one of the largest land animals in the world. In fact, a single tortoise can weigh over 1,000 pounds (450 kg). The tortoise has a very slow metabolism, and it can survive for years without food. It is also very hardy, and it can survive in a wide range of environments. The tortoise is a very slow creature, and it is often used as a metaphor for 'slow and steady wins the race'. ## American Bison

*The formidable American bison, the largest mammal in North America today, rarely illustrates an often told tragic story of human bringing an animal to the brink of extinction. By definition, this also brings enormous damage to an ecosystem.*

The bison is a very hardy animal. It can survive in a wide range of environments, from the cold, snowy mountains to the hot, dry plains. But not every species has managed to live in harmony with man. During the nineteenth century, European settlers brought more than 12 million bison to the United States. ## Aye-Aye

*The elusive aye-aye is a marvel of nature. Nocturnal, solitary and living almost its entire life within the canopy of the Madagascan rainforests, it has developed some marvellous adaptations to help it locate its food and live life in the dark.*

Huge forward-facing orange eyes allow this little lemur to see, while its enormous bat-like ears have evolved to be extraordinarily sensitive, containing a complex set of ridges and grooves which help detect the tiny sounds coming from the creatures it feeds on. This is an adaptation shared with other animals that listen for their food, such as the spotted bat (see page 84).

Yet the aye-aye's most well-known feature – and perhaps its most useful – is its elongated middle finger. To find its prey (mostly grubs and small insects), the aye-aye uses this special digit to rapidly tap along the branch, like a woodpecker, listening with its huge ears for the sound of a grub moving beneath the bark. This technique is called percussive foraging. Once the aye-aye has located a tasty grub, it uses its strong incisors to bite and chew its way through the wood to reveal the tunnel the grub has made. Here, its incredible finger is used again. Long and bony, it is slender enough to fit within the narrow tunnels, and its sharp claw is perfect for hooking out and retrieving the unsuspecting grub. Additionally, this spindly finger comes in handy for scooping out pulp from the tasty fruits it also eats.

Due to the rapid destruction of its habitat in Madagascar, the aye-aye is now critically endangered. Worst still, these mysterious creatures are often considered bad omens by the Malagasy. According to local legend, aye-ayes signify bad luck or death. Unfortunately, this means these animals are often killed on sight.

Successful captive breeding programmes could turn round the fate of this animal, but careful conservation of its natural habitat and a 'rebranding' of the aye-aye among the local community is essential if this unique creature is to survive.

# Street Style: Dr. Martens

## The Spring Behind Every Step

It's hard to believe that an orthopedic shoe could be synonymous with rebellious style around the world. Yet that is what the Dr. Martens brand continues to represent to millions of its ardent fans.

It can be challenging to maintain one's cool factor over the decades, but by intentionally aligning itself with subcultural style, the nearly octogenarian footwear manufacturer hasn't lost a single step when it comes to cultivating an alternative type of timeless footwear. Considering the United Kingdom also has a rich history of fine Savile Row tailoring, Scottish wools and ruggedly elegant Harris Tweeds, fashion houses like Burberry and tastefully tough outerwear from brands like Barbour, Dr. Martens is singular in that canon of classic British style. Indeed, Dr. Martens is a staunch iconoclast, a bastion of anti-establishment ideals for people who prefer to dress against the grain.

But despite the modern connotation of what Dr. Martens has become, its roots are built on a comfortable foundation. Doctor Klaus Maertens first conceived of the footwear's signature "AirWair" sole while recuperating from a World War II foot injury.

Finding his standard-issue German Army boots severely uncomfortable for his ailing foot, he utilised soft leather for

the upper and repurposed tyre rubbers to create an air-padded sole. The resulting shoe is equal parts built to last and equal parts built to live in. It's no wonder that punk rockers and hip-hop artists alike have graced thousands of stages in a pair of Dr. Martens over the years - it's a shoe made for those who live out loud. The story of how a purpose-driven product came to define one of today's most exciting lifestyle brands is one that spans a growing connection between clothing and culture. When you combine a timeless product with a chameleon-like ability to mean different things to different people, you get a shoe that is undeniably trend-proof.

### Who Was Dr. Martens?

Dr. Martens may not be a real person, but Dr. Klaus Maertens certainly was. The brand as we know it today begins with him. A doctor in the German Army, he fended himself in post-war Munich at the age of 25, nursing a broken foot. The year was 1945, World War II had just ended. He did not break his foot during his time in the service however, this injury was one he earned from an unfortunate riding accident.

As he was recovering from his injury, he found that the standard issue, leather-soled Schindlerboots (boots that had been part of the German Army uniform since 1937) actually hurt his foot more than helped them. Shoemaking and footwear styles were undergoing a similar shift. It had been a little more than a century since the Industrial Revolution had commercialised the footwear industry, allowing for mass production for a craft that was once exclusively handmade. Concurrently, styles were being made when it came to what was happening in the world of valenced soles.

American chemist Charles Goodyear discovered that heating up rubber and adding sulphur made it even more flexible. The vulcanised process had many industrial applications, but it also made it much easier to make durable, rubber-soled shoes. Yet while canvas pinnacles and burgeoning sneaker companies like Converse explicitly were meant for athletic pursuits, Maertens saw an opportunity in making a shoe that had the classic, down-to-earth appeal of a military boot, combined with the comfort and orthopedic benefits of a rubber sole.

The first prototype of what would become the Dr. Martens 1460 leather boot took design elements from the German Schindlerboots and set it on top of a unique, air-cushioned sole originally made from heat-sealed repurposed tyre rubber. He made his proof of concept using a salvaged cobbler's last and a needle, but it would still take a couple of years before his head-on shoe business got any proverbial legs behind it.

# Tiffany & Co.: The Story Behind the Style

## The King of Diamonds: Charles Lewis Tiffany

Charles Lewis Tiffany, the man who would go on to win the moniker of New York's 'King of Diamonds', did not lead from a long line of jewellers. His start in life was more modest, making his name in high society all the more glittering.

Tiffany was born in 1812 in Canton and Ohio. Tiffany, and grew up in the small town of Killbuck, Connecticut. The major business of the town was the production of cotton goods, and the family owned a manufacturing company. Tiffany was educated at local schools in the area before joining his father in the family cotton business.

By 1837, Tiffany felt restless. No longer satisfied by working at home with his family, he began to envision how he could make his own mark in business. He turned up with a school friend, J. R. Young, and the duo set in motion a plan to open a stationary store in New York City. With a \$1,000 loan from Charles' father, the ambitious 25-year-old made the 150-mile journey north. The store, named Tiffany & Young, opened its doors at 259 Broadway that same year, and on its first day, \$4.98 rang through the till.

Tiffany & Young soon began to expand its remit, stocking glassware, cutlery, porcelain, clocks and jewellery, and began to develop a

OPPOSITE: Tiffany & Co. founder Charles Lewis Tiffany photographed by James Thomson Smith in 1902.

reputation as a purveyor of fine goods of taste. In 1841, the business expanded with the addition of a third partner, J. L. Ellis, and was renamed Tiffany, Young & Ellis. The trio expanded the store, doubling its size by moving the adjacent unit, and continued to increase the quality of the goods they sold, with Young making buying trips to Europe to pick out English and Italian jewellery.

It was, in fact, political events in Europe that would be the making of this American luxury success story. In 1848, the nation was rocked by a revolution in France, which led to the overthrow of the monarchy and the establishment of a republic. The French government was overthrown and replaced with a republic, which widespread panic and disruption led to a surge in the price of diamonds, and Tiffany, Young & Ellis prospered. By now, the firm

was manufacturing its own jewellery, and the opportunity to pick up diamonds at low prices put them at an advantage. The stocking of the storehouse also housed some important gems – the likes of which had never been seen in America before – and Tiffany secured a number of important business, including the collection of Hungary's Prince Esterházy.

In 1853, Young and Ellis decided to retire from the business, but Charles Lewis Tiffany was far from finished. He found new partners to work with, and the business was, at this point, renamed Tiffany & Company. Tiffany would go on to build his empire, grabbing headlines along the way. By the 1860s, the business was well established as an expert in choice for the rich and the famous, both for its jewellery and its top-quality silver. In 1862, President Abraham Lincoln purchased a set of pearl necklaces and earrings from Tiffany & Co. for his wife Mary Todd Lincoln, who wore them to her husband's inauguration ball.

In 1870, Tiffany & Co. moved into a large new store in New York's Union Square, marking the beginning of a major decade for the jeweller one in which Charles Lewis Tiffany would earn the title the King of Diamonds. It was a single purchase that would truly transform Tiffany into the high-jewellery atmosphere – a 237-karat rough fancy yellow diamond. When cut and polished, what emerged was a diamond of staggering enormous proportions for a rare yellow diamond of that quality. It weighed 128.54ct and was named the Tiffany Diamond.

If the purchase of this new world famous stone, which is on permanent display at Tiffany & Co.'s Fifth Avenue store in New York, signalled Tiffany's intention to dominate the diamond market, his groundbreaking creation eight years later sealed the deal. Seeking to

celebrate the beauty of diamonds, Tiffany designed an engagement ring in 1886 that remains a sought-after classic to this day. The Tiffany Setting engagement ring kicked back against the over-fussy designs of the time with a clean, minimalist band and a six-prong setting that lifted the diamond above the ring. The purpose for this innovative setting was to allow light to flow through the stone, and therefore maximise the sparkle. It was a huge hit, and the iconic design has become synonymous with engagement rings.

Just 15 years before his death, Tiffany pulled off a final coup. The aftermath of the French Revolution that had gifted Tiffany an abundance of important gems in 1848 and its early credibility in high-jewellery circles rumbled on. In 1887, the French government was masterminding a plan to sell the crown jewels of its fallen monarchy. Outwardly, it claimed that a democracy such as France had no need for 'objects of luxury, devoid of usefulness and moral worth'. The rumour mill suggested that it was in fact afraid of a power grab by Bourbons, Orleanists or Bonapartists, who might use ownership of the jewels to claim a right to rule. Tiffany cared little for this political posturing, but he did see an opportunity in it. He travelled to Paris to attend the auction of the French crown jewels at the Louvre. He sat in the audience, ready to make his bids, along with fellow jewellers, including a young Frédéric Boucheron, and Orleanists, members of the French royal family, whose pockets proved too shallow on the day to win back their family heirlooms.

When the final strike of the gavel fell, Charles Lewis Tiffany had in his possession close to a third of the historic crown jewels. He placed them in specially crafted red-leather boxes, embossed in gold with the words *Diamants de la Couronne*, translating from French as Crown Diamonds. Inside, impressed on the silk lining in the lid, was Tiffany & Co. New York and Paris, thus securing Tiffany & Co.'s place in the history books as a purveyor of royal jewels and his own coronation as the King of Diamonds.

# Rolex: The Story Behind the Style

## The World's Most Famous Watch Brand

Rolex has become shorthand for luxury. There is no watch you can strap on to your wrist that will be recognised for the status symbol it is quicker than a Rolex. And for many, this is the appeal.

Yet there was a time when the name Rolex – a word completely made up by the brand's founder Hans Wilsdorf – was not famous. It would take hard work, boundary pushing and a lot of self-belief on the part of Wilsdorf, a German orphan, to jettison the name into the upper echelons of horology; starting with convincing the pocket watch-wearing gentleman of the early 20th century that they wanted to wear the time on their wrist at all.

As you will discover, Rolex won its place in history by constantly questioning what was possible and innovating at all costs. It pioneered so many elements of watchmaking and design that are standard today, such as waterproof watches, placing a date window on the dial, and even removing the need to wind our watches.

It also found its way into some of the most exciting moments in history by placing Rolex watches on the wrists of adventurers and explorers. Its watches have travelled to the world's highest peaks and to the depths of the ocean; they have survived extremes of temperature, speed and pressure.

The story of Rolex is so much more than that of its watches. It is one of epic ambition and vision. What started out as a one-man band in London's Hatton Garden would become the epicentre of the Swiss watchmaking industry, and one of the most recognisable and coveted brands in the world.

# Cartier: The Story Behind the Style

## The Beginnings of Cartier

The house of Cartier started with one man, Louis-François Cartier, but it would take a family to make it one of the most recognised and respected jewellers in history.

It was, in fact, Louis-François' father, Pierre Cartier, who set the dynasty in motion, although he could never have imagined the consequences of his actions at the time. Pierre had fought in the Napoleonic wars and spent time locked in the prison ships docked off the harbour at Portsmouth in Britain. When the war ended in 1815, Pierre returned to Paris, destitute and aimless. He would go on to find employment as a watchmaker and have five children with his wife Elisabeth, a washerwoman.

The eldest of the children born into this working-class Parisian family was Louis-François, and when he was barely out of school, his father sent him to work as an apprentice in a jewellery workshop owned by Adolphe Picard on Rue Montorgueil in Paris. It was a tough education – days were long and grueling and order was maintained with a whip – but he stayed and in 1847, at the age of 27, Louis-François bought the business from Picard, renaming it Cartier.

OPPOSITE: Cartier founder, Louis-François Cartier.

His makers mark – a symbol hallmarked into every piece of Cartier jewellery to authenticate it – was his initials, L. C., separated with an arc of letters playing cool, perhaps to a nod to the financial gamble he was taking. Luckily, the risk paid off and the Cartier business thrived and expanded. In 1866, Princess Mathilde, a cousin of Emperor Napoleon III, purchased one of its jewels, and the Cartier name was suddenly whispered among Parisian high society, even reaching the international elite. Three years later, Louis-François bought Gillon, a Parisian jeweller better known than his own, and renamed his business Cartier Gillon.

Louis-François' son Alfred Cartier took over the family business in 1874, but it was the arrival of his own three sons – the highly ambitious Louis, Pierre and Jacques – that would really shake up the jeweller and initiate its ascendancy to the global brand we know today. The brotherly revolution started with Louis, who joined the maison in 1898. A year later he spearheaded the remaining

of the business, stripping away Gillon to once again be known simply as Cartier. At the same time, the business opened a boutique at 13 rue de la Paix, just a stone's throw from Place Vendôme, the heartland of luxury jewellery in Paris. This venture was funded by an enormous dowry levied through a strategic arranged marriage to Antoinette Caroline Warth, granddaughter of world famous composer Charles Frederick Warth.

Cartier garnered a reputation for innovation, and the title of jeweller would later live by a motto, 'Never copy, only create'. One of Louis' most successful experiments at the close of the 19th century was to use platinum in place of gold. This precious metal is now widely used by jewellers across the world, but at the time it was purely an industrial metal and thus revolutionary in the jewellery market. The white metal, which, unlike silver, does not tarnish, is highly malleable and allowed Cartier to create delicate, diamond-set jewels inspired by those owned by 18th-century French aristocrats, a stark contrast to the heavier, colourful, Romantic Art Nouveau jewels popular at the time. A signature Cartier Garsfield style emerged, swirling across platinum tiaras, necklaces and earrings, that won over well-heeled women, including royals, in Europe and the United States.

OPPOSITE RIGHT: Pierre Cartier playing golf in 1890.

Pierre Cartier, the second eldest of the brothers, would be an agitator in his own right, championing the global expansion of the brand's retail empire. He started by opening a Cartier boutique on New Burlington Street in London in 1902, where the brand showcased a new style of geometric, abstract jewels with unusual colour combinations that would lay the foundations for the Art Deco jewellery movement.

The first decade of the 20th century was an important time for Cartier. In 1904, the jeweller received its first royal certificate from King Edward VII of Britain, and soon started to supply many other royal courts including those of Russia, Spain and Siam (now Thailand). In the same year, Louis Cartier created what he believed to be the first ever men's wristwatch for aviator Alberto Santos-Dumont.

Pierre, meanwhile, embarked on a journey to Russia; one that would prove profitable in commissions from its high society, but also as a source of inspiration that would shape Cartier's jewellery designs for years to come.

In 1909, Pierre would focus his wanderlust on America, opening a Cartier boutique on New York's Fifth Avenue; the precursor to its famous flagship store further up the street, the purchase of which he would famously broker a decade later in exchange for a string of pearls. Back in London, his younger brother Jacques stepped in to take over its British branch. That same year, Cartier moved uptown to a prestigious Bond Street address, where it remains to this day.

As Cartier's man in Britain, and, as such, jeweller to King George V, Jacques joined members of the aristocracy on a trip to India for the Delhi Durbar in 1911. It was an event

to commemorate the coronation of the King, with two weeks of festivities, during which King George V and Queen Mary would be proclaimed Emperor and Empress of India. This adventure to a new land would also prove to be a seminal trip for the house of Cartier. Jacques' sociable nature and love of travel would win ground-breaking commissions from India's rich, jewel-loving maharajas and inspire a whole new category of jewellery, pioneered by Cartier and much copied by other companies.

# Vivienne Westwood: The Story Behind the Style

## Derbyshire Days

Vivienne Isabel Swire was born on April 8 1941 to Gordon and Dora Swire at the Partington Maternity Home, Glossop. The future fashion revolutionary had one sister, Olga Swire, born 1945, and one brother, Gordon Swire, born 1946. She grew up in the parish of Tintwistle, Derbyshire (which was formerly part of Cheshire until 1974), both during and after World War II, enjoying what has been recounted as a fairly idyllic childhood, living at the semi-constructed Millbrook Cottage and playing outside until late.

The young Swire clan were encouraged to be creative and make things more than they were encouraged to read. Vivienne knew from a young age that she was good at making things, notably models at school, and she especially enjoyed sewing classes. Her mother would often make them clothes, and worked as a weaver in a local cotton factory.

The young Vivienne – who remembers having a passion for sport from an early age – attended Hollingworth and Tintwistle Primary Schools from 1946 to 1952, at which point she passed the scholarship exam for Glossop Grammar School. She continued to be good at art during her time at Glossop Grammar, and considered attending art school.

Among Westwood's most formative fashion memories are the make-do-and-mend philosophy that came to define

Britain in austerity, as well as the coronation of Queen Elizabeth II in 1953, when Vivienne was 12 years old. The influence of these two events can be seen throughout every era of her designs, and the make-do-and-mend philosophy is evident in the motto "Buy Less. Choose Well. Make it Last", which the brand still promotes to this day. She expertly blended the elements of customisation, tradition and austerity together to create her own unique brand, which is now contrasted by her husband Andreas Konevskis.

## Malcolm McLaren

Westwood met Malcolm McLaren in 1965. An art student and a friend of her younger brother, Gordon, he would go on to become her creative collaborator for almost the next 20 years. Malcolm is an enigma with the punk movement as Vivienne, and their partnership is legendary. He was something of a maverick of marketing stunts and disruption, before such things became commonplace in contemporary fashion. The pair were in a relationship for a time but never seem to have married.

Malcolm was interested in politics and was fascinated by the French Situationists, a creative culture of writers and artists who wished to eradicate capitalism through acts of everyday life. He was a driving force in bringing politics, provocations, society and culture into Westwood's world. She found him to be charismatic and knowledgeable, but also full of contradictions.

In 1967, they had a son, Joseph Ferdinand Cecil, who would go on to follow in his parents' footsteps and enter the world of fashion. He founded the very successful lingerie company, Agent Provocateur.

It was in the early 1970s that McLaren and Westwood began to build their empire. Malcolm, by this point, had left art school and Vivienne was about to quit teaching. The plan had been to sell vintage records together, and there was talk of setting up a stall. But a retail opportunity – via a new

friend – on King's Road was about to arise.

Tommy Roberts, of the legendary Mr Freedom fashion business, took over the lease of 430 King's Road in 1969. He and his business partner, the fashion entrepreneur Trevor Miller, were well-known for their eclectic and daring fashion eye which appealed to the glitzier of the 1960s. It was under Miller's control the shop was renamed Paradise Garage, the spot was already well-known for fashion.

Vivienne and Malcolm, who were regulars on King's Road, ended up moving the back of 430 King's Road, before taking the whole thing over and rebranding it. It would be known over the coming years as Let It Beak, Too Fast To Live, Too Young To Die and Sex and Sublimation, all of which would encompass the raucous, confrontational and non-conformist nature of McLaren and Westwood. Eventually the shop would come to define the varied-but-defined style we know as punk today.

## A Revolutionary is Born

There are few British designers, or brands, that have made quite as much of an impact on the fashion landscape as Vivienne Westwood. A fashion designer of both cult and commercial success (which is a rare combination), she was a punk and a pioneer, a rebel and a provocateur, an activist and a change-maker.

Over the course of a career that spanned half a century, Dame Vivienne Westwood would become synonymous with the British punk scene. Punk is what immediately springs to mind for most when her name is mentioned, along with the King's Road, corsets, platforms, tartan, crinolines, pirate boots, sustainability and climate change awareness. The list goes on. Her shows and interviews have become legendary – she is famous for using fashion as a platform to speak out on the issues she cared most about.

There is no doubt that Westwood's affinity for fashion history has helped her designs stand out. They are often historically informed, yet never to the point that they look odd. Where something shouldn't work, it always did, thanks to Vivienne's ability to balance the old with the modern – she was a genius when it came to style mashups. And the original Vivienne Westwood aesthetic rooted in a DIY approach never fully went away. Her designs feel intrinsically British and perfectly eccentric.

Westwood was the original multi-hyphenate and, in many ways, light years ahead of her time. She has inspired generations of designers that came after her, whether established and successful or aspiring and eager. Fashion critics even noted whiffs of her spirit at the London Fashion Week collections of autumn/winter 2023, which took place in February 2023, after her death. It's no wonder that her name is up there with the likes of Yves Saint Laurent, Christian Lacroix and the late great Karl Lagerfeld.

**Puzzle 28**  
**EIGHT QUEENS**

Mr Gao has a chess puzzle for you to solve. In chess, the queen can move any number of spaces in a straight line – horizontally, vertically or diagonally. **Place eight queens on the chess board so that no queen is in the same line as any other queen. How many different ways can you find?**

**Puzzle 29**  
**ARCHERY PRACTICE**

Merida's practising her archery skills. To prove what a great archer she is, Merida must hit one number in the outer ring, one number in the inner ring and one number in the centre that add up to each of the three numbers below.

Can you figure out which three numbers she must hit to make each of the target scores?

**Puzzle 39**  
**MICKEY'S MAGICAL MIX UP!**

The Sorcerer's Apprentice has accidentally knocked all of his master's Plus and Minus potions over!

Can you put the pluses and minuses back in the right places so that these sums work forwards, backwards, up and down?

**Puzzle 40**  
**...AND THE KITCHEN SINK**

Every time Arthur tries to clean one of Merlin's dirty dishes, the number of dirty dishes doubles. He started with one dirty dish. Arthur has tried to clean 10 dirty dishes. **How many dirty dishes are there now?**

**SOLVE THE RIDDLE OF THE CAVE!**

To enter the Cave of Wonders, Aladdin must find the missing numbers in this puzzle.

Each square needs to be filled with a number between 1 and 9, but you can use numbers more than once. The functions surrounded by stars are carried out first.

So:

$$\begin{array}{ccccc} 2 & \star & 3 & + & 6 & = & 12 \\ 2 & \times & 3 & \star & 6 & = & 18 \end{array}$$

**Puzzle 23**  
**SHY COCONUTS**

Some Kakamora have hidden themselves among Moana's coconut harvest. You can tell which coconuts are Kakamora in disguise, because the numbers they have stuck to them have made the questions they're hiding in incorrect.

**Make the sums correct by removing 1 digit from each question.**

### Puzzle 3 I'M LATE, I'M LATE!

It's always "late" for the White Rabbit, and he's always checking his giant watch! Right now, it's 5:00 pm. The White Rabbit's next appointment is in 100 hours' time, but he is already worried about being late.

1. How many days is it until his appointment? \_\_\_\_\_

2. What time will it be at? \_\_\_\_\_

Use the space if you need to work it out on paper.

### Puzzle 4 MEMORY SEQUENCE

During a test, Anger got into a fight with Fear, and that messed up Riley's memories. Luckily, Joy has a solution!

Start from memory O and plot the right path. Remember: each memory is equal to the sum of the two previous ones!

Use the space if you need to work it out on paper.

### Puzzle 5 THE GREAT RUG RACE

Woody has come up with a great idea to have fun with his toy friends: a rug race! But just after they cross the finish line, the toys hear Bonnie and they freeze.

Can you work out the order they finished in?

Bear in mind that:

Woody finished two places before Buzz	Hamm finished right after Woody	Buzz finished two places before Rex	Rex finished last

**PUZZLE 03** PADAWAN

## UNEQUAL

Inequality, greater, and lesser are concepts that are all too often encountered in the universe. They are of interest for the Jedi, who do not deal in absolutes and who strive for knowledge over ignorance. Bigger is not always better, smaller is not always weaker.

The number square must be fully completed so that each number appears once only in each row and column. In addition, each greater than (>) or smaller than (<) symbol must be correct.

## LOGICAL DEDUCTION

Han Solo's blaster pistol has been stolen in the Mos Eisley Cantina, and you have to work out who did it. There are three suspects.

There are five clues:

- Greedo trusted the suspect who used a lightsaber.
- Dr Cornelius Evazan was holding a Moo horn when you saw him.
- A glass of Blue Milk was not found in the booth.
- Luke was spotted hiding under the bar.
- The blaster was eventually found in the bandstand.

Use the clues to fill in the grid opposite and log what you know, then use logical deduction to work out what you don't!

## BALANCE: DARK SIDE/LIGHT SIDE

For there to be peace, there should be balance. A Jedi will seek balance in everyday life, and will learn to concentrate and feel their way as different elements seek to dominate; order must be restored, balance must prevail.

In this puzzle, each row and column must contain the same number of dark side tiles and light side tiles, but care must be taken, for neither may have more than two next to each other, vertically or horizontally. No row may be identical in sequence to any other row; the same rule applies to columns, which must also all be unique.

## PATTERN RECOGNITION

Allow your inner calm to enhance your focus and clarity of thought. First look at the pattern, looking for intricacies, repetitions, and any variations that may be apparent. Now think of the flow, noticing how one colour becomes another. Let your intuition guide you.

Which of the blocks a, b, c, d, e, f completes the sequence in line 3?

LONG LIVE  
THE KING

The Last King (1996) is a coming-of-age story about a lion cub, Simba, who goes on a journey of discovery after the death of his father, King Mufasa. According to Jeffrey Katzenberg, then chairman of The Walt Disney Studios, the film is about "the great moment when [a]ud goes from being a child to an adult and must take on the responsibility that goes with it."<sup>10</sup>

**2. Multitasker example**  
The multitasker example is one of the first real-world applications of the model. It is a simple example that illustrates the power of the model in a wide range of applications.

**3. Dining Philosophers**  
The dining philosophers problem is a classic problem in computer science. It involves five philosophers sitting around a table, each with a fork. The philosophers must eat, but they cannot eat if they have the same fork as another philosopher. The problem is to find a solution that allows all philosophers to eat without causing a deadlock.

## THE FROZEN PHENOMENON

In 2013, Disney Animation introduced the world to Anna and Elsa – the sisters of Arendelle. In *Frozen*, Anna is the misanthropic younger sister who must find the kingdom of Arendelle from the icy spell cast by her elder sibling, Elsa.

lary like the *Stone Queen*—even Aunt Oliver herself had wanted to embrace a career of it in the 1930s and 1940s. But the original story was apologetic, focused on teen angst, children, and a somewhat, if heartless, older, *Stone Queen* woman who was difficult to relate to. Despite several other attempts over the decades, it was not until much later that director Chris Nick and writer-director Jennifer Lee found a way. Their breakthrough had been to give the *Stone Queen* a younger sister, who provided an emotional core to the film. Lee said, "There was something very interesting about the idea of a new character who was a grown-up, not a child, not a woman who got lonely because her sister's taking up all the energy in the room." To gain a better understanding of the dynamic, the director's wife had told her she called the *Stone* "surreal." They brought all of us who have entered into a room and we shared the real conflict, real angst and real fear," said Lee.

Production Designer Håkan Gunnar, who led the design of the film, told members of the student development team in Malmö to research its landscapes, architecture and costumes. A group also went to Quebec City to see the six-foot, gold-plated statue entirely out of its every year. They said what they had seen to create what they were given in reality but with fantastical, magical touches, such as that giant made of ice and two large frozen horses moving, based on the so-called structure of a snowflake. From the film, a small, white, crystalline, six-pointed star, formed just a piece, not always changing, but when it's the same! Looking at winter trees never uprooted, impossible. One film's memorable scene by Robert Lopez and Kristen Anderson-Lopez, the film was a spectacular international tour of forces and critical hit, winning two Academy Awards. The film group presented films from 1999 (1999), (1999) from Academy (2017), (2017) after a Success (2005), (2005) from (2017), as well as a special feature, (2017) (2017), and a live Broadway music, from the Academy.

## SWASHBUCKLING PIRATES

In 1972 a theatre attraction opened at Disneyland in Anaheim, California, that would later be the most successful one in the history of the movie industry. It was called *Star Trek: The Motion Picture* and it was a movie about a space opera that was based on the fact that astronauts who work aboard spacecraft are not allowed to have any kind of sexual relationship with anyone on the planet. The movie was produced by James Cameron and director Gene Roddenberry was shown down to the last. The movie was a huge success and it was the first of a series of movies about the *Star Trek*. The *Star Trek* franchise is one of the most successful in the history of the movie industry. It has produced more than 100 movies and has a fan base that is larger than any other franchise in the world. The *Star Trek* franchise is a testament to the power of a good idea and the power of a good story. It is a franchise that has stood the test of time and it is a franchise that will continue to be successful for many years to come.

## BELOVED CHARACTERS

Literary classics provided strong source material for a number of Disney films. Also in *Wonderland* (1955) is Disney's version of classic Lewis Carroll children's novels: *Alice's Adventures in Wonderland* and *Through the Looking Glass, and What Alice Found There*. The books had fascinated Walt Disney since childhood. In the 1920s, they had loosely inspired his first animated, part-liv-action *Alice Comedies* and since then he had crafted the film rights to the novel Disney concept artist and colour stylist Mary Blair created exuberant, fantastical production artwork that inspired the look of the film. Music and songs hold the film's sequences together and propel the story along – in the film features more songs than any other Disney film at the time. One of the film's most extravagant scenes, the Mad Hatter's tea party was initially filmed in live-action to provide an aid to animators. Vaudeville artist Ed Wynn played the Mad Hatter and Wynn's extemporized voice track was so inspired it was used for the final film.

In 1913, Walt had seen a touring production of J.M. Barrie's stage play *Peter Pan* and, inspired by its combination of fantasy and swashbuckling adventure, acquired the film rights in 1939. As with *Alice in Wonderland*, Mary Blair created the signature production art for the film. Live-action footage was shot for the animators' reference, with the voice actors performing their roles. Memorable, the magic of Disney animation made the characters fly – *Peter Pan* even engages dastardly Captain Hook in mid-air sword fights. Tinker Bell, often represented merely as a spotlight in stage versions, became a fully realized character using actor Margaret Kerry and others, as her live-action model. Released in 1953, after nearly two decades of work and thousands of drawings, *Peter Pan* was an immediate success and has remained a beloved Disney classic.

Literary works have remained a source of inspiration. The *Seed in the Stone* (1963), a whimsical adaptation of T.H. White's novel about the Arthurian legends, was the first Disney animated feature film to include songs by the Sherman Brothers, who would later work on *Mary Poppins* (1964), *The Jungle Book* (1967) and many others. *The Rescuers* (1977), a tale of an international rescue organization run by mice, was based on a book series by English author Margery Sharp. Cruella De Vil nearly became the main villain in the film, but in the end the animation team created the fiery tempered, diamond-obsessed pamp shop owner Madame Medusa. Some classic tales are updated in inventive new ways: *Treasure Planet* (2002) is a version of Robert Louis Stevenson's 1893 novel *Treasure Island* set in outer space!
