This is the Egg

This is the Egg

COVER TO BE REVEALED

Every family has a story to tell, pieced together like a patchwork quilt. Each memory a stitch, each hope a thread...

- Written by Sita Brahmachari, a multi-award-winning writer known for her captivating novels, plays, and short stories, including *Artichoke Hearts*, winner of the Waterstones Children's Book Award.
- Featuring stunning illustrations by Jane Ray, one of the UK's most beloved illustrators and a 2018 nominee for the prestigious Hans Christian Andersen Award.
- A deeply heartfelt story inspired by Sita and Jane's personal experiences and their work as Illustrator and Writer in Residence at the Islington Centre for Refugees and Migrants.

Magpie and the Sparkling Words

A vocabulary-rich rhyming picture book about the beauty of the spoken word.

- Bestselling, award-winning picture book staple, Lucy Rowland (*Wanda's Words Got Stuck*, *Little Red Reading Hood*), returns to the Templar picture book list. Her writing is influenced by her work as a children's speech and language therapist, which is apparent in the read-aloud qualities of her work.
- After a long hiatus, Craig Shuttlewood returns to the Templar list with his emotive, accessible characters and detailed natural scenes.
- A focus on the joy of sharing language, making this the ideal classroom companion for topics like adjectives, creative writing and storytelling. The book includes two spreads of definitions of the sparkling words included in the text for children to refer back to.

The Boy Who Grew Dragons: A Christmas Delivery

A first magical picture book in *The Boy Who Grew Dragons* series.

- The eagerly-anticipated first picture book from Andy Shepherd, following the international success of *The Boy Who Grew Dragons* series.
- A winter-warmer of a picture book - the perfect Christmas gift!
- Illustrated with charm and style by acclaimed illustrator Sarah Warburton (*The Princess and the Pea*; *Dinosaurs in the Supermarket*; *Twinkle*).
- Cover finish: matt lam + silver foil + spot UV
- The Boy Who Grew Dragons was shortlisted for the Waterstones Children's Book Prize 2019 and longlisted for the Blue Peter Book Awards 2019. The series has now sold over 500,000 copies worldwide and has been optioned by Adastra, an independent TV company.

Jay Runs Away

A pirate-packed picture book about the arrival of a new sibling – with real lift-the-flap letters!

- Using clever paper-engineering, there are six differently-shaped, fold-out letters for little hands to open and peek inside – from postcards to pirate party hats!
- Humorous and light-hearted storytelling from Dawn McNiff (*Smiley Eyes, Smiley Faces*) is accompanied by hilarious and stylish artwork from Nicola Slater (*The Leaf Thief, Charlie Chooses, Jonathan the Magic Pony*).
- The perfect picture book for anyone welcoming a new baby into the family.
- With focus on letter-writing and a 'write a letter to the pirate captain' activity at the back of the book, this makes the perfect classroom companion.
- Cover treatment: matt lam and spot UV.

A Home is a Nest

The perfect gift for anyone welcoming a new child into the family, this comforting picture book explores the idea of 'home' through nature's lens.

- Emma's previous books have garnered critical acclaim: *What Do You See When You Look At A Tree?* was selected as a 2023 Empathy Labs title and shortlisted for the Waterstones Children's Prize 2023, while *Time Runs Like a River* won the Award of Excellence in Literature for Children from the Council on Botanical and Horticultural Libraries
- With its tender story and stunning illustrations, this book is ideal for snuggling up and reading aloud, making it a cherished addition to any nursery or family library

Noah's New Home

A beautifully illustrated, sensitively told story about a young refugee.

- Reviewed and supported by Young Roots, a charity that works with child and young people refugees as they settle in a new place. It also includes back matter from them with a quote about the book and more information about the work they do.
- Zeshan Akhter's second book with Templar, following on from *My Name is a Gift*.
- Bringing illustration talent, Nabila Adani, to the Templar list. Nabila is known for books like *Not Now, Noor!* (Puffin) and *Sunny and the Birds* (OUP).
- Nabila effectively uses colour, texture and abstract compositions in her artwork to portray the multi-faceted and complex emotions that come with settling in a new place.

The Map of Me

A universal message about the power of mapping out your past, present and future.

- A powerful picture book about the experience of moving to a different country by award-winning author Nicola Davies.
- Illustrated by Ukrainian illustrator Olga Shtonda who was shortlisted for the Klaus Flugge Award for *Henri and the Machine*.
- The perfect book for parents and carers to share with children who left their home country to process their emotions, and to comfort and provide hope in an unfamiliar world.

Tiger's Last Roar

A beautifully lyrical story about grief, the loss of a pet and the unbreakable bond between child and furry friend.

- Bringing Harriet Howe, a debut, talented picture book voice to the Templar list with this breathtaking and lyrical text - and following with *A Skyful of Stars*, a story about divorce and separation, in 2027.
- The book is beautifully and sensitively brought to life by Waterstones Children's Book Prize shortlistee and Carnegie nominee, Katie Cottle - with luscious foliage, bright palettes and exquisite attention to detail on every page.
- A perfect encapsulation of the relationship between child and pet with thoughtful, yet humorous, depictions of cats that will be familiar to any cat-lover!

Bessie's Bees

An uplifting story about starting nursery with a bubbly neurodiverse child at its centre.

- Bringing debut, neurodiverse author George Kirk to the Templar picture book list with a story featuring a main character with ADHD - and Bessie will be back in 2026 in *Bessie's Bathtime*!
- While there has been an increase in positive representations and neurodiverse voices elsewhere in children's books, this is yet to be seen in the picture book space. Templar can be one of the first to champion neurodiverse voices and stories.
- Brilliantly brought to life by Ana Gómez, illustrator of *How to Make a Story* and *How to Catch a Rainbow* published by OUP, with her approachable, accessible child characters and clever visual representations.

A laugh-out-loud rhyming romp about how being **HANGRY** really makes you feel!

- Bringing debut author Kathryn Wanless as well as established, commercial talent Fred Blunt to the Templar list with his wit and humour.
- Exploring a theme that isn't currently seen in the picture book market - there are plenty of books about being hungry OR angry, but not both!
- This story uses humour as a conversation starter for children to talk about the very real, intense emotions that come with hunger.
- The book acts as a reminder that we all get hangry, even grown-ups, but it's how we deal with those feelings that matters.
- Cover treatment: matt lam, SPUV and emobss.

A magnificently messy adventure to discover the importance of tidying up!

- Written by Irish author Eoin McLaughlin, whose book *The Hug* was one of the Guardian's Best Books of 2019. Illustrated by German illustrator Julia Christians, winner of the Leipzig Reading Compass Award for Templar's *The Best Bear Tracker*.
- The message of climate change is delivered through humorous text. A subtle way of introducing complex and difficult subjects.
- Pollution and climate changes are themes which are globally relevant
- A winning Templar formula - books with a powerful message, humour and heart.

Super Nani and Captain Yaz

A heartfelt celebration of family, Punjabi culture and the rag doll-making tradition with a dash of superheroes!

- A family-centred picture book that celebrates Punjabi culture and heritage from debut author, Saira Shah, and Brazilian illustrator, Maria Gabriela Gama.
- Inspired by Saira's own experiences with her daughter and her mother struggling to communicate.
- An uplifting and warm picture book that gives voice to the experience of multi-cultural heritage, second-generation Asians that belong to two different cultures.
- Includes step-by-step instructions of how to make your very own rag doll!
- Cover treatment: matt lam + spot UV.

Trixie the Witch's Cat

A spellbinding, magical adventure towards self love!

- A hilarious tale of kitty chaos and magical mishaps with an important underlying message that teaches children to celebrate their differences.
- From award-winning author-illustrator Nick Butterworth - the magical mind behind the iconic Percy and the Park Keeper series. Nick's other internationally acclaimed picture books include 'Jingle Bells', 'QPootle5', 'Tiger' and 'The Whisperer' which won the Gold Award at the Nestle Book Awards.
- Nick Butterworth's retro illustrations add an adorable nostalgic feel to the book, perfect for parents who want to introduce their children to their own 90s favourites.
- Nick Butterworth's beloved titles have sold over twelve million copies around the world in more than twenty-five foreign languages.

Oh No, Flo!

A fantastically funny farmyard fiasco to read aloud!

- Taking recognisable and familiar farm animal characters to create a funny and fresh picture book for the very young.
- Featuring bold and bright illustrations from Mike Byrne, well-known for *This Book is Full of Unicorns*.
- Catherine Cawthorne is fresh to the picture book world but is already making her mark with: *We Went to Find a Woolly Mammoth* (Hachette, 2023), *We Went to Find a T.Rex* (Hachette, 2024) and *The Big Bad Wolf Investigates: Fairy Tales* (Bloomsbury, 2024).
- The light-hearted text and repeated 'OH NO, FLO!' refrain to join in with, makes it the perfect book to share with a group or individual child.
- Cover treatments: matt lam and SPUV.

Yetis Don't Exist!

A FUR-tastically funny rhyming adventure!

- Bringing rising talent, Kate Thompson, to the Templar list. She has two picture books with Welbeck and two new picture books coming with PRH in September 2024, and 2025.
- Bringing established quirky, commercial illustrator Loretta Schauer to the list with her bright palette and fantastic furry creatures. Loretta has previously worked with publishers like Ladybird, Farshore and Bloomsbury.
- Like *The Best Bear Tracker*, this book has a hilarious visual narrative alongside the text with the yetis and human explorer just missing each other more than once!
- The book's wintry, snowy setting offers the ideal seasonal gift without the story being explicitly Christmassy!
- Cover treatments: matt lam and foil.

THE ESCAPE

A story of 103 missing monkeys

XIMO ABADÍA

A monkey counting adventure

- A stylishly clever counting adventure from surrealist author-illustrator Ximo Abadía
- Encourages counting from 1 to 100, which children learn around age 5
- The number of monkeys to spot on each page increases through the book
- High-contrast black, white and red illustrations are both stylish and engaging for young readers
- Ximo's previous titles (including picture books *Toto*, 2018, and *I Can't Sleep*, 2020, and the STEM series including *The Speed of Starlight*, 2018) have sold more than 80,000 copies worldwide.
- Cover: matt lam + spot UV

The Christmas Chronicles

Count down to Christmas with this lift-the-flap advent calendar-style book!

- Ingenious, interactive advent calendar-style design on cover. Children will love lifting the flaps on the cover to reveal a different Christmas character or object and, underneath, finding the page number where the chapter featuring this subject begins.
- These magical story features Santa, elves, reindeer, and other characters, and is filled with humorous mishaps and snowy adventures.
- 24 humorous chapters--one for every day in the buildup to Christmas.

The Christmas Chronicles

Sometimes elf Crackerjack will tie one of his jokes around a teddy bear’s neck: What do you call an elf who never went to school as a child? Elf-taught.

What do you call an elf who wins a lot of money? Welfy.

What are elves’ favourite types of photos? Elfies.

Santa has been sitting at his desk all day. There are pages of words in sparkly ink from his special pen. Beside him is the letter from Africa that started him writing his story. He has underlined Akua’s words: ‘I am learning to read and would like to have a book about you. Can you write one for me?’

Mrs Claus brings a tray of mince pies. ‘Have you decided what to call your book, dear? After all, every book must have a title.’

Santa ponders for a while, staring out of the window at the falling snow. ‘I could call it “The Fun of Being Santa Claus” or maybe “Santa’s December Story”?’

JOHN TOWNSEND

Mrs Claus sips from a teacup and says, ‘How about something more Christmassy? Something that gives a day-by-day record of what you do. What’s another word for diary?’

Santa continues watching the dancing snowflakes through the window. ‘Chronicle,’ he smiles. ‘Why not call my book “The Christmas Chronicles”?’

‘Ooh, that sounds posh,’ Mrs Claus giggles. ‘It’s got a ring to it. Go for it, love!’

Santa looks back at his desk where Tinsel is playing with Akua’s letter by tapping it with her paw. ‘And I shall mention Akua in it, too,’ he says. ‘In fact, I shall dedicate my book to all children in hospital this Christmas.’

At bedtime, Santa sits up in bed with his notebook and scratchy pen. Sparkle and Tinsel watch more words appear on the paper, as if by magic. Santa giggles, ‘Shall I read you the first page? I told you both you would be in my book so here goes...’ ‘Not many people know this, but if you go to the North Pole and face one way, you will see a house with many windows, green shutters and a snowy roof. That’s where Santa Claus lives with his wife Carol, their cat Tinsel and their dog Sparkle.’ ‘Santa turns off the light with a sigh.

‘Christmas spells, Christmas spells, Christmas all the way... Oh what fun it is to sleep and wake up the next day! Nightie night, my sweetie-pies. Only one week to my big night. Just you wait till you see what tomorrow brings...’

And yes, tomorrow you will find out, too.

The Wild Verses

A striking poetry collection by Helen Mort.

- The book will be split into different sections/feelings - joy, hard times, love, loss etc.
- Tapping into the phenomenal success of books like *The Boy*, *the Mole*, *the Fox and the Horse* and *The Poetry Pharmacy*.
- An opportunity to reuse Sarah Maycock's artwork in a new format - for an adult audience
- The perfect offering for the Christmas gift market
- Luxy cover finishes - quarter binding and foil
- With poems by award-winning Helen Mort

The Wild Verses

Safely In Numbers

Why meet trouble halfway
when you can run
to greet it, offer it
the best part of the day?
Watch them surge
towards their problems:
this band of rebels
tackling life head-on
moving, always moving
as one.

The Bull

Today, you want
to stomp outside and face
the day bull-strong.
Stand firm
and uncertainties
cannot make you stop.
Stay proud. Zip up
your audaciousness
right to the top.

The Painter

If I could paint the world
I'd choose endearment, which is yellow:
blossoms for the sun-drenched vine,
bee-colours for getting things done,
lemons for sharpness, pure gold
for every star that shines in darkness.

Unfurl

Sometimes you want to hide
your crimson, teal and green.
Sometimes you fold.

It's time to catch the light. Be bold.
You open the fan of yourself
and you brim with gold.

Discover 12 upheavals which changed the world forever.

- A thought-provoking exploration of the idea of revolution: how upheavals, ideas and technology have irreversibly changed the world.
- Content split into three distinct chapters: power struggles, social revolutions and new technology. Chapter openers discuss what the word “revolution” means in each of these contexts, while showing how the idea is linked across all areas.
- Written by long-time author and history enthusiast Joan Lennon, who is a Royal Literary Fund Fellow at Dundee University and regular contributor on The History Girls blog. Her previous non-fiction book *Talking History* was shortlisted for the SLA Information Book Award 2023 and longlisted for the UKLA Book Awards 2023 in the Information Books category.

Sophie's Incredible Voyage

Adventure through the mysterious door and embark on a quest in a magical land in this beautifully whimsical puzzle book.

- A beautifully whimsical puzzle book, mixing the fun and interactivity of puzzles with an epic adventure story. Perfect for unlocking the joy of reading.
- Written and illustrated by Aleksandra Artymowska, illustrator of bestselling *Around the World in 80 Puzzles* and *20,000 Leagues Under the Sea: A Puzzle Adventure*. Ola's puzzle books have sold over 100,000 copies worldwide.
- Featuring a strong female protagonist who shows that bravery and a sense of adventure isn't only for boys.

The Incident at Camp UFO

Unravel cryptic clues, solve fiendish puzzles, avoid the Shini-rax aliens at all costs while you help the gang solve the incident at Camp UFO!

- A brand-new adventure puzzle book series complete with graphic novel style illustrations. Perfect for fans of Bunny vs. Monkey, Stranger Things and gaming enthusiasts. A must-have for reluctant readers.
- Featuring a strong cast of characters with authentic stories from diverse backgrounds, including South and South East Asia, plus a non-binary character with partial hearing loss.

The Incident at Camp UFO

The Early Birds looked at each other in utter astonishment, then sprinted towards the lake. Poppy followed, barking madly. She didn't have a clue what was going on, but she loved running.

"Y-you realise what's happening now right?!" puffed Pawan, struggling to keep up with the others. "A SUPERHERO ORIGIN STORY! Space rock falls from the sky, local kids find space rock, space rock makes them FLY or TURN STRETCHY or give them the power to make people EXPLODE or something!"

"Was it definitely a space rock?" asked Val. "Whatsit called? An asteroid. Maybe it was a satellite. Or a part of a PLANE! I heard once that an aeroplane's toilet chute opened and the stuff inside fell out of the sky, and because it's SO cold up there, it FROZE and hit a man and everyone knew that he'd been squashed by a massive frozen ball of POOI!"

"Definitely not poo," said Frankie, who had made it to the shore first. The others arrived and stared out at the emanating water. "Poo doesn't glow."

"Woah" said Val, astutely. "I guess we should report this to, uh, whoever you report asteroids to?" Frankie posited. "Um, sorry, I think you mean meteorite," said Xinyi, apologetically. "Asteroids are when they're in space. When they fall they're a meteor, and when it lands it's a meteorite..." Xinyi frowned. WHY did I have to say that for? Now they'll think I'm a COMPLETE dweeb...

Frankie turned to her and smiled. "Thanks, Xinyi. It's probably best we know exactly what it is when we tell..."

"Or," interrupted Val, "we DON'T tell anyone and fish it out ourselves!" The gang looked down at the glow once more. Pawan nodded slowly. "Yeah. I mean, do you KNOW how much meteorites go for online?" He said, biting his lip. "Like, mucho gold coins. Plus, still hoping for superpowers here..?"

"Yeah! Come on Frank-le-plank!" beamed Val. "I wanna make people explode!"

Frankie sighed. She saw what this was. Just because she was older – just because she wasn't suggesting stupid things like FISHING FOR (potentially) MAGIC SPACE ROCKS – they were making her be the mum. The sensible one. The leader. Frankie took a deep breath. Not today. Not this entire summer, actually. She had decided in the car that this summer, she wasn't going to be in charge of ANYTHING. Especially not Val.

"Yeah, okay. Let's get the meteorite out of the lake," the new, relaxed go-with-the-flow Frankie replied. "So... how are we going to do that?"

How COULD the gang fish the meteorite out the lake? When you think you've got it, turn to the next page - or check the answer at the back!

Hint: Try skipping back a few pages and see if there's any helpful lake-related gear!

Inside Story: How the Internet Works

Get the inside story on today's most important topics and learn to navigate the internet like a pro!

- An all-encompassing guide to the internet, looking at how it's made and who by, how the internet plays a role in different areas of our lives (e.g. communication, entertainment, shopping and business), the latest issues surrounding the internet and how to work with parents and guardians to stay safe online.
- Written by an expert author - Craig Steele, a computer scientist and digital skills educator. Plus tips from other contacts in the industry who can provide first-hand knowledge.

Inside Story: How the News Works

Get the inside story on today's most important topics and learn to navigate the news like a pro!

- An all-encompassing, no-nonsense guide to the news industry, looking at how news is made, what and who it's for, what to look out for when digesting news and tips on how to be a savvy news-consumer.
- Written by expert authors from ITN news team, including tips from ITV's Charlene White. Informed by lived experiences of real journalists from across the news sector.
- News from a global perspective: look at key moments in news history and stories that shaped the world from Europe, America, China, Indonesia, India and more.

Over 2500 years of incredible ideas from some of the world's greatest minds.

- Contents1. Looking for answers in a time of war (Confucius)2. The illusion of motion (Zeno of Elea)3. The Socratics (Socrates, Plato, Aristotle)4. Being a bridge (Ibn Rusdh/Averroës)5. The man who thought in a cave (Zera Yacob)6. The age of reason (Rene Descartes, Jeremy Bentham, Mary Wollstonecraft)7. To change the world (Karl Marx)8. Experiments with Truth (Gandhi)9. The existence of nothing (Nishida Kitaro)10. We are the symbol makers (Susanne Langer)11. The trolley problem (Philippa Foot)12. African philosophy (Henry Odera Oruka)13. People of the long white cloud (Maori philosophy)14. Animals and us (Mary Midgley)15. An accident at the crossroads (Kimberlé Crenshaw Williams)

There Are Amphibians Everywhere

**Best-selling
illustrator Britta
Teckentrup
explores the world
of amphibians in
this sumptuously
illustrated
introduction.**

- Contents: There are amphibians everywhere; It's an amphibian! (So what is that?); Amphibians have been around for ages; Where do amphibians live?; How do amphibians live?; Moving; Feeding; Life stories; Metamorphosis; Staying alive; Tropical terrors (poisonous frog spotlight spread); Amphibians and people
- Britta's There Are... series has sold a combined quantity of over 200,000 copies worldwide (as of January 2025)

There Are Amphibians Everywhere

There are Mammals Everywhere

An illustrated introduction to mammals.

- A combined quantity of over 100,000 copies worldwide (as of July 2022) has sold for Britta's *There Are...* series
- Britta's 'One is Not a Pair' series has sold 250,000 copies internationally
- Contents: There are mammals everywhere; It's a mammal! So what is that that?; Mammals have been around for ages; Where do mammals live?; The savannah; Staying alive; Feeding; Moving (elephant spotlight spread); Mammal parents; Mali elephants; Birds and people
- The colourful exploration of mammals follows on from Britta Teckentrup's *There are Fish Everywhere*, *There are Bugs Everywhere*, *There are Reptiles Everywhere* and *There are Birds Everywhere*.

Celebrate the achievements made in medical engineering and take a glimpse into the future.

- **Winner of the 2024 SLA Information Book Award Judges' Choice Category 8-12**
- As told by UK Sepsis Ambassador Patrick TJ Kane
- Phenomenal artwork by highly acclaimed artist Samuel Rodriguez
- The first of its kind - a book that celebrates the history of medical implantables and prosthetics
- The forefront of diversity - featuring stories from celebrities and people around the world

INTRODUCTION

Imagine a world where all around us are people with bionic limbs, machines attached to their heads and cameras for eyes. This same world has cyborgs who can hear colours and communicate via their teeth, and even people who use robotic skeletons to walk elsewhere. In this world, children have no fear with external ears, and people have without legs can walk using ones made of metal and carbon fibre. Some people use chips inside their bodies to get into their offices, or to pay for their coffees on their way into work. This world is full of incredible people who are using technology to do amazing things. But the most amazing part of all is that this world is the one we already live in. Technology has changed all of our lives, and not just with the smartphones or tablets that we use. For many people, particularly those with disabilities, recent technological advances have created the means of the greatly imaginable, and reached a place of possibility. We don't realise it all the time, but bionic technology exists, and it's right in front of our noses. Far from a scene from a science fiction film, the future is far away from here. This book explores the most incredible stories of bionic technology, from intricate bionic hands (see pages 32-33) to neural implants (pages 40-41), and includes some of the most remarkable that get us there. We will also look forward at the exciting frontiers that lie ahead: the current, as well as what they mean for us as a species. Our journey to the future has already begun, and it is time to get to know Human 2.0.

THE FIRST PROSTHESES

For as long as humans have been around, we have been losing limbs, or are born without them. Whether due to an injury or congenital impairment (a condition that is present from birth), people have been trying to replace missing arms, legs, fingers and toes for thousands of years. Early prostheses were rudimentary for their time, yet their inventors did not have the technology needed to provide better functionality and comfort. Even so, some of these early prostheses closely resemble those that exist today.

The earliest known example of a prosthesis (an artificial body part) belonged to an Egyptian mummyman over 2,000 years ago. This wooden prosthesis replaced the leg on his right foot, and even had a ridge in the shape of a nail carved into it to make it appear more realistic. It would have been strapped onto his leg with string, and scientists believe that it would have greatly altered his balance. The earliest written mention of a prosthesis dates to around 1776, and describes the iron hand belonging to the German general Baron von Bellinghagen. This was used by the one of the first general of his time, especially because of his bravery in battle. Across two campaigns he was awarded 23 times, resulting in the loss of his right hand. Bellinghagen's replacement hand was designed by his arm, perhaps allowing him to hold a sword for future battles.

Count Götz von Bellinghagen Perhaps the most famous example of an early prosthesis is that belonging to the German knight Count Götz von Bellinghagen, who lost his hand during battle in the early 1500s. Count Götz asked his local craftsmen to make an iron hand with eight fingers and a thumb that could hold into place, so he could hold a horse's reins or a weapon. This hand was not a success, as it became too heavy for him to use, and he eventually replaced it with a wooden one.

WHAT IS BIONIC?

Bionics refers to the transfer of technology between artificial objects and living organisms. The word 'bionics' comes from a combination of the Greek words for 'bio' (life) and 'nics' (technology). It was coined by American engineer and scientist Jack E. Parnes in the 1960s. Bionics is the study of how living organisms use technology to solve problems, and how we can learn from them to create better technology. Bionics is a multidisciplinary field that combines biology, engineering, and technology. It is a field that is constantly evolving, as new technologies are developed and new organisms are discovered. Bionics is a field that is full of potential, and it is a field that is constantly growing. Bionics is a field that is full of potential, and it is a field that is constantly growing. Bionics is a field that is full of potential, and it is a field that is constantly growing.

BIONIC LIMBS AND IMPLANTABLE DEVICES

A prosthesis can be internal or external to the body. The ways in which people can replace parts of their body can largely be broken down into two groups: bionic limbs and implantable devices.

'Implantable devices' is a broad term describing anything that is surgically implanted inside the body. Because surgery is required to gain access, these devices cannot easily be removed, and are typically designed to stay inside the body forever. Examples of these include pacemakers and cochlear implants.

Bionic limbs are artificial body parts, which are intended to replace the function of a human body part, such as an arm or a leg. These are attached to the body, usually via a belt, strap or socket, and can be easily taken on and off by their wearer.

If either a bionic limb or an implant has batteries that need to be charged, they are called 'active'. Those that do not are called 'passive'. Some implants, such as cochlear implants, need batteries. These sit outside the body and attach to the implant via a wire, so the user does not need surgery every time the battery runs out (see pages 28-29).

Up in the Canopy

Explore the jungle layer by layer with a huge fold-out surprise at the end.

- James Aldred's book *The Goshawk Summer* won the 2022 James Cropper Wainwright Prize for Nature Writing.
- Written from the perspective of real-life Emmy-nominated cameraman and explorer, James Aldred
- Stunningly illustrated - with artwork as rich and dense as the rainforest itself
- Huge fold-out tree at the back of the book, which readers can pore over.
- Matt lam and spot UV finishes.

Under the Starlit Sky

A journey from the roots to the canopy of a majestic old oak tree, right in the heart of Europe's most ancient forest.

- The follow up title to the beautiful *Up in the Canopy*
- As told by real life explorer and tree climber, James Aldred (winner of the 2022 Wainwright Prize for Non-Fiction)
- Illustrated by award-winning duo *Good Wives and Warriors*
- Published in conjunction with the Royal Botanic Gardens, Kew
- Huge fold-out tree at the back of the book, which readers can pore over
- Cover treatment: Matt lam, holographic foil and spot UV finishes

An exploration of rivers with fold-out pages

- A stunning look at geography, exploring the physical features of rivers, the unique wildlife they support and how they have shaped human history.
- Featuring 6 mighty rivers from around the world, one from each continent
- CONTENTS: A World of Rivers; Where do rivers get their water?; Source; Heading Downhill; Waterfalls; Underground Rivers; Gorges; Rapids; Dams; The Danube; Around the Bend; River Life; River Highway; The Ganges; Making Lakes; The Amazon; River City; The Murray; Extraordinary Rivers; Floating Islands of the Sudd; The Nile; Deltas; Estuaries; The Mississippi; Mangroves; Salmon Run
- Includes fold-out pages throughout
- Cover treatment: matt lam + spot UV + 5th colour

Dinosaur Dynasty

Step back in time to when dinosaurs stalked the earth in this stylish non-fiction book by Jack Tite, the creator of *Mega Meltdown* and *Viking Voyagers*.

- The third stunning book from author-illustrator Jack Tite
- Large fold-out spreads provide additional details, creating an even more interactive and engaging reading experience for curious minds
- Fully illustrated in Jack Tite's striking contemporary style, this book combines lively, easy-to-read narration with fun facts and insights about each dinosaur's appearance, diet, and survival strategies, making complex information accessible to young readers

This visually extraordinary book presents the history of money as it has never been seen before – from coins to contactless, bankruptcy to billionaires

- Vibrant illustrations and dynamic layouts will appeal to the audience
- Digestible and easy-to-understand text by expert children's author, Alex Woolf.
- A global topic with growing relevance in today's world. There is a significant lack of publishing for children on this subject.
- Pantone and 100% foil cover finishes.

RICH AND POOR

THE HISTORY OF WEALTH

Wealth is the difference in wealth between the richest and the poorest. It has been around since the first cave man. In the past, it was measured in terms of land, tools, and other physical possessions. Today, it is measured in terms of money. The rich have more money than the poor, and this has led to a widening gap between the two.

WEALTH CONCENTRATION

One of the biggest reasons for the widening gap is the concentration of wealth in the hands of a few. In the past, this was often the case with land. Today, it is often the case with money. The rich have more money than the poor, and this has led to a widening gap between the two.

CAUSES OF INEQUALITY

There are many reasons for wealth inequality. Some people have more money than others because they have more skills or more connections. Some people have more money than others because they have more luck. Some people have more money than others because they have more power.

WHAT'S WRONG WITH WEALTH INEQUALITY?

There are many problems with wealth inequality. It can lead to a lack of opportunity for the poor. It can lead to a lack of access to education and healthcare. It can lead to a lack of political voice for the poor. It can lead to a lack of social mobility.

GOLDEN YEARS

AN INTERNATIONAL SYSTEM

In the 1920s, the gold standard was a system where the value of a country's currency was linked to the value of gold. This was a common system at the time, but it had some drawbacks. It was inflexible, and it was difficult to adjust to changing economic conditions.

THE COST OF WAR

World War I had a major impact on the gold standard. The war was a huge cost for many countries, and it led to a loss of confidence in the gold standard. This led to a move away from the gold standard and towards a more flexible system.

THE GOLD DUCK

The gold duck was a famous story about a man who found a gold duck in his garden. The story was a metaphor for the gold standard, which was seen as a source of wealth and power.

FROM COUNTERFEIT COINS TO FALSE NOTES

ALVES dos REIS

Alves dos Reis was a famous Portuguese counterfeit master. He was known for his skill in creating false banknotes and coins. He was a major figure in the world of counterfeiting in the early 20th century.

THE FIRST COUNTERFEITS

The first counterfeit coins were made in ancient times. They were often made of a different metal than the real coins, and they were often of a different size or shape. They were used to trick people into accepting them as real money.

THE FIRST FALSE NOTES

The first false banknotes were made in the 17th century. They were often made of a different material than the real notes, and they were often of a different size or shape. They were used to trick people into accepting them as real money.

FINANCIAL MARKETS

At regular markets people buy and sell things like food and clothing. At financial markets, people trade money-related assets. These include stocks and bonds. Stocks are shares in a company that the company sells to raise capital. Shareholders are paid dividends (regular sums paid out of the company's profits). Bonds are certificates issued by a government or corporation, promising to repay borrowed money at a fixed rate of interest. Financial markets can be physical places, like the New York Stock Exchange, or they can take place online.

THE FIRST BONDS

In the twelfth century, the government of Venice came up with a new way of raising money to fight a war. It offered its citizens certificates, known as prestii, in exchange for a loan, promising to pay them back by a certain time, plus 5 per cent interest. These were the first government bonds. Before long they became a popular investment, and a market developed for the buying and selling of prestii.

THE FIRST STOCKS

Founded in 1602, the Dutch East India Company was the first company to sell shares in its business to the public. The money it raised from this funded its voyages to the East Indies, and it paid its shareholders out of the profits from its trade in enslaved people and spices. The shares were traded in the Amsterdam Stock Exchange, also established that year.

THE DAILY NEWS

OCTOBER 1929 NEW YORK CITY

THE WALL STREET CRASH

FINANCIAL MARKETS CAN BE VOLATILE. A RUMOUR OR A MINOR PIECE OF ECONOMIC NEWS CAN CAUSE BIG SWINGS IN PRICES. THE DESIRE TO MAKE MONEY OR AVOID LOSING IT IS A POWERFUL ONE, AND A HERD INSTINCT CAN SOMETIMES TAKE OVER WITH PEOPLE STAMPEDING TO BUY OR SELL. THE MOST SPECTACULAR EXAMPLE OF THIS WAS THE WALL STREET CRASH OF 1929.

THE ROARING TWENTIES

The 1920s was boom time in the United States. There was a spirit of optimism in the country and it became fashionable to play the stock market. Share prices soon rocketed to a point where they represented a value far greater than the total worth of their companies' assets. This was now a mania – a period when everyone, from wealthy financiers to common investors, lost touch with reality and seemed to believe that prices could keep rising forever.

AFTER EFFECTS

As a result of the crash, businesses were bankrupted, banks closed, millions lost their jobs and the world plunged into a deep and lasting economic depression. This had a big political impact. In Europe, extreme right-wing parties exploited the misery of mass unemployment, blaming 'foreigners' such as Jews. Germany's Nazi Party rose to power in 1933. The consequences for the world would be devastating.

DISASTER

The crash occurred at the end of October 1929, during three calamitous days of trading at the New York Stock Exchange on Wall Street, when huge numbers of people decided collectively it was time to sell. With so many sellers, there were few buyers, and share prices plummeted. In those three days, billions of dollars were wiped off the value of American companies. And over the following years the market kept on falling. By 1932, stocks had lost nearly 90 per cent of their pre-crash value.

A stunningly illustrated tribute for train lovers of all ages, celebrating the ingenuity of trains past, present and future.

- Sample contents: The First Railways; Steam Locomotions; The Ffestiniog Railway; The Orient Express; Freight Trains; The Baikonur Cosmodrome; Mail by Rail; The California Zephyr; Mountain Railways; The Darjeeling Himalayan Railway; Trams; Sky Lines; Railways At War; The Princess Christian; High-speed Rail; The Shinkansen
- Beautiful artwork by multi award-winning artist Ryo Takemasa
- Stunning journey through the history of locomotives, suitable for all ages
- Expertly written by railway historian, Alastair Steele

Locomotion

THE FIRST RAILWAYS

It is strange to think that they have only been around as we know them for about two hundred years.

Pushing his way on to influence many other engineers. The first public railway to use steam locomotives, the Stockton and Darlington Railway in England, opened in 1825. It was designed by George Stephenson, who went on to be known as the 'Father of Railways' for his influential role in so many early schemes.

THE GAUGE

One of engineering's most significant decisions occurred on the gauge for British railways. The gauge is the distance between the rails and is measured from the inside edge of one rail to the other. By using the same gauge on different railways, Stephenson could ensure that the trains were compatible when they connected. He decided on a gauge of 7'6.25in, which became known as the 'standard gauge'. Today, more than half of the world's railways use this gauge.

The standard gauge was not without its rivals. Invented by British Baron, engineer of the London Great Western Railway, divided into a much wider gauge when he designed the line between London and Bath, which opened in 1826. The wider tracks, set at a width of 2.2 metres, allowed for more stability at speed, and bigger vehicles which could carry greater loads. Unfortunately for Brunel, his ideas arrived too late to compete, and by 1892 all the tracks had been converted to the narrower gauge of his rival, Stephenson.

STEAM LOCOMOTIVES

Once the possibility of steam-powered engines had been realized, a whole host of locomotives were tried and tested around the world. Some proved too heavy, others too unreliable and some were too dangerous, but the arrival of one revolutionary design changed the course of history. *Rocket*, designed by engineer Robert Stephenson (George Stephenson's son - see page 8) was to provide the principal design for the vast majority of steam locomotives that follow.

Heat flows from the fire pot into the **boiler** via smaller tubes. The heat of the water is boiling point, raising the steam pressure.

As the pressure builds, the steam is directed to the **explosions**. These are controlled by valves, which act like a gasflow in a car. The steam-pressure does not **plunge** inside the explosions, sending the turbine into a stall which causes the crash.

which enlarged the surface area and flattened the membrane walls. A filter pipe was used to send sludge from the sedimentation chamber, helping to put the fine grains along the tubes. This means it could create power and increased efficiency. Unlike using tubes and their joints, the filter became the separator from the pipe network.

ELECTRIC LOCOMOTIVES

The first electric train was tested as far back as 1837. Unlike steam trains, electric locomotives do not carry fuel on-board. Instead, they are powered by electricity which can be supplied from overhead lines, a third rail or in storage such as batteries. Because electric trains can be powered by renewable energy sources, they are considered less polluting than steam or diesel trains.

The first electric passenger train was presented by Werner von Siemens at an exhibition in Berlin in 1871. Consisting of a small locomotive and three cars, it reached a speed of just 13km/h.

The *ETR 200* is a record-breaking electric passenger train. It is widely considered one of the first ever high-speed trains and was put into service in 1936. In 1939, it broke the speed record for trains by reaching just over 201km/h.

The ICE (InterCity Express) is one of Germany's most successful electric trains. The third generation ICE can reach speeds of 300km/h. Since 2018, it has run on entirely **renewable energy** sources.

DIESEL LOCOMOTIVES

In a diesel locomotive, the power comes from an engine that burns diesel oil. While a steam locomotive needed two people to crew it and hours to attain the right steam pressure, a diesel locomotive could simply be switched on and driven away, making them much easier and much cheaper to run. Rudolf Diesel patented his first diesel engine in 1898, but it wasn't until around 1912 that they were first used in a locomotive.

The famous DRG Class SVT 877 *Hamburg Flyer*, often referred to as the 'Flying Hamburger', was first put into service in 1933. Its smooth, rounded shape was influenced by Zeppelin airships allowing for minimal air resistance.

The *Delco*, built in 1956, was considered the most powerful diesel locomotive in the world at that time.

The *InterCity 125* is one of the most successful diesel trains of all time. So named because it was designed to cruise at 125 mph (about 201 km/h) when in service, it also holds the all-time speed record for diesel trains of 238 km/h, which it reached in 198

- RAILWAYS OF THE WORLD -
THE FFESTINIOG RAILWAY

The Porthcerry railway in North Wales is a marvel of 19th century engineering. It was built to transport slate for roof tiles from the quarries around the town of Wrexham, Porthcerry, to up to the mountains of Snowdonia, down to the harbour at Porthladding. It spanned 18 rocky & narrow gorges of 500 feet to match the quarries already in use in the quarry.

By the 1840s, the railway engineering so much work in laying out that the horses couldn't haul the trains any further, and a solution had to be found. The solution was to build the railway with a narrower gauge than the existing one. The solution was for several small steam engines to be built, which were among the first narrow gauge locomotives in the world. By 1850, there were six working lines, but even more were being built to replace the old ones.

had painted the Double Portal, an ingenious device which incorporated design. This was a rather rare innovation in conventional track for track and having one pair of **logans**, which would be the expense of having two rows but enabled the prime surface. The first of these was collected into **border** and over the next 17 years another three Double Portals were built for the railway. They were so successful that Robert Farnham allowed the railway to use his patent for this device, something it continues to do to this day.

BEAUTIFUL

A Celebration of Evolution

All of nature is beautiful. This stunning book shows how a variety of amazing creatures have evolved to look and behave the way they do.

- Stunning watercolour artwork by the phenomenally talented natural history artist William Spring.
- Large format with 100% foil cover treatments makes this the ideal gift book.
- A poignant message with significance for today's world.
- Includes 50 beautiful creatures to marvel at.
- The perfect book for fans of *Hidden Planet* by Ben Rothery and *The Golden Mole* by Katherine Rundell.

Aldabra Giant Tortoise

It was the tortoise from Aesop's famous fable The Hare and the Tortoise who gave us the phrase 'slow and steady wins the race' (it couldn't be true for this animal, especially when put into context). Tortoises have been gently plodding around the planet for 300 million years.

[illegible]

Pygmy Seahorse

As its name suggests, the pygmy woodhewer is very tiny indeed, typically measuring just a centimetre or two in length.

The Barghini's puppy *ambush* has evolved to be so wonderfully well camouflaged that a woman's discovered and late 1900s. It was only spotted when a woman who was making a piece of wire found the tiny animal clinging to it to a branch. Today, there are now known species of puppy *ambush*, most of which live in the Coral Triangle of Southeast Asia. In 2008, the *Myanagocystes jayungensis* (also known as the "Japan pig") was discovered on the coast of Japan. More recently, in 2010, *Myanagocystes natus*, also known as the African puppy *ambush*, was discovered in South Africa.

[illegible]

Sperm Whale

The whale has been the stuff of myth and legend for as long as humans have ventured across the world's oceans. Looking at the sperm whale, it's easy to see why.

The sperm whale is truly awe-inspiring. It is one the largest animal predators in the world, measures around 35 metres in size in length, and weighs around 40 tonnes wet. Some have been recorded as being much larger, but these great whales are very rare. The sperm whale has several unique adaptations that make it not just a whale, but a whale species.

The information, which you may have inferred to be noise, filters the whole production sounds, such as effects and clusters, that travel through the same or adjacent, and are reflected back to the whole. It then focuses these reflected sounds and uses the information to focus the signal the sound bounced off. Some sounds are noise in the air rather than in water - but, for example in phase 502, to produce its noise sounds, the species whale has almost by its nose. As air passes through the nasal passage and past the pharynx lips, the surrounding tissue vibrates, producing the loudest sound of any sound.

The species whale's noticeable head, which takes up almost a third of its body, is almost entirely devoted to noise. Within it, there is a huge nasal cavity containing several nasal cavities connected. It also has an airway, called the

There are specialized structures known as a whale's *ultrasound-producing organs* that are in each

go the whole way. It may not depend on other animals. The strategy was first shown in the mid-1960s members of the whaling ship *Essex*, who trapped Humpback whales in the second Malesian Strait.

For a long period of time, squamates, a highly fecundable subcategory, were said to be invulnerable. The harvesting of this oil led to the hunting of species widely in large numbers, causing some populations to nearly or even more than whole hunting was stopped in the late 1950s. Unfortunately, some reactions continue to emerge in this practice. While not all the reactions by climate change and pollution, as well as increasing strength in commercial fisheries.

Bat-Eared Fox

The name explains it all: a fox with ears like a bat. But why has this extraordinary animal developed such unusual features?

Living in small, tightly knit social groups, these foxes make their home on the savannahs of eastern and southern Africa. This is a dry and hot landscape where food is limited and danger is ever-present. The fox's large ears are an adaptation shared by many other inhabitants of these kinds of environments, such as the fennec fox, showing how evolution works to find the most efficient 'solution' to the problem of survival (bearing in mind that nothing is ever 'finished' in evolution – it's a constant work in progress).

In the case of a fox, its specialized ears serve several purposes. Firstly, they give it an astonishing sense of hearing. Not only does this allow the fox to detect predators and keep itself safe, but it also helps it to be a predator itself. It consumes a wide range of prey, including metals, spiders and millipedes, and occasionally even small reptiles and mammals – all of which are elusive, fast and, more often than not, actually hidden, as it lives or shelters underground. In such situations, the ability to hear your dinner before you see it makes it a lot easier to locate. Bat-eared foxes can often be seen walking slowly with their noses to the ground (their sense of smell is also extremely sensitive), their huge ears cocked forward, listening for the tiny scratch of an insect in its burrow. Once the fox has located its prey, it swiftly digs it up and seizes its target. Specialized teeth make it easy to crunch through the (often thick) armor of its insect lunch.

The ears also serve another vital function, one that's particularly important if you live in a hot environment and you're covered in fur: heat regulation. Like those of the elephant (see page 48), the fox's ears serve as radiators. Because of the fine capillary veins close to the surface of its ears, the fox can remain at a comfortable temperature by venting excess heat from its blood into the air.

Apart from its large ears, the bat-eared fox also has more teeth than other species of fox (between 40 and 50 teeth in total). In fact, these unique creatures have more teeth than most mammals. Bat-eared fox has three upper and four lower molars on each side of the mouth, while other members of the canid (or dog) family have two upper and three lower molars. These extra teeth mean that the fox is perfectly adapted to chewing creepy crawlies.

Although occasionally hunted, the bat-eared fox is one of the increasingly rare examples of an animal with a safe conservation status. It is helpful in keeping down the number of termites, which are considered pests. This means that the biggest commercial value for humans comes from keeping these foxes alive. Most threats to this fox come from the dangers its food sources might face, such as flooding from damming or the use of insecticides.

Icons of Cinema: Baz Luhrmann

A celebration of the iconic movie director behind *Moulin Rouge!* and *Elvis*.

- Written by Emily Maskell, freelance film critic who has written for BBC Culture, GQ, W Mag and more.
- Illustrated with full colour photographs including events and movie stills.
- The next title in this series, **Icons of Cinema: Greta Gerwig**, will publish in 2025.
- With home streaming services expanding and multiplying at an incredible rate, as well as the Barbenheimer Effect of 2023, there is a renewed interest in film and cinema.

Icons of Cinema: Baz Luhrmann

Paso Doble Flare

Though Scott and Fran perform several ballroom dances throughout *Strictly Ballroom*, their rule-breaking paso doble is the most memorable. The Latin ballroom dance initiates a bullfight; the male dancer is the matador, while the female dancer is the red cape of a torero. After another heated argument with his mother, Scott arrives at Fran's house and confesses his desire to dance with her at the competition. However, Fran's Spanish family does not warmly receive his declaration. Fran's father, Ravi (Antonio Vargas, one of the world's leading flamenco dancers), is especially suspicious of the young man and demands to see his paso doble in action.

They gather on the wooden terrace, lit by lanterns with Fran's family playing live instruments, as Scott and Fran's dance is met by rousing laughter. Ravi can't just stand by and watch his son assume the murder position, head held high with smug confidence and effervescent flame. The family forms a ring in which Ravi challenges Scott with a "this is how it's done" glare. They look like two bullfighters facing off. Luhrmann holds an extreme close-up on the intensity of Ravi's forehead, while the sound design focuses on the increasingly loud clicking of his heels. Rapid fire editing cuts jump between close-ups of Ravi's dancing and Scott's wonderment. The fiery

moment multiplies into a scene of schooling between the two men, who are very different from one another.

Ravi becomes Scott and Fran's unofficial dance coach to help them perfect their paso doble. Fran's grandfather Yi Yi (Antonio Bandini) also assists, the film Scott's chore to engage the rhythm of the music into his soul to help him "dance from the heart". Their nightly rehearsals are brought forward into the daylight, no longer hiding in the dark – it's a subtle callback to Fran's sentiment that "a life lived in fear is a life half lived". Luhrmann characterises such scenes with a narrative soundtrack composed of the noisy railway station, dramatic setting, the family's chugging, and the humming of maps.

OPPOSITE TOP: Fran (Scott) and Ravi (Vargas) dance together. OPPOSITE BOTTOM: Scott (Luhmann) winning at the end of the film. ABOVE: Scott (Luhmann) and Ravi (Vargas) perform the paso doble.

A 21-year-old DMCaptain pulled the character's complicated bundle of emotions, cycling through all of these emotions in a few seconds. His anger is tangible in his animated gaze and towering expression as he faces the gun, but then comes shame. Luhrmann cuts to an extreme close-up of Ravi's expression. DMCaptain faces the only thing visible in the frame. Ravi's father enters to see as men spill from his mother's car and blood trickles down his cheeks. There is no soundtrack for Ravi's breakdown, just the patter of falling rain as he screams: "I am Ravi's son!"

Luhrmann jumps so quickly between the tranquil love and agonised violence that there is no character left untouched by the threat of death. The murder of both Mercutio and Tybalt demonstrates that this burning desire to defeat the enemy household is all in vain. Through Tybalt killing Mercutio and Romeo killing Tybalt, Romeo has not only lost his best friend but left a devastating mark on the household's identity. The self-destruction of youth infatuation with Romeo's Juliet's heartbreaking conclusion as the two lovers tragically take their lives in each other's arms.

ABOVE: Romeo (Luhmann) looks at the murdered Tybalt.

Luhrmann's Outback

On home soil, Luhrmann's epic drama captures the landscape of Australia with wonder. This vast summer romance over the landscapes as much as *Lady Sarah* and *Dorothy's* infatuation. As the pair roam across endless miles of land, driving cattle, cinema-goer Mandy Walker highlights the non-blended Outback's outgrowing nature.

Luhrmann's signature style of visual splendour infuses with Walker's long dream of dusty scrubbed plains, incalculable sunsets and formidable mountains. As Walker sweeps over various terrains, the aerial shots are breathtakingly powerful. The cinematography focuses from the classic American western – capturing cattle drives like *Hombre* and *Red Dawn* – with grand scale infused in the expansive Outback. Further bolstering *Australia*, unlike *Bill Blodgett's* hyperactive editing, Dody Dorn and Michael McCook take a more restrained approach. The Outback lingers on the screen as viewers can properly absorb its grandeur.

Light is a central component of Luhrmann's storytelling. Walker's wide frames find each character under the blinding Australian sun, but the exposure quality of light and the noticeable absence of it imbues *Australia's* frames with a fantastical quality. Filming in Kunzea, a remote region of northern Western Australia, temperatures soared to a grueling 43°C and the intensity of sunlight hardened the cattle driving scenes. The sun is a guiding light but a punishing force in the outback, and sun never never does which the horses traverse.

Luhrmann's lens appreciates Australia's landscapes, whether observing King George atop a mountain or *Lady Sarah* trudging through the sands. The film explores through several characters and their differentiating methods as Luhrmann examines the beauty of the desert and plains while contemplating the harsh reality of the country's history.

TOP: Outback landscape in the Outback.

MIDDLE: Lady Sarah (Luhmann) and Dorothy (Luhmann) in the Outback.

THE CURTAIN RISES...

The Showman

Over three decades, Mark Anthony Luhrmann, who goes by the moniker Baz Luhrmann, has cemented himself as one of cinema's most recognisable filmmakers. The Australian film director, producer, writer and actor has worked across television, opera, theatre and music, but it is in the cinematic realm where he has really flourished. He is regarded as a contemporary auteur renowned for his theatrical aptitude, opulent aesthetic and sweeping romances.

Luhrmann is a showman as much as a director, known for conducting dramatic narratives that play out on a flamboyantly grand scale. Culturally, his significance spans the arts as he takes classic narrative structures and morphs them through new perspectives, not limiting himself to the boundaries of realism. This signature style marks the Australian filmmaker as a pioneering storyteller where the fusion of high and low pop culture creates an entirely singular body of films.

Icons of Cinema: Greta Gerwig

A celebration of the iconic movie director behind *Barbie* and *Little Women*.

- Written by Laura Venning, film critic specialising in feminist cinema who has written for BBC Culture, Empire Magazine and Little White Lies.
- Illustrated with full colour photographs including events and movie stills.
- Barbie earned more than \$1.38 billion worldwide to become Warner Bros' highest grossing film ever, as well as the highest grossing film ever from a female filmmaker at the domestic box office, and was the largest global film release of 2023.
- Will publish simultaneously with **Icons of Cinema: Wes Anderson**.

Icons of Cinema: Greta Gerwig

A New American Auteur

Once she stepped behind the camera to write and direct *Lady Bird* (2017), she announced herself as an extraordinary new filmmaking talent and a character of the late years of girlhood. Audiences felt had once been in love with *Barbie*, *Revenge* sharp-tongued, painfully real heroine. From then on, Gerwig's films would become touchstones for young women searching for themselves and for their experiences to be taken seriously. "I know what it is to waste things," says young heroine Tracy (Lola Kirke) in *Missex America* (2015), one of the films she co-wrote with *Bumfuch* – a writer who's a through line in all her work.

From *Lady Bird* to *Little Women* (2019) to *Barbie* (2023) and now *The Chronicles of Narnia*, Gerwig has embraced her exuberant and crafted women's stories of longing and self-realisation on even bigger canvases. From a childhood spellbound by Technicolor Hollywood musicals like *Singin' in the Rain* (1952) to enchanting *I'm Just Ken* in *Barbie*, Gerwig has brought her creative dreams to life – dreams that are still grounded in reality and emotion. In doing so, she has won admiration from directors as renowned as Steven Spielberg, Barry Jenkins, James Cameron and Jon Campion. She is the only director whose first three films have all been nominated for the Academy Award for Best Picture, and in 2024 she became the first American female director to be Best President at the Cannes Film Festival.

Sacramento

Greta Celene Gerwig was born on Thursday, 4 August, 1983, just among the jostling of New York City, not in the dream factory of Los Angeles, but in the decidedly more banal Sacramento, California's state capital. Gerwig was one of three children and her mother Christine worked as a nurse while her father Gordon worked for a credit union offering small business loans.

But both parents maintained an artistic sensibility: Gordon would keep a record of his dreams, played jazz music and introduced his daughter to Monty Python, while Christine had an eye for repurposing secondhand clothing. They didn't appear of television or, finally enough, of *Barbie* dolls. Gerwig has described herself as an energetic, enthusiastic child, a self-confessed busy bee who in kindergarten tried to direct her own playmates in a production of *Andrew Lloyd Webber's Sunset Boulevard*. She adored reading, and would've gone to hell to know all day every day if her mother had let her. Christine became worried about the cult-like intensity of her daughter's ballet teacher, so enrolled her in hip-hop dance classes instead.

Gerwig's biography will sound familiar to you if you've ever seen *Lady Bird* – she wore many of her early experiences into the script, from spending her teenage years in a post-9/11

OPPOSITE BOTTOM

Sacramento, the idiosyncrasy of her Catholic high school, to her desire to escape the West Coast for college. She even revealed that she had her first kiss with a boy who eventually came out as gay – an experience *Lady Bird* has with Danny (Lucas Hedges).

But Gerwig is adamant that *Lady Bird* is not as all like herself at that age. Though she did have something on with her mother, Gerwig was much more of a rule-follower at school, and she's admitted that *Lady Bird* is a heavier story, a girl who was more wildly herself than Gerwig ever was.

which Gerwig first saw at the age of five. Growing up, her biggest celebrity crush was not Greta Kelly, which was what she was apart from her friends, though like every 9th girl she also loved Leonardo DiCaprio.

Her imagination was sparked, and she discovered other classic Hollywood musicals like *Star 80* or *St. Louis* (1944), *The American in Paris* (1951), *Goldwyn* (1955) and the films of tap-dancing screen legend Fred Astaire.

Rather than developing a passion for film, she initially aspired to be a ballet dancer or musical theatre performer. This was probably also thanks to occasionally accompanying her father on business trips to New York and London and being taken to Andrew Lloyd Webber's stage musicals. And yet the Hollywood musical would also come to be an enormous influence on her later film work, most especially the dreamworld of *Barbie*.

Gotta Dance!

Some of Gerwig's earliest and most meaningful experiences with film involved musicals. As a very small child she was taken to a screening of *The Muppet Take Manhattan* (1984) where she ran to the front of the cinema and tried to climb into the screen – she has said she's been trying to immerse herself in these fictional worlds ever since.

Her favourite film to this day is *Singin' in the Rain* – the genuinely iconic Technicolor spectacular released in 1952

"I wanna go where culture is!"

Like *Lady Bird*, Gerwig dreamed of attending college on the East Coast and wanted to study musical theatre. But she quickly stalled: she was rejected from every acting college course she applied for, and her parents weren't wild about her pursuing something so impractical for such high tuition fees.

14

She eventually graduated from Barnard College at Columbia University in New York City with a degree in English and philosophy, but didn't abandon her love of the stage. She performed in an improv comedy group with future comedian, actress and *Saturday Night Live* cast member Kate McKinnon. Twenty years later, Gerwig would offer McKinnon the role of *Weird Barbie*, remembering the madcap musicals the pair devised together in college. It was also during her college years that she first discovered film as an art form.

Having graduated, Gerwig's plan was to gain a master's degree in playwriting, but again she was rejected from all the programs she applied for. Though she was dismissed by the academic side of the arts, she didn't give up. Like many of her heroines, she would follow her path in her own way, with tenacity and sheer force of talent.

Icons of Cinema: Wes Anderson

A celebration of the iconic movie director behind *The Grand Budapest Hotel* and *Moonrise Kingdom*.

- Written by Emily Maskell, author of **Icons of Cinema: Baz Luhrmann** and freelance film critic who has written for BBC Culture, GQ, W Mag and more.
- Illustrated with full colour photographs including events and movie stills.
- Will publish simultaneously with **Icons of Cinema: Greta Gerwig**.
- With home streaming services expanding and multiplying at an incredible rate, as well as the Barbenheimer Effect of 2023, there is a renewed interest in film and cinema.

Icons of Cinema: Wes Anderson

The Eccentric Filmmaker

Anderson was born on May 1st, 1969, to a mother who was a realist and archaeologist and a father who worked in advertising. Raised in Houston, Texas, he is the second of three boys, sandwiched between older brother physician Mel and younger brother Eric, an artist whose paintings have featured in Anderson's films.

His love of cinema began with a childhood obsession with Star Wars and developed into making short films with his father's Super 8 film camera. Then, when Anderson was eight, his family life was shaken up by his parents' divorce. Anderson regards this as a crucial childhood event that profoundly impacted him. At school, a teacher spotted

his potential and allowed Anderson to channel his energy into putting on plays for the class. This creative outlet set the stage for the close but subtle relationship between Anderson's life and artistic endeavours.

Anderson may not have gone to film school – he studied philosophy at the University of Texas at Austin, which explains his fascination with the human psyche – but he is a student of cinema. He is a self-educated cinephile who spent his youth watching films created by arthouse directors and Hollywood greats. Discovering the likes of François Truffaut, Sergio Leone, Jean Renoir and Orson Welles would inform his filmmaking style. Anderson carried forward these cinematic lessons and has remarked that each of his films includes a mosaic of cinematic references.

Anderson's Cinematic Universe

The Anderson cinematic universe is an expansive array of tales from underground to out to sea, close to home to outer space, told via live-action and stop-motion. To date, Anderson has made 11 feature films and 10 shorts.

Anderson's feature debut was the crime comedy *Rushmore* (1999), an adaptation of his short film of the same name. Anderson's sophomore feature followed, the more cult classic *10 Things I Hate About You* (1999), which earned him his first major award nomination: a Golden Globe.

10

Entering the 2000s, Anderson's faithful comedy drama *The Royal Tenenbaums* (2001) led to his first Academy Award nomination. *The Life Aquatic with Steve Zissou* (2004) took the director deep underwater, while *The Darjeeling Limited* (2007) took him to India on a sleeper train.

Then, the director swapped humans for progress in his stop-motion animation *Fantasia 2000* (2000), based on the Roald Dahl novel of the same name.

11

Anderson's seventh film was *Moonrise Kingdom* (2012), a story about a boy's first experience of love. Then came *The Grand Budapest Hotel* (2014). Anderson's greatest commercial and critical success, rewarded for its pared aesthetic and symmetrical cinematography.

He revisited stop-motion with *Isle of Dogs* (2018), once again exploring the inner lives of anthropomorphic animals. *The French Dispatch* (2021) followed as a love letter to journalism. With *Don't Look Up* (2021), Anderson introduces extraterrestrials to a Junior Stanger and Space Cadet convention.

Most recently, Anderson's *The Wonderful Story of Henry Sugar* and *Tvst New* (2024), an adaptation of two of Dahl's short stories, was released on Netflix.

12

OPPOSITE: Anderson directing *Moonrise Kingdom*

ABOVE TOP: Anderson directing *The Grand Budapest Hotel*

13

What makes an Anderson film?

Anderson's filmic canon transcends easy categorisation, but the director's cinematic identity of surreal whimsy, off-the-wall humour and idiosyncratic thematics is distinctly Andersonian. Anderson is renowned for his directorial hallmarks, including symmetrical frames, sherbet colour composition, stylish camera movement and unrelenting attention to mise-en-scène detail. These quintessentially Andersonian nuances have been present from the outset of the homegrown auteur's career and continue to be essential to his storytelling.

14

As well as his distinct visuals, Anderson's films are united thematically. He has carved out a distinct tone of quirky comedy and poignant drama. His original filmmaking voice repeatedly tackles themes of brotherhood rivalry, dysfunctional families and troubled adolescents. All his films operate in a realm of heightened realism where storybook motifs (vignettes and stories within stories) are layered. These tales often play out with characters experiencing intense breakdowns and breakthroughs as they transform, yet remain unresolved. Very rarely are these stories tied up with a neat bow.

OPPOSITE: Anderson directing *Moonrise Kingdom*

Street Style: Dr. Martens

Visual history of the iconic street style brand.

- Illustrated with full colour photographs showcasing the brand's history.
- Cover finishes: mat lam and foil.
- Written by Jian DeLeon, the editorial director for Highsnobiety. Jian is an expert on the intersection of streetwear, sneakers and luxury fashion. He co-hosts 'The Dropcast', Highsnobiety's weekly news podcast,

Street Style: Dr. Martens

The original pair of Dr. Martens' AirWair shoes were still a far cry from the instantly recognisable models the brand is known for today. The uppers were much more minimal in decoration and the soles were much wider with a very visible contrast thanks to a lighter coloured sole.

The first mass produced designs have more in common with a modern-day hybrid dress shoe than the sleek, utilitarian shapes of popular Dr. Martens styles, now set atop a semi-transparent lug sole. Perhaps the unintentionally fashion-forward aesthetic is one of the reasons why women gravitated towards them long before most conservatively-dressed men did. It's hard to imagine one trying to pull these off within the strict dress codes of the 1950s, when leather-soled, dark hard bottom footwear was still the norm for doing business. But looking back now, it set the perfect stage for what Dr. Martens would become: the ultimate anti-dress shoe.

LEFT: A modern pair of Dr. Martens 1460 boots.

The Birth of Bouncing Soles

Now that you've briefly had a glimpse at Dr. Martens' future, it's time to rediscover the past. How did a German town-based business so distinctively British? That story begins in 1901. A man named Benjamin Griggs and his business partner, Ephraim Jones began a company to manufacture boots in Wollaston, north Northamptonshire. By 1901, they had incorporated as R. Griggs & Co. Ltd., eventually becoming the R. Griggs Group.

In just a couple of decades, Wollaston had become one of England's shoemaking capitals. As early as 1881, one of its shoe factories was established as a workers' co-operative of local cobbleries (incidentally 'The Buffers'), and it was even today as the Northamptonshire Productive Society, still making shoes as 1920s, where it manufactures many well-known high-end footwear brands.

But the R. Griggs Group continued to flourish well into the 1950s under the leadership of Bill Griggs, who inherited the family business around that time. His fortune would grow even more when he decided to take a risk in 1959. Backing on the success of their fledgling footwear business, Dr. Klaus Martens and Dr. Robert Fark began soliciting advertisements for Dr. Martens' AirWair shoes in international magazines. Griggs saw the fit in this innovative air-cushioned sole by two German doctors and instantly recognised its potential. After

all, having grown up in factories his whole life, he understood the need for sturdy, robust work boots, but also knew how uncomfortable they could be.

Ironically, the rest of his family disagreed with his foresight, seeing the air-cushioned sole as a gimmick, the kind of fad in the past that would fade out over time while leather-soled boots would be around forever. But he treated his intuition and went ahead to meet with Dr. Martens and Dr. Fark, later developing a rapport with them and taking the exclusive licence for their AirWair-soled shoes in the United Kingdom.

ABOVE: Bill Griggs, longtime owner of the R. Griggs Group that went on to own all of Dr. Martens.

Mod Squad

One of the most prominent British music subcultures to arise in the 1960s and early 1960s was the Mod subculture – or 'Mod' for short. Musical taste was just one part of the complete lifestyle. Mods were dressed with clean-cut fashion pieces like polo shirts, suit jackets and military issue M-51 field jackets, especially ones embellished with the signature roundel of the Royal Air Force. It was a subculture focused on executing everything with intention – the hair you had, the clothes you wore, the music you listened to and the scooter you drove.

As avid fans of The Who, it's no surprise that Dr. Martens became an inimitable part of Mod's uniform. The sleek lines of the boots looked good with suits and usually complemented the minimalist style of the subculture and could also be worn on the Mod vehicle of choice: the Vespa scooter.

RIGHT: Two scooter-riding mods take a breather outside Haringey's Alexandra Road in 1965.

The Spring Behind Every Step

It's hard to believe that an orthopaedic shoe could be synonymous with rebellious style around the world. Yet that is what the Dr. Martens brand continues to represent to millions of its ardent fans.

It can be challenging to maintain one's cool factor over the decades, but by intentionally aligning itself with subcultural style, the nearly octogenarian footwear manufacturer hasn't lost a single step when it comes to cultivating an alternative type of timeless footwear. Considering the United Kingdom also has a rich history of fine Savile Row tailoring, Scottish wools and ruggedly elegant Harris Tweeds, fashion houses like Burberry and tastefully tough outerwear from brands like Barbour, Dr. Martens is singular in that canon of classic British style. Indeed, Dr. Martens is a staunch iconoclast, a bastion of anti-establishment ideals for people who prefer to dress against the grain.

But despite the modern connotation of what Dr. Martens has become, its roots are built on a comfortable foundation. Dr. Klaus Martens first conceived of the footwear's signature 'AirWair' sole while recuperating from a World War II foot injury.

Finding his standard-issue German Army boot severely uncomfortable for his ailing foot, he utilised soft leather for

the upper and repurposed tyre rubbers to create an air-padded sole. The resulting shoe is equal parts built to last and equal parts built to live in. It's no wonder that punk rockers and hip-hop artists alike have graced thousands of stages in a pair of Dr. Martens over the years – it's a shoe made for those who live out loud. The story of how a purpose-driven product came to define one of today's most exciting lifestyle brands is one that spans a growing connection between clothing and culture. When you combine a timeless product with a chameleon-like ability to mean different things to different people, you get a shoe that is undeniably trend-proof.

Street Style: Nike

Visual history of the iconic street style brand.

- Illustrated with full colour photographs showcasing the brand's history.
- Cover finishes: mat lam and foil.
- Written by sneaker connoisseur Gerald Flores. With over a decade of journalistic experience, Gerald is fascinated by the people, designers and stories behind sneakers. He has interviewed personalities including Kobe Bryant, Tinker Hatfield and Virgil Abloh.

Street Style: Nike

Nike's terms included \$500,000 in cash for five years, an endorsement figure that was unprecedented in that era. The highest sneaker endorsement before 1984 was New Balance's deal with the Los Angeles Lakers' Larry Nystrom for \$150,000 a year for eight years. Other perks offered to Jordan included stock options and a custom-built shoe for the basketball player to play in.

There were some stipulations, however. Nike wrote a clause in the initial contract that required Jordan to accomplish one of three things - win NBA Rookie of the Year, to become an All-Star, or to average 20 points per game within his first three years. If Jordan didn't, Nike reserved the right to end the deal two years early.

By the time Jordan's first year in the NBA ended, he averaged 28 points per game after playing every game of the season. Not only did he win Rookie of the Year honors during the 1984-85 season, but the rising star became the darling of the League with his acrobatic style of play that made the name of his signature Nike shoe synonymous with Jordan.

Nike made over \$500 million in revenue thanks to the sale of Air Jordans by the end of that first year - a new industry standard for how trends would market, design and storytelling through signature products was set.

43

Max Blackman's marketing campaign still made way for new icons to step in to advertise the Air Jordan 7. Bugs Bunny and the Looney Tunes. Among the number three Jordan, Bugs joined Jordan for a series of memorable commercials and print ads promoting the Air Jordan 7. One notable iteration of the shoe was a white-based colorway nicknamed 'Hare', paying homage to Bugs' involvement.

The Air Jordan 7 gained even more mainstream exposure when Jordan showcased the 'Bordeaux' colorway in Michael Jackson's music video for 'Just'. This collaboration between the two biggest cultural icons of their time further solidified the Air Jordan 7's place in sneaker and pop culture history.

ABOVE: The Nike Air Jordan 7 sneakers, which were released in 1992, were the first Jordan 7 sneakers to feature the 'Hare' colorway. Bugs Bunny also appeared in an original commercial for the shoe in an animated form.

OPPOSITE: Michael Jordan wearing the 'Bordeaux' colorway of the Air Jordan 7 sneakers during a game. The sneakers, which were released in 1992, were the first Jordan 7 sneakers to feature the 'Bordeaux' colorway.

44

Nike Air Max 180

The Nike Air Max 180 was a collaborative effort between two giants in the footwear design industry: Timberland and Bruce Kilgore. At the time of its creation in 1991, Timberland was renowned for his groundbreaking work on previous Air Max models, pushing the boundaries of sneaker design and technology. Meanwhile, Kilgore had achieved legendary status for his iconic creation, the Air Force 1. Together, they set out to make Air Max bigger and better than it had ever been.

The duo's goal for the shoe was to once again make Nike's patented Air technology larger and more visible than it had ever been. To achieve this, they based it on a horseshoe concept for the Air unit, which allowed for increased visibility along the sides and underfoot of the shoe. They utilized a time-molding process to create a version of the bag that provided maximum visibility and impact absorption. Moreover, the Air 180 was the first shoe to feature a swoosh on the outside midsole.

directly to the Air unit, further enhancing its visibility and performance capabilities. The heightened visibility of the Air technology directly inspired the name Air 180.

During a period when Michael Jordan's endorsement could significantly impact any product, he was photographed wearing a pair of Nike Air 180s in the 'Concord' colorway for a photo shoot preceding the 1992 Olympics. This high-profile shoot provided the Air 180 model with exposure to a wider audience and bolstered its mainstream appeal.

While the Nike Air 180 didn't initially receive the same level of fanfare as its contemporaries, its significance and appreciation have grown considerably over the years. As time has passed, the Air 180 has emerged as a standout and essential release within the Nike Air Max series.

OPPOSITE: The Nike Air Max 180 in original colorway of white, charcoal and red.

LEFT: Designer and former Nike collaborator Sean Watters posing with the Nike Air Max 180 in 2005.

'Well, I don't love it,' Knight was heard saying upon the first review. 'But it will grow on me.'

The Swoosh definitely grew on Knight as the shape also bore a resemblance to the wings on the Greek goddess that Nike was named after. It would go on to become one of the most well-known logos in the world.

While Davidson was initially paid just \$35 for her design, Knight saw her as one of the original minds behind the brand and wanted to acknowledge this. In 1983, the founder rewarded Davidson with 500 shares of Nike, as well as a golden ring

20

with a Swoosh-shaped diamond, which is possibly the biggest remuneration for any logo design in history.

The marking is such a part of Nike culture that every new athlete that signs with the brand is tasked to draw their own version of the Swoosh. There have been different evolutions of the Swoosh and you can see the various iterations if you look through Nike's back-catalogue of products. Designer and Nike collaborator Virgil Abloh nodded to Davidson's original Swoosh design on the cover of his book *Something's Off* and the marking has been reversed on signature product for eccentric players, like Dennis Rodman's Air Darwin sneaker. But the essence of the Swoosh remains in its simplicity, its elegance and the way it represents movement.

OPPOSITE: Gianni Antetokounmpo's first signature sneaker implemented its performance features in the midsole in the shape of a reverse Nike Swoosh.

ABOVE: A lightning bolt effect on the Nike Swoosh printed on a pair of track spikes.

Building Bonds

Learn to navigate relationships

- Hardback book with matt lamination and spot UV cover finishes.
- London based author Zoë Aston has an MSc in Psychology and Counselling and is a registered and accredited member of the BACP (British Association of Counselling and Psychotherapy).
- An accessible and easy-to-follow guide to building healthy relationships in your life, with a focus on a range of different relationships including romantic, friendship, family and professional.
- Includes practical advice, reflective activities and a toolkit of techniques that can be implemented in every day life.

Building Bonds

BUILDING BONDS

Transcendent hope: When hope is part of your daily being and personality. It's a general feeling of optimism and hopefulness about the future. For example, living by the following mantras: 'This too shall pass' and 'One day at a time'.

If you do not identify with any of these definitions of hope, ask yourself the following:

- Is there anyone in your life who you view as hopeful?
- What do you like about the way they express hope about things?
- Can you imagine yourself borrowing a bit of their hope for a while?

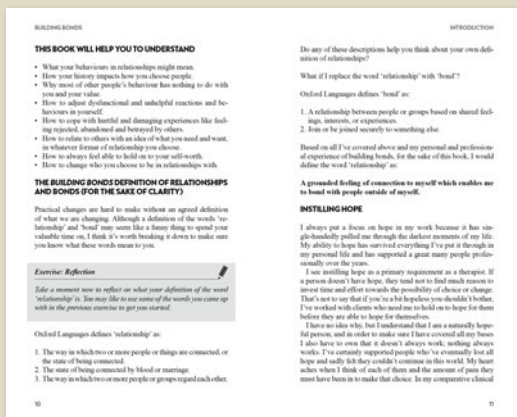

If life feels hopeless a lot of the time, it is a good idea to speak to a therapist or mental health professional. You will find ways of contacting mental health professionals on pages 225-226.

HOW TO USE THIS BOOK

This book is split into six chapters. Chapter One ('Self') looks at your relationship with yourself. Chapter Two is a short chapter which provides essential information about boundaries, wants and needs and attachment styles. Chapter Three focuses on Family Relationships. Chapter Four covers Friendships. Chapter Five looks at Romantic Relationships and dating. Chapter Six is all about Workplace Relationships and Chapter Seven explores On-line and Digital Relationships.

Each main chapter starts with a reflective statement for you to ponder, before providing an in-depth exploration of each type of relationship and several practical exercises. I've structured the information offered to reflect the developmental process of each relationship and the different choices that can be made along the way, and why.

For example: how it begins, what the journey of that relationship generally looks like throughout your lifespan, and the effect that your choices can have on you, both positive and negative. We

INTRODUCTION

will also focus on how to work with difficulties and differences which will include resolving conflict and how to communicate more effectively, as well as support to help you move on from relationships that no longer serve you, should you choose to.

The chapters and indeed the subtitled sections, stand alone in their own right so you can read them in any order and refer to them at any time. I do urge you to read the information in the order I have written it as the book builds on itself. However, if you do choose to read things out of order, I have cross-referenced as much as possible so you can read the connecting information.

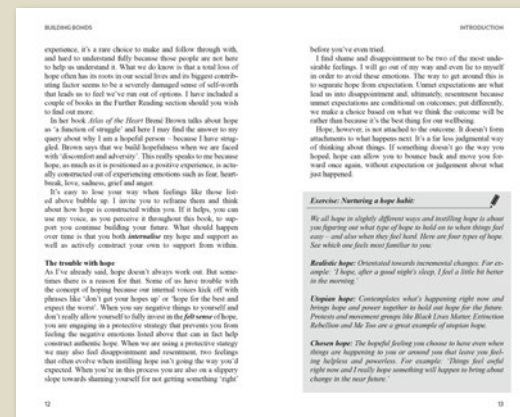

We are going to cover a lot of ground and it's likely that not everything will apply to you right now... At the very end of each chapter is a summary which includes the main messages we've covered. Reading this will help you condense the information so you can come back to it when you feel it is more relevant to you and your life.

It's to be expected, when you are reading about relationships, that you start to think of the people in your life who 'should' know, read, understand or reflect on the same messages. In my experience, it is *impossible* to get someone to read a book if they don't want to. BUT you might just be able to get them to take 60 seconds to read the summary and then, maybe you can share what you learned with them verbally. If they will not even read the summary in their own time, read it to them and see if it sparks any interest. If that's not realistic, do yourself a favour and let it go – focus on yourself.

At the back of the book, you'll find further reading lists and web links for each chapter, as well as guidance on contacting mental health professionals and support teams. On pages 228-232 you will also find a glossary of terms. If I have not defined a term within the main text of the book, the first use of each defined term will appear as **bold italic** text and be defined in the glossary. If you don't know what something means, please read the definition as it'll support your understanding of the content.

Before we get started I need you to know that...

In relationships, and pretty much all of life, there are two types

Disney Dreamlight Valley

Official companion to the bestselling game.

- A mere ten days after its release in 2022, Disney Dreamlight Valley had attracted over one million players globally. As of July 2024 it has six million players.
- Dreamlight Valley was awarded Best Early Access Game by PC Gamer in 2022.
- 'Ridiculously hard to put down' - IGN
- Dreamlight Valley can be played on Nintendo Switch, PlayStation 4, Playstation 5, Windows, Xbox One, Xbox Series X/S and macOS. You can also play the Arcade Edition via Apple Arcade.
- Gameloft has released a 2024 Content Roadmap for Disney Dreamlight Valley, outlining exciting updates and additions to the game over the next twelve months. The game will continue to evolve, attracting new players as well as ensuring long-time players' attention is retained.

Disney Dreamlight Valley

ETERNITY ISLE BIOMES

Eternity Isle is a truly fascinating place, full of ancient wonders. It's home to three additional biomes, with twelve distinct regions, but these require Mist to unlock, rather than Dreamlight. Here's what you can expect to find in each region.

ANCIENTS' LANDING

Upon arrival at Eternity Isle, you'll find yourself in Ancient's Landing – a mysterious set of ruins that appear to be very old indeed. The Docks show evidence of market activity, and are a great spot for fishing. The Marketplace is a small, enclosed area with a narrow passage to a tiny beach complete with Treadwater Table. The Overlook boasts fantastic views of the ocean, with some ancient ruins of its in the distance – perhaps the area was once used as a lookout post. The Ruins are all that remains of an ancient castle. Largely unused by nature, there's a small courtyard and a staircase leading to a balcony with a magnificent view of the surrounding landscape.

36

GLITTERING DUNES

The vast Glittering Dunes are a vast area of desert with little in the way of plant life and evidence of ancient civilisation. The Ruins is a wide expanse of flat ground with the remains of some ancient sandstone archways and steps. The Bunkers are at the end of a hill leading up to the Palace, and are left across two levels. The Villages show signs of previous habitation – there's a dispensary partially buried in the sand, and it's home to the Chief of Villagers, too. The Oasis is a rare, lush area within the desert landscape – it's covered in grass and flowers.

WILD TANGLE

The Wild Tangle is the most remote of the Glittering Dunes. Within the Dunes are barren and arid, the Wild Tangle is lush, verdant and teeming with all sorts of life. The Greenhouse is the area of the island, with a river running through the center. The Promenade is a small, enclosed area with a narrow passage to a tiny beach complete with Treadwater Table. The Overlook boasts fantastic views of the ocean, with some ancient ruins of its in the distance – perhaps the area was once used as a lookout post. The Ruins are all that remains of an ancient castle. Largely unused by nature, there's a small courtyard and a staircase leading to a balcony with a magnificent view of the surrounding landscape.

MULAN

Mulan is a warrior princess and the hero who saved China. She believes in honour, discipline and strength. While training with the army she learned that discipline is the foundation of all skill and that you can learn to do almost anything with practice and determination.

DEVELOPER NOTE

Working on Mulan's wardrobe was a labor of love for our team. We wanted to make sure she looked like a warrior princess, but also like a woman who's seen the world. We spent a lot of time getting just right.

MERMAID BEACH

True to its name, Mermaid Beach is a beautiful stretch of beach that helps her to feel as if she's at home on land as she does in the ocean.

A princess like Ariel deserves a stretch of beach that helps her to feel as if she's at home on land as she does in the ocean.

THE BASICS

Before you begin your adventure, it's a good idea to familiarise yourself with how Dreamlight Valley works – there are lots of ways to play, get creative and share the fun with friends.

HOW TO PLAY

You can play Dreamlight Valley on PC, Mac, Xbox, Nintendo Switch and PlayStation. You can also play the Arcade Edition on Apple Arcade.

Dreamlight Valley lets you choose what kind of adventure you want to have each day. You might want to focus on completing quests to level up your friendships, or you may prefer to get creative and focus on designing your Valley and decorating your house.

Friendship is important in Dreamlight Valley, so naturally there's a Multiplayer option. You'll be able to invite your friends to visit your valley – and visit theirs – once you've completed Vanellope von Schweetz's quest, Valley Visits.

And there's more – a paid expansion pack called A Rift in Time is available, opening up a whole new island of exotic biomes, rare plants and materials and even some new friends.

10

THIS IS YOU

The first thing you'll do when you start your game is design your avatar. This is your opportunity to express your individuality, and there's loads of scope to be creative. The avatar you'll see throughout this guide is based on the author, so here are just a few other avatar designs to inspire you.

Disney Affirmations

I am open to feeling
all my emotions.

★

Embrace life's balance
of beauty and ugliness,
happiness and pain.
Without sadness, there
would be no joy. Every
experience is a part
of who we are.

I am excited for
my future.

★

The best things happen
unexpectedly. Letting life
surprise you is the secret to
a happy existence.

I am a miracle.

★

You are important to
yourself and to those who
you are closest to. Shine and
help others shine too. Your
existence is miraculous.

I am flexible and
open to change.

★

However much we try to
resist, things in life will keep
changing. Embrace the new
opportunities, adapt and
remember: if you want to
change the world, you also
have to change with
the world.

- Features original imagery from the Disney Archives and Animation Research Library documenting the company's history
- Covers everything from the Golden Age of animation and original shorts to live action films and Disney+

LONG LIVE THE KING

The last King (1994) is a coming-of-age story about a lion cub, Simba, who goes on a journey of discovery after the death of his father, King Mufasa. According to Jeffrey Katzenberg, then chairman of The Walt Disney Studios, the film is about "the universal concept of going from being a child to an adult and how you can be responsible for your own life."

The film's success led to a sequel, *The Lion King II: Simba's Pride*, which was released in 1997. The sequel was a commercial success, but it was not as well-received as the original. The film was a commercial success, but it was not as well-received as the original.

There is an insidious, confident way at the beginning of the film, and because music is so central to the story, it is a responsibility. The artist walked with the music and the music walked with him. The music is a responsibility. The artist walked with the music and the music walked with him. The music is a responsibility. The artist walked with the music and the music walked with him.

THE FROZEN PHENOMENON

In 2013, Disney Animation introduced the world to Anna and Elsa - the sisters of Arendelle. In these films, the musical and the story are intertwined. The music is a responsibility. The artist walked with the music and the music walked with him. The music is a responsibility. The artist walked with the music and the music walked with him.

SWASHBUCKLING PIRATES

In 1950, a Disney animation inspired by Edward R. Royce, California, that would inspire one of the most successful series in the history of The Walt Disney Studios. Pirates of the Caribbean, with Jack Sparrow as the captain of the Black Pearl, is a series of films that have become a franchise.

BELOVED CHARACTERS

Literary classics provided strong source material for a number of Disney films. *Alice in Wonderland* (1951) is Disney's version of Lewis Carroll children's novel; *Alice's Adventures in Wonderland* and *Through the Looking Glass*, and *What Alice Found There*. The books had fascinated Walt Disney since childhood. In the 1920s, they had loosely inspired his part animated, part live-action *Alice Comedies* and since then he had bought the film rights to the novel. Disney concept artist and colourist Mary Blair created exuberant, fantastical production artwork that inspired the look of the film. Music and songs hold the film's sequences together and propel the story along - the film features more songs than any other Disney film at the time. One of the film's most extravagant scenes, the Mad Hatter's tea party, was initially filmed in live-action to provide an aid to animators. Vaudeville actor Ed Wynn played the Mad Hatter and Wynn's extemporized voice track was so inspired it was used for the final film.

In 1913, Walt had seen a touring production of J.M. Barrie's stage play *Peter Pan* and, inspired by its combination of fantasy and swashbuckling adventure, acquired the film rights in 1939. As with *Alice in Wonderland*, Mary Blair created the signature production art for the film. Live-action footage was shot for the animators' reference, with the voice actors performing their roles. Meanwhile, the magic of Disney animation made the characters fly - Peter Pan even engages dastardly Captain Hook in mid-air sword fights. Tinker Bell, often represented merely as a spotlight in stage versions, became a fully realized character using actor Margaret Kerry and others, as her live-action model. Released in 1953, after nearly two decades of work and thousands of drawings, *Peter Pan* was an immediate success and has remained a beloved Disney classic.

Literary works have remained a source of inspiration. *The Sword in the Stone* (1963), a whimsical adaptation of T.H. White's novel about the Arthurian legends, was the first Disney animated feature film to include songs by the Sherman Brothers, who would later work on *Mary Poppins* (1964), *The Jungle Book* (1967) and many others. *The Rescuers* (1977), a tale of an international rescue organization run by mice, was based on a book series by English author Margery Sharp. Cruella De Vil nearly became the main villain in the film, but in the end the animation team created the fiery tempered, diamond-obsessed pawn shop owner Madame Medusa. Some classic tales are updated in inventive new ways: *Treasure Planet* (2002) is a version of Robert Louis Stevenson's 1883 novel *Treasure Island* set in outer space!

KEY TO PLATE

1: Tea Party production art
As a concept artist and art director, Mary Blair's imaginatively reimagined version of the Mad Hatter's tea party directly influenced the final look of the film.

2: Peter Pan and friends
Traditionally a female stage or film, Peter Pan's character of Peter Pan, Disney's film broke with that tradition with Peter Pan depicted unequivocally as a boy voiced by a male actor (the young Billy Crystal). Production art in gouache and graphite by Mary Blair.

3: Character designs
Early character designs by Ken Anderson for *Peter Pan* and *The Rescuers*. The film was a box office hit and became the first Disney animated feature film to earn a sequel, *The Rescuers Down Under* (released in 1990).

COSMIC RAYS!

JACK KIRBY

If there is a signature look that defined Marvel comics in the 1960s, it comes from Jack Kirby. While other artists made huge contributions to Marvel, there is only one creator who was given the nickname "King".

Jack Kirby was five years older than Stan Lee, and like Stan he was a New Yorker born to Jewish parents. Born Jacob Kurtzberg, he never took any formal art lessons, taking inspiration from any comic strips that he could find. He worked on newspaper comic strips, and after a brief stint in animation moved to monthly comics. Jacob Kurtzberg dabbled with a few pen names such as Curt Davis, Ted Grey and Lance Kirby before eventually arriving at Jack Kirby. Jack joined Timely Comics in 1940, where he created Captain America with Joe Simon, which became one of the decade's biggest hits.

Jack met Roz Goldstein in 1941. They married in 1942 but, a year later Jack was drafted into the army. During World War II Jack served in the Infantry, and because of his art skills he was often sent as a scout behind enemy lines to draw maps and enemy positions. He used what he saw in the war in his comics, and that is perhaps part of the reason that his action scenes are so realistic, but also feel so dangerous.

After the war Jack worked for a number of different comic book companies, partnering with Joe Simon in different genres. Jack worked on *Young Romance* for Prize Comics, a comic which promised "all true love stories" on the cover – this was the first romance comic and is often credited with creating a whole new genre. He eventually returned to working for Timely (which was now Atlas Comics), working on supernatural and science fiction; his speciality was stories where giant monsters attacked helpless cities.

Jack's incredible work ethic and levels of productivity meant that he

was a legend in the comics industry. He would work for 12 to 14 hours a day in his house in Long Island, producing four to five pages of exciting and dynamic comic artwork every day, while some artists struggled to complete one. Kirby's prolific page rate meant that he could pencil several comics every month, giving the early Marvel comics' line a style of its own.

Marvel wouldn't be Marvel without Jack Kirby. He created so much of the look, the feel and the emotion of early Marvel heroes that it is impossible to imagine the current age of super heroes without him. Kirby's heroes are natural and completely stylised at the same time – they are gods with human problems.

Puzzle 3 ARIEL'S SUDOKU SECRET

Fill in the grid so that each row, column and 2x2 box contains the numbers 1, 2, 3 and 4 once only. The highlighted number reveals how many friends Ariel is going on holiday with!

Puzzle 4 TOULOUSE IN TIME?

It's getting late and Madame Bonfamille wants to get Toulouse and his siblings home in time for tea and a painting session after their day out. They are 10 kilometres from home and the carriage travels at 20 kilometres per hour. It is 5:40, will they get home in time for tea at 6?

Use this space if you need to work it out on paper.

Puzzle 5 ABUELA'S HOUSE INSPECTION

Abuela Alma needs to step into every room of the Madrigal family house, she wants to make sure everything is clean and tidy before the party can begin. To solve this puzzle you must start at square 1 of the grid and make your way to square 16. You can jump over squares, but you have to follow the direction of the arrows and you may only go through each square once, so plan your route carefully!

Puzzle 6 FIND NEMO'S HOME!

Fill in a word on each rung of this word ladder to take Nemo from LOST to HOME.

To solve this puzzle, you can only change one letter at a time, and each rung must contain a proper word.

Disney Brain Games

Puzzle 1 THE MISSING NOTE

Hector and Miguel share a passion for music, so they spend a lot of time singing and playing music together. They are rehearsing a song, but have encountered a problem – the song is missing the last note.

Find the path that connects the two singers, and discover which note is missing!

Cross off the notes in this list as you go:

C D E F G A B

The missing note is: _____

Puzzle 2 HERCULES AND THE HYDRA

Hercules is battling the terrible monster Hydra in the cave where it dwells. At the start of the battle, Hydra has only one head, but each time Hercules cuts a head off, three grow in its place. He has already cut off twelve heads.

How many heads does Hydra have now?

Heads in total: _____

Use the space if you need to work it out on paper.

Puzzle 3 I'M LATE, I'M LATE!

It's always "late" for the White Rabbit, and he's always checking his giant watch! Right now, it's 5:00 pm. The White Rabbit's next appointment is in 100 hours' time, but he is already worried about being late.

1. How many days is it until his appointment? _____

2. What time will it be at? _____

Use the space if you need to work it out on paper.

Puzzle 4 MEMORY SEQUENCE

During a test, Anger got into a fight with Fear, and that messed up Riley's memories. Luckily, Joy has a solution!

Start from memory 0 and plot the right path. Remember: each memory is equal to the sum of the two previous ones!

Use the space if you need to work it out on paper.

Puzzle 5 THE GREAT RUG RACE

Woody has come up with a great idea to have fun with his toy friends: a rug race! But just after they cross the finish line, the toys hear Bonnie and they freeze.

Can you work out the order they finished in?

Bear in mind that:

Woody finished two places before Buzz	Hamm finished right after Woody	Buzz finished two places before Rex	Rex finished last
---------------------------------------	---------------------------------	-------------------------------------	-------------------

Use this space if you need to work it out on paper.

Marvel Brain Games

100 exciting Marvel puzzles to exercise young minds!

- 100 puzzles across themes of word, logic, maths/number, memory and more.
- Join your favourite Marvel characters such as Ant-Man, Shuri, Captain America and many more as you complete the challenges.
- Features characters from across Marvel comics including heroes, villains and agents!
- With varied and challenging puzzles with different levels of difficulty, there's enough puzzles to keep bright minds entertained.
- Marvel has 4 of the 10 biggest movies of all time (*Avengers*, *Avengers Endgame*, *Avengers Infinity War*, *Spider-Man No Way Home*).

Marvel Brain Games

**PUZZLE 1
SPEED TEST**

Using the clues below, can you work out – in 30 seconds or less – the identities of these four comic characters?

- Red – Twin brother – Telekinetic
- Artificial Intelligence – Robot – Hank Pym
- Radiation – Web – Peter Parker
- Spy – S.H.I.E.L.D. – Black

**PUZZLE 2
ANT-MAZE**

To escape from prison, Scott Lang needs to activate his suit and reduce himself to the size of an ant. He still needs to find the way out of the maze though... can you help him plot a path to freedom?

**PUZZLE 3
WHO AM I?**

One of Black Panther's entourage has gone missing. Can you work out who it is from the letter clues below? We've filled in a few letters to get you started.

Can you work out who it is from the letter clues below?

The right letter in the right place looks like this: **O** **R**

And if the letter is not in the word it looks like this: **A**

Grid of letters:

G	R	A	S	P
P	I	V	O	T
C	H	A	S	M
P	O	U	N	D
S	H	A	R	P

**PUZZLE 4
IN THE SHADOWS**

Only one of these shadows is an exact match for Captain America. But which one is it?

**PUZZLE 5
LAB WORK**

Bruce Banner is hard at work on a formula in the lab. Can you help him calculate the final formula by filling in all the blanks? The number in each circle must be the sum of the two numbers below.

Example:

```

    33
   / \
  17 16
 /  \ /  \
8   9 7
/ \ / \ \
5 3 6 1
    
```

**PUZZLE 6
BUILD A HERO!**

Can you pair the word parts below to create the names of five super heroes?

Word parts:

- VAL
- MAG
- SH
- CON
- GR
- NETO
- KYRIE
- FAL
- URI
- OOT

- Features a wide range of beloved Disney and Pixar characters, from Anna and Elsa to Woody and Buzz Lightyear
- Varied and challenging puzzles with different levels of difficulty to keep bright minds entertained
- Supports KS2 Maths curriculum
- Disney+ has 157.8 million paid subscribers globally, and 7.14 million paid subscribers in the UK

Disney Brain Games: Maths

Puzzle 28
EIGHT QUEENS

Mr Gao has a chess puzzle for you to solve. In chess, the queen can move any number of spaces in a straight line – horizontally, vertically or diagonally. **Place eight queens on the chess board so that no queen is in the same line as any other queen. How many different ways can you find?**

Puzzle 29
ARCHERY PRACTICE

Merida's practising her archery skills. To prove what a great archer she is, Merida must hit one number in the outer ring, one number in the inner ring and one number in the centre that add up to each of the three numbers below.

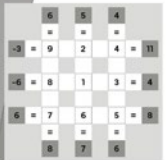

Can you figure out which three numbers she must hit to make each of the target scores?

Puzzle 39
MICKEY'S MAGICAL MIX UP!

The Sorcerer's Apprentice has accidentally knocked all of his master's Plus and Minus potions over!

Can you put the pluses and minuses back in the right places so that these sums work forwards, backwards, up and down?

Puzzle 40
...AND THE KITCHEN SINK

Every time Arthur tries to clean one of Merlin's dirty dishes, the number of dirty dishes doubles. He started with one dirty dish. Arthur has tried to clean 10 dirty dishes. **How many dirty dishes are there now?**

Puzzle 49
SOLVE THE RIDDLE OF THE CAVE!

To enter the Cave of Wonders, Aladdin must find the missing numbers in this puzzle.

Each square needs to be filled with a number between 1 and 9, but you can use numbers more than once. The functions surrounded by stars are carried out first.

So:

$$\begin{array}{ccccc} 2 & \star & 3 & + & 6 & = & 12 \\ 2 & \times & 3 & \star & 6 & = & 18 \end{array}$$

Puzzle 23
SHY COCONUTS

Some Kakamora have hidden themselves among Moana's coconut harvest. You can tell which coconuts are Kakamora in disguise, because the numbers they have stuck to them have made the questions they're hiding in incorrect.

Make the sums correct by removing 1 digit from each question.

- Cover finishes: mat lamination.

Star Wars Brain Games

PUZZLE 10 BINARY BAFFLER

Luke Skywalker needs to fix a battered old astromech. The binary start-up sequence is incomplete – can you help him fill in the blanks to get the droid working again?

You must place three '0's and three '1's into each row and column, but there cannot be more than two '0's or two '1's in sequence in any row or column.

20

PUZZLE 11 JAWA JUNK

The Jawas have found a new droid while scavenging on the desert planet Tatooine, but the identification panels have been mixed up. Each set of four panels has been rearranged – but not rotated. Can you work out what two-character identification code was originally displayed on the panels?

21

PUZZLE 43 MIND CONNECTION

Qui-Gon will help you learn to see with the Force, by changing 'MIND' into 'SEES' in just four steps. At each step you should change just one letter to make a new word, without rearranging any of the letters. For example, you could start by changing MIND to MINE (though that will lead you down the wrong path...)

70

PUZZLE 44 TIE FIGHTER SHOOT OUT

Rey and Finn are being shot at by TIE fighters and must find their way to a vehicle to escape. Answer the sums and follow the correct answers to find out which vehicle they steal.

71

PUZZLE 75 FOLLOW THE PATH

Using the letters in order from the word EMPIRE, follow the correct path to find your way through the maze.

110

PUZZLE 76 TANGLED WIRES

The door controls have been destroyed! Connect the right wires so the Mandalorian, Din Djarin, and Grogu can escape! But be warned – the door is guarded by a noisy gatekeeper droid. Avoid it at all costs!

111

PUZZLE 9 SHADOW MATCH

The galaxy is full of heroes and villains, including the daring Resistance pilot Poe Dameron and scavenger-turned-fugitive Rey. Match the character's shadows to their names.

18

1. Rey
2. Stormtrooper
3. Poe Dameron
4. BB-8
5. Captain Phasma
6. Chewbacca
7. Kylo Ren
8. Finn
