## RICH AND POOR

**THE HISTORY OF WEALTH**

Wealth is the difference in wealth between the richest and the poorest. It has been around since the beginning of time. In the early days, wealth was measured in terms of land and livestock. As time went on, it became more complex, including money, property, and even knowledge.

**WEALTH CONCENTRATION**

One of the biggest reasons for inequality is the way that wealth tends to get concentrated in the hands of a few. This is often due to the fact that those who have more wealth are able to invest it more effectively than those who do not.

**CHARLES OF INEQUALITY**

There are many reasons for wealth inequality. Some people have more skills or resources than others. Some people are born into wealth, while others are born into poverty. There are also many social and economic factors that contribute to inequality.

**WHAT'S WRONG WITH WEALTH INEQUALITY?**

When a small number of people own most of the wealth in a country, it can lead to many problems. For example, it can lead to a lack of social mobility, where people are stuck in the same economic position for generations.

## GOLDEN YEARS

**AN INTERNATIONAL SYSTEM**

In the 1920s, the gold standard was a system where the value of a country's currency was linked to the amount of gold it held. This system was used by many countries and helped to stabilize the global economy.

**THE COST OF WAR**

World War I had a massive impact on the global economy. It led to the end of the gold standard and the start of a new international system.

**THE GOLDEN YEARS**

The 1920s were a time of great economic growth and prosperity. This was due to a combination of factors, including the end of the gold standard and the start of a new international system.

## FROM COUNTERFEIT COINS TO FALSE NOTES

**ALVES dos REIS**

Alves dos Reis was a master counterfeiter who lived in Brazil. He was known for his ability to create fake money that was indistinguishable from the real thing.

**THE FIRST COUNTERFEITS**

Counterfeiting has been around since the beginning of time. In the early days, people would create fake coins or notes to use as money.

**THE FIRST COUNTERFEITS**

Counterfeiting has been around since the beginning of time. In the early days, people would create fake coins or notes to use as money.

## FINANCIAL MARKETS

At regular markets people buy and sell things like food and clothing. At financial markets, people trade money-related assets. These include stocks and bonds.

**STOCKS**

Stocks are shares in a company that the company sells to raise capital. Shareholders are paid dividends (regular sums paid out of the company's profits). Bonds are certificates issued by a government or corporation, promising to repay borrowed money at a fixed rate of interest. Financial markets can be physical places, like the New York Stock Exchange, or they can take place online.

**THE FIRST BONDS**

In the twelfth century, the government of Venice came up with a new way of raising money to fight a war. It offered its citizens certificates, known as prestiti, in exchange for a loan, promising to pay them back by a certain time, plus 5 per cent interest. These were the first government bonds.

**THE FIRST STOCKS**

Founded in 1602, the Dutch East India Company was the first company to sell shares to the public. The money it raised from this funded its voyages to the East Indies, and it paid its shareholders out of the profits from its trade in enslaved people and spices. The shares were traded in the Amsterdam Stock Exchange, also established that year.

## THE DAILY NEWS

OCTOBER 1929 NEW YORK CITY

# THE WALL STREET CRASH

**FINANCIAL MARKETS CAN BE VOLATILE.** A RUMOUR OR A MINOR PIECE OF ECONOMIC NEWS CAN CAUSE BIG SWINGS IN PRICES. THE DESIRE TO MAKE MONEY OR AVOID LOSING IT IS A POWERFUL ONE, AND A

**HERD INSTINCT CAN SOMETIMES TAKE OVER WITH PEOPLE STAMPEDING TO BUY OR SELL.** THE MOST SPECTACULAR EXAMPLE OF THIS WAS THE WALL STREET CRASH OF 1929.

**THE ROARING TWENTIES**

The 1920s was boom time in the United States. There was a spirit of optimism in the country and it became fashionable to play the stock market. Share prices soon rocketed to a point where they represented a value far greater than the total worth of their companies' assets. This was now a mania – a period when everyone, from wealthy financiers to common investors, lost touch with reality and seemed to believe that prices could keep rising forever.

**AFTER EFFECTS**

As a result of the crash, businesses were bankrupted, banks closed, millions lost their jobs and the world plunged into a deep and lasting economic depression. This had a big political impact. In Europe, extreme right-wing parties exploited the misery of mass unemployment, blaming 'foreigners' such as Jews. Germany's Nazi Party rose to power in 1933. The consequences for the world would be devastating.

**DISASTER**

The crash occurred at the end of October 1929, during three calamitous days of trading at the New York Stock Exchange on Wall Street, when huge numbers of people decided collectively it was time to sell. With so many sellers, there were few buyers, and share prices plummeted. In those three days, billions of dollars were wiped off the value of American companies. And over the following years the market kept on falling. By 1932, stocks had lost nearly 90 per cent of their pre-crash value.

# On the Money

management and planning. I'm going to tell you the truth and challenge some preconceptions.

I've been in this industry a very long time and have learned from the best. I'm not going to tell you to ask the universe for cash, invest in risky schemes or give you empty promises of becoming a millionaire.

I'm not one to sugarcoat things so let me be clear: the things I will ask you to do aren't always fun, and they aren't always (or ever) sexy but they are realistic and do-able, no matter where you are on your financial journey. You don't need a six-figure salary to have financial freedom but you do need to commit to making some changes.

If there's one thing I can promise, it's that if you do the things I suggest, you will be better with money and, therefore, you will have more of it. So buckle up!

## MONEY MYTH BUSTING

Before we get stuck in, here are some common misconceptions about money that I want you to shake off:

- If you're rubbish with money, you'll always be rubbish with money.
- You can't gain control of your finances.
- A high income automatically makes you more wealthy.
- You can only save if you earn lots of money.
- It's too late to start saving.

14

- It's normal to have a lot of debt.
- Only rich people can invest.
- Other people are doing better financially than you.
- Pensions aren't safe or are a waste of time.
- You need to have a job you love.

## ACTIVITY

After each chapter, I'm going to set an activity based on what you've learned to help you in a practical way.

Before you go any further, I want you to visualise what you want to achieve by reading this book. The more specific your goals are, the better. For example, 'I want to buy a house' is a very general goal so it will be hard to mark your progress and keep focused. Something like 'I want to save £20,000 towards a deposit in three years' is better – it's specific and has a time frame attached so you can easily measure your progress.

When things get hard, having a clear goal to anchor you is really important. Keeping your goal in mind helps you to stay motivated and reminds you why you're doing what you're doing.

Visualisation techniques are used by the most successful people to help them reach their goals. Your brain is constantly using visualisation in the process of simulating future experiences. This happens naturally and you probably aren't aware of it (unless you have anxiety like me and a brain that likes to imagine every potential
