This is the largest dragonfly in the world. It has a very long body and many legs.

Brilliant Bugs

Bugs have been crawling, creeping, wriggling and buzzing on Earth for over 400 million years! They come in an amazing variety of colours, shapes and sizes, and no matter where you are, you won't have to look too far before you find one.

Spider
Ant
Fly
Butterfly
Beetle

What is an insect?
Insects are the most common type of bug. They have three body parts, three pairs of legs and two antennae (or feelers). Most have wings. Ants, flies, moths and wasps are all insects.

Counting Creepy-Crawlies
There are so many bugs in the world it is impossible to count them all. Some scientists believe there could be 2.00 million insects for every single person on the planet!

Scientist

7 billion
x
200 million
=
1,400,000,000,000,000,000
(Or 14 quintillion)

Big Families
There are more insects and bugs on Earth than any other kind of animal. Female bugs can lay hundreds or even thousands of eggs at a time.

Ancient insects
Fossils show that millions of years ago huge dragonflies buzzed overhead and massive cockroaches crawled on the land.

New discoveries
Scientists know about 900,000 different kinds of insect, but every year they discover thousands more. They think there may be at least 4 million left to find!

Spider
Ant
Fly
Butterfly
Beetle

Dragonfly

Animal Homes: Ocean

Dive in and explore the ocean in this introduction to habitats for the very young.

- Using Natasha Durley's striking and recognisable animals from *Creature Features* and newly illustrated plants and environments, her colourful and engaging artwork will be enjoyed by a whole new age of reader.
- The first spread starts on the lowest layer of the ocean (the ocean trench) and each subsequent shaped spread introduces the next layer of the ocean (the abyss, the midnight zone, the twilight zone and the sunlight zone). Add a new layer with each page turn until the final spread reveals the full habitat. This tactile, die-cut board book format is a new way to explore and introduce animal habitats, making this series an essential addition to parents' and educators' STEM library.
