- With universal appeal, this collection of stories includes stories from cultures on every continent.
- Cover finishes: arlin and foil

Mythical Tales

DIONYSUS AND THE PIRATES

Long ago, a fast ship sped East, hot sunlight caressing its shadow on the sparkling sea. The wind filled its sails and rows of wooden oars cut through the water, worked by strong sailors. On the ship's deck, twenty pirates smiled. The ship's hold was full of gold, jewels, fine delicacies, and something even better: a rich passenger who was going to make their fortunes!

That morning, a young man with diamond-bright eyes, rich purple robes and long dark hair, had wined and coliced from a cliff-top:

"Sailors! Take me to the island of Naxos. I'll pay you well!"

The pirates agreed, and the young man had boarded the ship. But the pirates didn't just take goods, they were kidnappers too. The ship sailed straight past Naxos, and the captain cried, "You're our captive now! Your family will pay a ransom, or we'll sell you as a slave!"

The young man did not answer. He did not look worried either. He just stood there, eyes glittering, mouth curled up in a secret smile.

PERUN'S STOLEN CATTLE
A tale from Croatia

Perun was a powerful god, the ruler of the sky and the sea. He was the god of thunder and lightning, and he was also the god of the sun and the moon. He was the god of the sky and the sea, and he was the god of the sun and the moon. He was the god of the sky and the sea, and he was the god of the sun and the moon.

One day, Perun was angry because his cattle had been stolen. He was the god of the sky and the sea, and he was the god of the sun and the moon. He was the god of the sky and the sea, and he was the god of the sun and the moon.

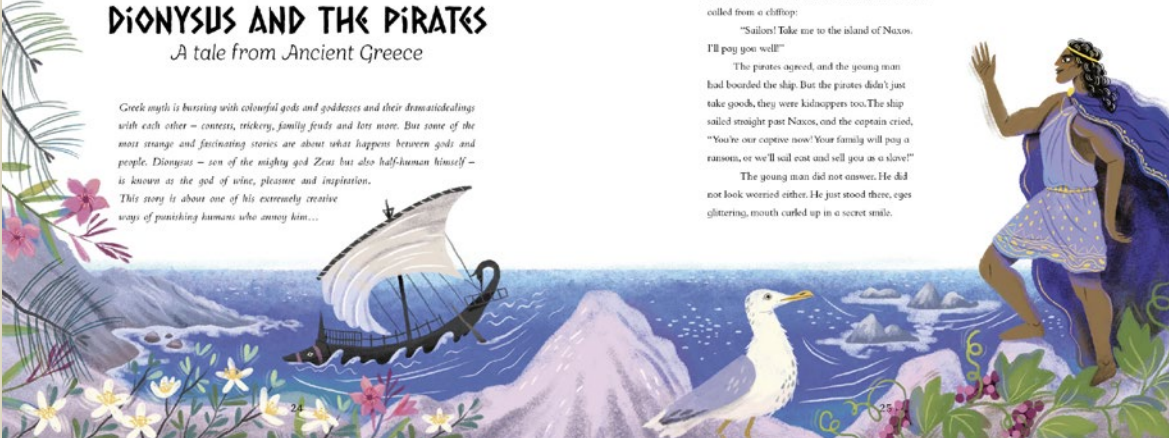

Perun was angry because his cattle had been stolen. He was the god of the sky and the sea, and he was the god of the sun and the moon. He was the god of the sky and the sea, and he was the god of the sun and the moon.

DIONYSUS AND THE PIRATES

A tale from Ancient Greece

Greek myth is bursting with colourful gods and goddesses and their dramatic dealings with each other – conquest, trickery, family feuds and love more. But some of the most strange and fascinating stories are about what happens between gods and people. Dionysus – son of the mighty god Zeus but also half-human himself – is known as the god of wine, pleasure and inspiration. This story is about one of his extremely creative ways of punishing humans who annoy him...

- Written by award-winning classicist and author, Emily Hauser.
- Featuring a range of true stories from around the world, discover the astonishing lengths humankind have gone to in the name of love.
- A list of Sander's publishers: US - Penguin Random House; Germany - Knesebeck Von Dem GmbH

Ancient Love Stories

THE SACRED BAND OF THEBES

This was the final meeting place of the Sacred Band of Thebes, one of the most remarkable and most loyal armies that had ever lived. A bold experiment in an open town square by attacking war and heroes alike, who had died fighting for the freedom of the Greeks. As warriors, not just of soldiers, but of a hundred and fifty noble boys.

Born together by love loyalty to each other, the crack team of warriors was founded in Thebes in 378 BC by an extraordinary visionary by the name of Pammenes. It began as a resistance corps against the looming military power of Sparta (recovered the world over for its legendary military prowess across the continent to the south. These were chivalry, aristocratic, open, splashing blood across the pages of history, and well suited to the birth of a new kind of army.

HERODIAS AND ANTOCHUS

These parts first crossed across years earlier, when Herodias - ruler of the Roman world and self-proclaimed prince of peace - took a summer jaunt across the Roman province of Bithynia, in northern Turkey, where Antiochus had his home. The emperor, busy with his job, probably did not spot Antiochus among the crowds of adoring subjects and eager petitioners. But one of his maids did - and, as usual, with an eye to the emperor's taste, spent a night in the maids' quarters, the kitchen-hooded young man. Antiochus was duly offered a dinner invitation to the palace imperial suite along with a tuition package to the emperor's personal academy in Rome. To be fair, from a duty offer to get to be true - a one-way ticket to live among the stars. But, in any good market of opportunity would have known, by invitation to dinner and you might get home.

Antiochus' rise to the top was meteoric even by Roman standards, where there were plenty of high achievers who made it to the big time. Set among the other staff of the imperial household, Antiochus' - although good-looking, smart, with a magnetic personality and a genuine talent for Herodias' favored horse - quickly caught the emperor's eye. Herodias was instantly besotted, and Antiochus became his paragon. In the summer of 118 AD, at the age of seventeen, Antiochus was personally selected to accompany Herodias on a tour of Greece (Herodias was a notorious Greek enthusiast, from what Antiochus said, finally, Egypt.

It was clear to everyone that Herodias was willing to let Antiochus out of his sight - and together, they took part in many extraordinary experiences on their around-the-world trip. A night-long dip into mystical events at the Thracian Mountain of Gaea. A bank heist in the highlands of Asia Minor. A quest - about the searching out of Herodias' much-loved Greek mythology books - to take down a mountain lion that had been terrorizing the people of Licia. On all these adventures, the new obsession with each other grew steadily.

SHAH JAHAN AND MUMTAZ MAHAL

The story of Shah Jahan and Mumtaz Mahal is one of the most beautiful love stories of all time. A tale of passion, devotion, tragedy and ultimate sacrifice, their love story is a tale that has inspired the great love films of cinema. It is a love story which has moved the hearts of millions of people across the world, showing millions of hearts over a new love pilgrimage to the great world.

It all started when Shujah Khan, one of the great Mughal Empire's nobles and the future Shah Jahan, first laid eyes on Mumtaz Mahal Begum - or Mumtaz Mahal, as she would come to be known. The Prince Mumtaz Mahal, one of the great Princes of the Mughal Empire, was a prince of peace, a prince of love. He was a prince who was known for his gentle nature, his kindness, his wisdom, his courage, his loyalty, his devotion, his love. He was a prince who was known for his love of Mumtaz Mahal. He would hold a loving conversation in her memory, to the Mahal, the world was rich and change with time. People would think, surely of their love.

At the time, the Mughal empire was down to reach its dazzling zenith. The Shah Jahan's empire, the three nations King Shah Jahan had made down with his forces from the mountains in the north to the banks of the world's greatest river.

MARK ANTONY AND CLEOPATRA

wafted by attendants dressed as cupids and sea-nymphs: Cleopatra, Ruler of Egypt. Goddess of the Nile. Queen of one of the wealthiest countries in the world. Beautiful, certainly, at just twenty eight, but more than anything, utterly, alluringly certain of her star-quality charisma. As one writer put it, "her sex appeal, together with her powers of persuasion and her ability to charm all around her, made her simply, irresistibly desirable." This was who had come to call on Mark Antony, one of the most powerful men in Rome (and so, at that time, the world). Antony was a soldier, a devotee of the wine-god Dionysus, a playboy extraordinaire - a man, in other words, who lived life in vivid technicolour.

If anyone was going to make Rome's fun-loving general pay attention, it was going to be the young queen sailing towards him dressed in gold.

But there was more to this than just sex appeal. For Antony, vying to hold onto his position of power amidst the remains of the crumbling Roman Republic, Cleopatra meant Egypt, and Egypt meant two things: grain and gold. Both were essential to fund (and feed) his battle for world domination. For Cleopatra, Antony meant Rome's backing for her precarious hold on power back home, following a decade of civil war, during which the young queen had gone into exile and returned with an army to take the throne from her brother. No meeting could be more important for either of them. It was a moment well worth a bit of theatre, not to mention a spot of role play.

Icons of Cinema: Baz Luhrmann

A celebration of the iconic movie director behind *Moulin Rouge!* and *Elvis*.

- Written by Emily Maskell, freelance film critic who has written for BBC Culture, GQ, W Mag and more.
- Illustrated with full colour photographs including events and movie stills.
- The next title in this series, **Icons of Cinema: Greta Gerwig**, will publish in 2025.
- With home streaming services expanding and multiplying at an incredible rate, as well as the Barbenheimer Effect of 2023, there is a renewed interest in film and cinema.

Icons of Cinema: Baz Luhrmann

Paso Doble Flare

Though Scott and Fran perform several ballroom dances throughout *Strictly Ballroom*, their sub-breaking paso doble is the most memorable. The Latin ballroom dance initiates a ballfight; the male dancer is the mascot, while the female dancer is the real sayer of a romance. After another heated argument with his mother, Scott arrives at Fran's house and confides his desire to dance with her at the competition. However, Fran's Spanish family does not readily receive his declaration. Fran's father, Roco (Antonio Vargas, one of the world's leading Flamenco dancers), especially scowls at the young man and demands to see his paso doble in action.

They gather on the wooden terrace, lit by lanterns with Fran's family playing live instruments as Scott and Fran's dance is met by raucous laughter. Roco can't just stand by and watch his son assume the outsider position, head held high with smug confidence and effortless grace. The family forms a ring in which Roco challenges Scott with a "who is how it's done" game. They look like two bullfighters facing off. Luhrmann holds an extreme close-up on the intensity of Roco's forehead, while the sound design focuses on the increasingly loud clicking of his heels. Rapid fire editing cuts jump between close-ups of Fran's dancing and Scott's wonderment. The fiery

moment melts into a scene of schooling between the two men, who are very different from one another.

Roco becomes Scott and Fran's unofficial dance coach to help them perfect their paso doble. Fran's grandfather Yi Yi (Antonio Banderas) also assists, the film Scott's choreographer. The rhythm of the music into his soul to help him "dance from the heart". Their tightly choreographed is brought forward into the daylight, no longer hiding in the dark – it's a subtle callback to Fran's sentiment that "his life lived in fear is a life half lived". Luhrmann characterizes such scenes with a traditional soundtrack composed of the nearly railway system, deliberate, cutting, the family's clapping, and the humming of a map.

OPPOSITE TOP: Fran (Damon Gameau) and Scott (Alexandra Roach) dance together. OPPOSITE BOTTOM: Scott (Damon Gameau) performing a flamenco dance. ABOVE: Scott (Damon Gameau) and Roco (Antonio Banderas) watching the dance.

A 21-year-old DMCapt called the character's complicated blend of emotions, cycling through all of these emotions in a few seconds. His anger is tangible in his unrelenting gaze and taunting expression as he faces the gun, but then comes shame. Luhrmann cuts to an extreme close-up of Roco's expression. DMCapt's face the only thing visible in the frame. Roco's anger turns to regret as tears spill from bloodshot eyes and blood trickles down his cheeks. There is no soundtrack for Roco's breakdown, just the patter of falling rain as he whispers: "I am Roco's fool".

Luhrmann jumps so quickly between the tranquil love and agonized violence that there is no character left untouched by the threat of death. The murder of both Mercutio and Tybalt demonstrates that this burning desire to defeat the enemy is worth it all in vain. Through Tybalt killing Mercutio and Roco killing Tybalt.

Roco has not only lost his best friend but left a devastating mark on the household's unity. The self-destruction of youth vulnerability with Roco's Jade's heartbreaking conclusion as the two lovers tragically take their lives in each other's arms.

ABOVE: Roco (Antonio Banderas) watches the murder of Tybalt.

Luhrmann's Outback

On horseback, Luhrmann's epic drama captures the landscapes of Australia with wonder. This vast romance resonates over the landscape as much as Lady Sarah and Dorothea's infatuation. As the pair roam across endless miles of land, driving cattle, cinema-ographer Mandy Walker highlights the non-linear Outback's outgrowing nature.

Luhrmann's signature style of visual opulence infuses with Walker's long shots of dusty scrubbed plains, incredible sunsets and formidable mountainous terrain. As Walker sweeps over various terrains, the aerial shots are borderless panoramas. The cinematography borrows from the classic American western – capturing cattle drives like Howard Hawks' *Red River* – with grand vistas reduced to the expansive Outback. Further bolstering Australia, unlike Jill Blacklock's hyperactive editing, Dede Dorn and Michael McCook take a more restrained approach. The Outback lingers on the screen as viewers can properly absorb its grandeur.

Light is a central component of Luhrmann's storytelling. Walker's wide frames find each character under the blazing Australian sun, but the exposure quality of light and the noticeable absence of it imbues Australia's frames with a fantastical quality. Filming in Koorara, a remote region of northern Western Australia, temperatures soared to a grueling 43°C and the intensity of sunlight bleached the cattle driving scenes. The sun is a guiding light but a punishing force in the outback, and the *Never Never* does what the borders traverse.

Luhrmann's lens appreciates Australia's landscapes, whether observing King George atop a mountain or Lady Sarah trudging through the sands. The film explores through several characters and their differentiating outlooks as Luhrmann examines the beauty of the desert and plains while contemplating the harsh reality of the country's history.

TOP: Dorothea (Lily Lauder) in The Outback.

MIDDLE: Lady Sarah (Lily Lauder) and Dorothea (Lily Lauder) in The Outback.

BOTTOM: Lady Sarah (Lily Lauder) in The Outback.

THE CURTAIN RISES...

The Showman

Over three decades, Mark Anthony Luhrmann, who goes by the moniker Baz Luhrmann, has cemented himself as one of cinema's most recognisable filmmakers. The Australian film director, producer, writer and actor has worked across television, opera, theatre and music, but it is in the cinematic realm where he has really flourished. He is regarded as a contemporary auteur renowned for his theatrical aptitude, opulent aesthetic and sweeping romances.

Luhrmann is a showman as much as a director, known for conducting dramatic narratives that play out on a flamboyantly grand scale. Culturally, his significance spans the arts as he takes classic narrative structures and morphs them through new perspectives, not limiting himself to the boundaries of realism. This signature style marks the Australian filmmaker as a pioneering storyteller where the fusion of high and low pop culture creates an entirely singular body of films.

Street Style: Nike

Visual history of the iconic street style brand.

- Illustrated with full colour photographs showcasing the brand's history.
- Cover finishes: mat lam and foil.
- Written by sneaker connoisseur Gerald Flores. With over a decade of journalistic experience, Gerald is fascinated by the people, designers and stories behind sneakers. He has interviewed personalities including Kobe Bryant, Tinker Hatfield and Virgil Abloh.

Street Style: Nike

Nike's terms included \$500,000 in cash for five years, an endorsement figure that was unprecedented in that era. The highest number endorsement before 1984 was New Balance's deal with the Los Angeles Lakers. Larry Nystry for \$150,000 a year for eight years. Other perks offered to Jordan included stock options and a custom built shoe for the basketball to play in.

There were some stipulations, however. Nike wrote a clause in the initial contract that required Jordan to accomplish one of three things - win NBA Rookie of the Year, to become an All-Star, or to average 20 points per game within his first three years. If Jordan didn't, Nike reserved the right to end the deal two years early.

By the time Jordan's first year in the NBA ended, he averaged 28 points per game after playing every game of the season. Not only did he win Rookie of the Year honors during the 1984-85 season, but the rising star became the darling of the League with his acrobatic style of play that made the name of his signature Nike shoe acronym: Air Jordan.

Nike made over \$500 million in revenue thanks to the sale of Air Jordans by the end of that first year - a new industry standard for how brands would market, design and distribute through signature products was set.

Max Blackman's marketing campaign still made way for new shoes to step in to advertise the Air Jordan 7. Bugs Bunny and the Looney Tunes. Among the number three Jordan. Bugs joined Jordan for a series of memorable commercials and print ads promoting the Air Jordan 7. One notable iteration of the shoe was a white-based colorway nicknamed 'Yare,' paying homage to Bugs' involvement.

The Air Jordan 7 gained even more mainstream exposure when Jordan showcased the 'Bridges' colorway in Michael Jackson's music video for 'Jam.' This collaboration between the two biggest cultural icons of their time further solidified the Air Jordan 7's place in sneaker and pop culture history.

OPPOSITE: The Nike Air Max 180 is a collaborative effort between two giants in the footwear design industry: Timberland and Bruce Kilgore. At the time of its creation in 1991, Hatfield was renowned for his groundbreaking work on previous Air Max models, pushing the boundaries of sneaker design and technology. Meanwhile, Kilgore had achieved legendary status for his iconic creation, the Air Force 1. Together, they set out to make Air Max bigger and better than it had ever been.

Nike Air Max 180

The Nike Air Max 180 was a collaborative effort between two giants in the footwear design industry: Timberland and Bruce Kilgore. At the time of its creation in 1991, Hatfield was renowned for his groundbreaking work on previous Air Max models, pushing the boundaries of sneaker design and technology. Meanwhile, Kilgore had achieved legendary status for his iconic creation, the Air Force 1. Together, they set out to make Air Max bigger and better than it had ever been.

The duo's goal for the shoe was to once again make Nike's patented Air technology larger and more visible than it had ever been. To achieve this, they based in on a hush-hush concept for the Air unit, which allowed for increased visibility along the sides and underfoot of the shoe. They utilized a blow molding process to create a version of the bag that provided maximum visibility and impact absorption. Moreover, the Air 180 was the first shoe to feature a swooshbase outside embedded

directly to the Air unit, further enhancing its visibility and performance capabilities. The heightened visibility of the Air technology directly inspired the name Air 180.

During a period when Michael Jordan's endorsement could significantly impact any product, he was photographed wearing a pair of Nike Air 180s in the 'Concord' colorway for a photo shoot preceding the 1992 Olympics. This high profile shoot provided the Air 180 model with exposure to a wider audience and bolstered its mainstream appeal.

While the Nike Air 180 didn't initially receive the same level of fanfare as its contemporaries, its significance and appreciation have grown considerably over the years. As time has passed, the Air 180 has emerged as a standout and essential release within the Nike Air Max series.

OPPOSITE: The Nike Air Max 180 is a collaborative effort between two giants in the footwear design industry: Timberland and Bruce Kilgore. At the time of its creation in 1991, Hatfield was renowned for his groundbreaking work on previous Air Max models, pushing the boundaries of sneaker design and technology. Meanwhile, Kilgore had achieved legendary status for his iconic creation, the Air Force 1. Together, they set out to make Air Max bigger and better than it had ever been.

LEFT: Designer and former Nike collaborator Gene Watanabe with the Nike Air Max 180 in 2007.

'Well, I don't love it,' Knight was heard saying upon the first review. 'But it will grow on me.'

The Swoosh definitely grew on Knight as the shape also bore a resemblance to the wings on the Greek goddess that Nike was named after. It would go on to become one of the most well-known logos in the world.

While Davidson was initially paid just \$35 for her design, Knight saw her as one of the original minds behind the brand and wanted to acknowledge this. In 1983, the founder rewarded Davidson with 500 shares of Nike, as well as a golden ring

with a Swoosh-shaped diamond, which is possibly the biggest remuneration for any logo design in history.

The marking is such a part of Nike culture that every new athlete that signs with the brand is tasked to draw their own version of the Swoosh. There have been different evolutions of the Swoosh and you can see the various iterations if you look through Nike's back-catalogue of products. Designer and Nike collaborator Virgil Abloh nodded to Davidson's original Swoosh design on the cover of his book *Something's Off* and the marking has been reversed on signature product for eccentric players, like Dennis Rodman's Air Darwin sneaker. But the essence of the Swoosh remains in its simplicity, its elegance and the way it represents movement.

OPPOSITE: Giannis Antetokounmpo's first signature sneaker implemented its performance features in the midsole in the shape of a reverse Nike Swoosh.

ABOVE: A lightning bolt effect on the Nike Swoosh printed on a pair of track spikes.

Street Style: Dr. Martens

The original pair of Dr. Martens' AirWair shoes were still a far cry from the instantly recognizable models the brand is known for today. The uppers were much more minimal in decoration and the sides were much wider with a very visible contrast thanks to a lighter-colored sole.

The first more traditional designs have more in common with a modern-day hybrid dress shoe than the sleek, utilitarian shapes of popular Dr. Martens styles, now set atop a well-translucent lug sole. Perhaps the unintentionally fashion-forward aesthetic is one of the reasons why women gravitated towards them long before more conservatively-dressed men did. It's hard to imagine one trying to pull these off within the strict dress codes of the 1950s, where leather-soled, dark-hued bottom footwear was still the norm for doing business. But looking back now, it set the perfect stage for what Dr. Martens would become: the ultimate anti-dress shoe.

LEFT: A modern pair of Dr. Martens 1460 boots.

The Spring Behind Every Step

It's hard to believe that an orthopaedic shoe could be synonymous with rebellious style around the world. Yet that is what the Dr. Martens brand continues to represent to millions of its ardent fans.

It can be challenging to maintain one's cool factor over the decades, but by intentionally aligning itself with subcultural style, the nearly octogenarian footwear manufacturer hasn't lost a single step when it comes to cultivating an alternative type of timeless footwear. Considering the United Kingdom also has a rich history of fine Savile Row tailoring, Scottish wools and ruggedly elegant Harris Tweeds, fashion houses like Burberry and tastefully tough outerwear from brands like Barbour, Dr. Martens is singular in that canon of classic British style. Indeed, Dr. Martens is a staunch iconoclast, a bastion of anti-establishment ideals for people who prefer to dress against the grain.

But despite the modern connotation of what Dr. Martens has become, its roots are built on a comfortable foundation. Dr. Klaus Maertens first conceived of the footwear's signature 'AirWair' sole while recuperating from a World War II foot injury.

Finding his standard-issue German Army boot severely uncomfortable for his ailing foot, he utilised soft leather for

The Birth of Bouncing Soles

Now that you've briefly had a glimpse at Dr. Martens' future, it's time to rediscover the past. How did a German town based in a distinctly British? That story begins in 1901. A man named Benjamin Griggs and his business partner, Rufinus, have begun a company to manufacture boots in Wollaton, north Nottinghamshire. By 1901, they had incorporated as B. Griggs & Co. Ltd., eventually becoming the B. Griggs Group.

In just a couple of decades, Wollaton had become one of England's shoe-making capitals. As early as 1881, one of its shoe factories was established as a workers' co-operative of local cobblers (known as 'The Buffers'), and it was now being run as the Nottinghamshire Productive Society, still making shoes as NPS, where its manufacturers may well know high-end footwear brands.

But the B. Griggs Group continued to flourish well into the 1950s under the leadership of Bill Griggs, who inherited the family business around that time. His fortunes would grow even more when he decided to take a risk in 1958. Backing on the success of their fledgling footwear business, Dr. Klaus Maertens and Dr. Berhart Funk began soliciting advertisements for Dr. Martens' AirWair shoes in international magazines. Griggs saw the fit of this innovative air-cushioned sole by two German doctors and instantly recognised its potential. After

all, having grown up in factories his whole life, he understood the need for sturdy, robust work boots, but also knew how uncomfortable they could be.

Ironically, the rest of his family disagreed with his foresight, seeing the air-cushioned sole as a gimmick, the kind of fad in the past that would fade out over time while leather-soled boots would be around forever. But he treated his intuition and went ahead to meet with Dr. Maertens and Dr. Funk, later developing a rapport with them and taking the exclusive licence for their AirWair-soled shoes in the United Kingdom.

ABOVE: Bill Griggs, longtime owner of the B. Griggs Group that went on to own all of Dr. Martens.

Mod Squad

One of the most prominent British music subcultures to arise in the 1960s and early 1960s was the Mod subculture – or 'Mod' for short. Musical taste was just one part of the complete identity. Mods were associated with clean-cut fashion pieces like polo shirts, modish suits and military issue MCI (militaristic) parkas, especially ones embellished with the signature rounded of the Royal Air Force. It was a subculture focused on executing everything with intention – the hair you had, the clothes you wore, the music you listened to and the scooter you drove.

An avid fan of The Who, it's no surprise that Dr. Martens became an inalienable part of Mod's uniform. The sleek lines of the boots looked good with suits and especially complemented the minimalist style of the subculture and could also be worn on the Mod vehicle of choice: the Vespa scooter.

RIGHT: Two customising modders take a break from their Vespa (Advertisement Archive, c.1963)

In contrast, the slicker-shaven subculture of Rockers who favoured leather motorcycle jackets, creepers, engineer boots and denim saw the Mod obsession with current fashion, jazz and R&B as effeminate, and numerous physical altercations between the two groups led to a moral panic about the ease of overly youth. Boys with the Mods eventually won out as their way of dress slowly seeped into the British mainstream, leading to the Swinging London phase of the 1960s. But as all trends go, as one fad falls out of favour, another one is right behind it to take its place.

Tiffany & Co.: The Story Behind the Style

The King of Diamonds: Charles Lewis Tiffany

Charles Lewis Tiffany, the man who would go on to win the moniker of New York's 'King of Diamonds', did not hail from a long line of jewellers. His start in life was more modest, making his name in high society all the more glittering.

Tiffany was born in 1812 in Canton and later Tiffany, and grew up in the small town of Killbuck, Connecticut. The major business of the town was the production of cotton goods, and the family owned a manufacturing company. Tiffany was educated at local schools in the area before joining his father in the family cotton business.

By 1837, Tiffany felt restless. No longer satisfied by working at home with his family, he began to envision how he could make his own mark in business. He turned up with a friend, John J. R. Young, and the duo set in motion a plan to open a stationary store in New York City. With a \$1,000 loan from Charles' father, the ambitious 25-year-old made the 150-mile journey north. The store, named Tiffany & Young, opened its doors at 259 Broadway that same year, and on its first day, \$4,981 rang through the till.

Tiffany & Young soon began to expand its remit, stocking glassware, silver, porcelain, clocks and jewelry, and began to develop a

OPPOSITE: Tiffany & Co. founder Charles Lewis Tiffany photographed by James Mathew Smith in 1902.

reputation as a purveyor of fine goods of taste. In 1841, the business expanded with the addition of a third partner, J. L. Ellis, and was renamed Tiffany, Young & Ellis. The trio expanded the store, doubling its size by moving the adjacent site, and continued to increase the quality of the goods they sold, with Young making buying trips to Europe to pick out English and Italian jewelry.

It was, in fact, political events in Europe that would be the making of this American luxury success story. In 1848, the status quo crumbled as republican revolutionaries sought to topple European monarchies and strip aristocrats of their power and wealth. It was a societal upheaval known as the Springtime of Nations. More than 50 countries were inspired by this, but none more so than France, where the monarchy was overthrown and replaced with a republic. Such widespread panic and disruption had an impact on the price of diamonds, and Tiffany, Young & Ellis reaped, by now, the full

OPPOSITE: An illustration of a jewelry store, inspired by the Tiffany & Co. store in New York.

OPPOSITE: A sketch of the Tiffany & Co. store at the Excelsior Hotel in Paris in 1893.

In 1853, Young and Ellis decided to retire from the business, but Charles Lewis Tiffany was far from finished. He found new partners to work with, and the business was, at this point, renamed Tiffany & Company. Tiffany would go on to build his empire, grabbing headlines along the way. By the 1860s, the business was well established as an exponent of choice for the rich and the famous, both for its jewelry and its top-quality silver. In 1862, President Abraham Lincoln purchased a set of pearl neckties and earrings from Tiffany & Co. for his wife Mary Todd Lincoln, who wore them to her husband's inauguration ball.

In 1870, Tiffany & Co. moved into a large new store in New York's Union Square, marking the beginning of a major decade for the jeweller one in which Charles Lewis Tiffany would earn the title of King of Diamonds. It was a single purchase that would truly jolt Tiffany into the high-jewellery atmosphere – a 237-carat rough fancy yellow diamond. When cut and polished, what emerged was a diamond of staggering enormous proportions for a rare yellow diamond of that quality: it weighed 128.54ct and was named the Tiffany Diamond.

If the purchase of this rare world-famous stone, which is on permanent display at Tiffany & Co.'s Fifth Avenue store in New York, signalled Tiffany's intention to dominate the diamond market, his groundbreaking invention eight years later sealed the deal. Seeking to

celebrate the beauty of diamonds, Tiffany designed an engagement ring in 1886 that remains a sought-after classic to this day. The Tiffany Setting engagement ring kicked back against the over-fussy designs of the time with a clean, minimalist band and a six-prong setting that lifted the diamond above the ring. The purpose for this innovative setting was to allow light to flow through the stone, and therefore maximise the sparkle. It was a huge hit, and the iconic design has become synonymous with engagement rings.

Just 15 years before his death, Tiffany pulled off a final coup. The aftermath of the French Revolution that had gifted Tiffany an abundance of important gems in 1848 and its early credibility in high-jewellery circles rumbled on. In 1887, the French government was masterminding a plan to sell the crown jewels of its fallen monarchy. Outwardly, it claimed that a democracy such as France had no need for "objects of luxury, devoid of usefulness and moral worth". The rumour mill suggested that it was in fact afraid of a power grab by Bourbons, Orleanists or Bonapartists, who might use ownership of the jewels to claim a right to rule. Tiffany cared little for this political posturing, but he did see an opportunity in it. He travelled to Paris to attend the auction of the French crown jewels at the Louvre. He sat in the audience, ready to make his bids, along with fellow jewellers, including a young Frédéric Boucheron, and Orleanists, members of the French royal family, whose pockets proved too shallow on the day to win back their family heirlooms.

When the final strike of the gavel fell, Charles Lewis Tiffany had in his possession close to a third of the historic crown jewels. He placed them in specially crafted red-leather boxes, embossed in gold with the words *Diamants de la Couronne*, translating from French as Crown Diamonds. Inside, impressed on the silk lining in the lid, was Tiffany & Co. New York and Paris, thus securing Tiffany & Co.'s place in the history books as a purveyor of royal jewels and his own coronation as the King of Diamonds.

Cartier: The Story Behind the Style

The Beginnings of Cartier

The house of Cartier started with one man, Louis-François Cartier, but it would take a family to make it one of the most recognised and respected jewellers in history.

It was, in fact, Louis-François' father, Pierre Cartier, who set the dynasty in motion, although he could never have imagined the consequences of his actions at the time. Pierre had fought in the Napoleonic wars and spent time locked in the prison ships docked off the harbour at Portsmouth in Britain. When the war ended in 1815, Pierre returned to Paris, destitute and aimless. He would go on to find employment as a watchmaker and have five children with his wife Elisabeth, a watchwoman.

The eldest of the children born into this working-class Parisian family was Louis-François, and when he was barely out of school, his father sent him to work as an apprentice in a jewellery workshop owned by Adolphe Picard on Rue Montorgueil in Paris. It was a tough education – days were long and grueling and order was maintained with a whip – but he stayed and in 1847, at the age of 27, Louis-François bought the business from Picard, renaming it Cartier.

OPPOSITE: Cartier founder, Louis-François Cartier

His makers mark – a symbol hallmarking into every piece of Cartier jewellery to authenticate it – was his initials, L. C., separated with an arc of leaves playing cool, perhaps as a nod to the financial gamble he was taking. Luckily, the risk paid off and the Cartier business thrived and expanded. In 1866, Princess Mathilde, a cousin of Emperor Napoleon III, purchased one of his jewels, and the Cartier name was suddenly whispered among Parisian high-society, even reaching the international elite. Three years later, Louis-François bought Gillon, a Parisian jeweller better known than his own, and renamed his business Cartier Gillon.

Louis-François' son Alfred Cartier took over the family business in 1874, but it was the arrival of his own three sons – the highly ambitious Louis, Pierre and Jacques – that would really shake up the jeweller and initiate its ascendance to the global brand we know today. The brotherly revolution started with Louis, who joined the nation in 1898. A year later he spearheaded the remaining

INVIOUS: Start of the Cartier business in Paris in 1847.

OPPOSITE LEFT: An illustration of Louis-François Cartier c.1848.

OPPOSITE RIGHT: Pierre Cartier playing golf in Paris.

of the business, stripping over Gillon to once again be known simply as Cartier. At the same time, the business opened a boutique at 13 rue de la Paix, just a stone's throw from Place Vendôme, the heartland of luxury jewellery in Paris. This venture was funded by an enormous dowry levied through a strategic arranged marriage to Andine-Caroline Worth, granddaughter of world-famous couturier Charles Frederick Worth.

Cartier garnered a reputation for innovation, and the title of jeweller would later live by a motto, 'Never copy, only create'. One of Louis' most successful experiments in the close of the 19th century was to use platinum in place of gold. This precious metal is now widely used by jewellers across the world, but at the time it was purely an industrial metal and thus revolutionary in the jewellery market. The white metal, which, unlike silver, does not tarnish, is highly malleable and allowed Cartier to create delicate, diamond-set jewels inspired by those created by 18th-century French aristocrats, a stark contrast to the heavier, colourful, Romantic Art Nouveau jewels popular at the time. A signature Cartier Gulland style emerged, swirling across platinum stems, necklaces and earrings, that won over well-to-do women, including royal, in Europe and the United States.

Pierre Cartier, the second eldest of the brothers, would be an agitator in his own right, championing the global expansion of the brand's retail empire. He started by opening a Cartier boutique on New Burlington Street in London in 1902, where the brand showcased a new style of geometric, abstract jewels with unusual colour combinations that would lay the foundations for the Art Deco jewellery movement.

The first decade of the 20th century was an important time for Cartier. In 1904, the jeweller received its first royal certificate from King Edward VII of Britain, and soon started to supply many other royal courts including those of Russia, Spain and Siam (now Thailand). In the same year, Louis Cartier created what he believed to be the first ever men's wristwatch for aviator Alberto Santos-Dumont.

Pierre, meanwhile, embarked on a journey to Russia; one that would prove profitable in commissions from its high society, but also as a source of inspiration that would shape Cartier's jewellery designs for years to come.

In 1909, Pierre would focus his wanderlust on America, opening a Cartier boutique on New York's Fifth Avenue; the precursor to its famous flagship store further up the street, the purchase of which he would famously broker a decade later in exchange for a string of pearls. Back in London, his younger brother Jacques stepped in to take over its British branch. That same year, Cartier moved uptown to a prestigious Bond Street address, where it remains to this day.

As Cartier's man in Britain, and, as such, jeweller to King George V, Jacques joined members of the aristocracy on a trip to India for the Delhi Durbar in 1911. It was an event

LEFT: Cartier platinum pendant watch set with diamonds, rubies and a pearl, c.1890-1910.

to commemorate the coronation of the King, with two weeks of festivities, during which King George V and Queen Mary would be proclaimed Emperor and Empress of India. This adventure to a new land would also prove to be a seminal trip for the house of Cartier. Jacques' sociable nature and love of travel would win ground-breaking commissions from India's rich, jewel-loving maharajas and inspire a whole new category of jewellery, pioneered by Cartier and much copied by other companies.

What I Love About Me

Fill-in journal to inspire reflection and self celebration

- The new title in the bestselling *What I Love About You* series
- A fill-in journal to inspire self reflection and growth
- An empowering book that taps into trends of self celebration, journaling and intention setting
- *What I Love About You* has sold over 125,000 copies (as of July 2022)

What I Love About Me

Taking the time every day to write down your thoughts and feelings is a great way to check in with yourself and track your progress over time.

Good morning! 

Today, I am grateful for...

- _____
- _____
- _____

I will invest my time and energy into...

- _____
- _____

Write your daily affirmation.
I am... _____

Write your answers to the prompts below, then use it as a template to create your own personalised daily journal.

Goodnight! 

Today, these amazing things happened...

- _____
- _____
- _____

What could I have done to make today even better?

What will I improve tomorrow?

At the end of the week, take a moment to sit and reflect. Answer the questions and then use this as a template to track your weeks over time.

What are my current priorities, and did I fulfil them this week?

- _____
- _____
- _____

This week, I spent too much time... _____

This week, I didn't spend enough time... _____

What surprised me this week? _____

This week, I am grateful for...

- _____
- _____
- _____

Use this space to write any thoughts or feelings that came up throughout the course of the week.

Use this space to celebrate any successes this week.

Monthly Reflection
